## **International Migrations Since 1945:**

**International Migrations Since 1945** Anthony Trawick Bouscaren, 1963      **The Changing Structure of Europe**, 1970-01-01      **The Cambridge History of Global Migrations: Volume 2, Migrations, 1800-Present** Marcelo J. Borges, Madeline Y. Hsu, 2023-06-01 Volume II presents an authoritative overview of the various continuities and changes in migration and globalization from the 1800s to the present day. Despite revolutionary changes in communication technologies, the growing accessibility of long distance travel and globalization across major economies, the rise of nation states empowered immigration regulation and bureaucratic capacities for enforcement that curtailed migration. One major theme worldwide across the post 1800 centuries was the differentiation between skilled and unskilled workers, often considered through a racialized lens. It emerged as the primary divide between greater rights of immigration and citizenship for the former and confinement to temporary or unauthorized migrant status for the latter. Through thirty-one chapters, this volume further evaluates the long global history of migration and it shows that despite the increased disciplinary systems, the primacy of migration remains and continues to shape political, economic and social landscapes around the world.

**Cultures in Contact** Dirk Hoerder, 2002-11-21 A landmark work on human migration around the globe, *Cultures in Contact* provides a history of the world told through the movements of its people. It is a broad, pioneering interpretation of the scope, patterns and consequences of human migrations over the past ten centuries. In this magnum opus, thirty years in the making, Dirk Hoerder reconceptualizes the history of migration and immigration, establishing that societal transformation cannot be understood without taking into account the impact of migrations and indeed that mobility is more characteristic of human behavior than is stasis. Signaling a major paradigm shift, *Cultures in Contact* creates an English language map of human movement that is not Atlantic Ocean based. Hoerder describes the origins, causes and extent of migrations around the globe and analyzes the cultural interactions they have triggered. He pays particular attention to the consequences of immigration within the receiving countries. His work sweeps from the eleventh century forward through the end of the twentieth when migration patterns shifted to include transpacific migration, return migrations from former colonies, refugee migrations and distinct regional labor migrations in the developing world. Hoerder demonstrates that as we enter the third millennium, regional and intercontinental migration patterns no longer resemble those of previous centuries. They have been transformed by new communications systems and other forces of globalization and transnationalism.

**Citizenship and Migration** Stephen Castles, Alastair Davidson, 2020-06-30 This book argues that basing citizenship on singular and individual membership in a nation state is no longer adequate since the nation state model itself is being severely eroded. It examines issues of citizenship and difference in the Asia Pacific region.

**Communist Eastern Europe; Analytical Survey of Literature** United States. Department of the Army, 1971      **Global Keynesianism** Gernot Kohler, Arno Tausch, 2002 *Global Keynesianism: Unequal Exchange, Global Exploration, Communism, Nationalism and Ethnicity in Poland, 1944-1950*

Michael Fleming,2009-09-10 This book examines the establishment of communist rule in Poland from 1944 1950 It examines the fundamental role of nationalism and nationality policy in the consolidation of communist power acting as a crucial nexus through which different groups were both coerced and able to consent to the new order The New Wider World Garrett Nagle,2004 Highlights the knowledge and skills that students need to know and learn for success in their specification Identifies relevant content in The New Wider World Second Edition for more in depth study and learning Aids students with their exam preparation by providing practice questions to support revision and increase confidence *Americanism* Michael Kazin,Joseph A. McCartin,2012-01-01 What is Americanism The contributors to this volume recognize Americanism in all its complexity as an ideology an articulation of the nation s rightful place in the world a set of traditions a political language and a cultural style imbued with political meaning In response to the pervasive vision of Americanism as a battle cry or a smug assumption this collection of essays stirs up new questions and debates that challenge us to rethink the model currently being exported too often by force to the rest of the world Crafted by a cast of both rising and renowned intellectuals from three continents the twelve essays in this volume are divided into two sections The first group of essays addresses the understanding of Americanism within the United States over the past two centuries from the early republic to the war in Iraq The second section provides perspectives from around the world in an effort to make sense of how the national creed and its critics have shaped diplomacy war and global culture in the twentieth and twenty first centuries Approaching a controversial ideology as both scholars and citizens many of the essayists call for a revival of the ideals of Americanism in a new progressive politics that can bring together an increasingly polarized and fragmented citizenry Contributors Mia Bay Rutgers University Jun Furuya Hokkaido University Japan Gary Gerstle University of Maryland Jonathan M Hansen Harvard University Michael Kazin Georgetown University Rob Kroes University of Amsterdam Melani McAlister The George Washington University Joseph A McCartin Georgetown University Alan McPherson Howard University Louis Menand Harvard University Mae M Ngai University of Chicago Robert Shalhope University of Oklahoma Stephen J Whitfield Brandeis University Alan Wolfe Boston College *The Unsettling of Europe* Peter Gatrell,2019-08-27 An acclaimed historian examines postwar migration s fundamental role in shaping modern Europe Migration is perhaps the most pressing issue of our time and it has completely decentered European politics in recent years But as we consider the current refugee crisis acclaimed historian Peter Gatrell reminds us that the history of Europe has always been one of people on the move The end of World War II left Europe in a state of confusion with many Europeans virtually stateless Later as former colonial states gained national independence colonists and their supporters migrated to often unwelcoming metropolises The collapse of communism in 1989 marked another fundamental turning point Gatrell places migration at the center of post war European history and the aspirations of migrants themselves at the center of the story of migration This is an urgent history that will reshape our understanding of modern Europe Imperial Migrations E. Morier-Genoud,M. Cahen,2012-12-15 This volume
