Inventing A Hero:

Inventing a Hero Glenn Anthony May, 1996 Andres Bonifacio the leader of the Philippine Revolution of 1896 has become one of the country's great national heroes. He is celebrated in history textbooks read by millions of young Filipinos. His image cast in bronze and cut into stone stands on plazas across the archipelago. But what do we really know about him? As succeeding generations of historians have re-created his legend, has the real Bonifacio been lost to us forever? In this carefully researched work Glenn May sifts through the slender documentary legacy that Bonifacio left behind after his execution in 1897. Through a close reading of these texts he uncovers a history of mythmaking in the service of nationalism. Our contemporary image of Bonifacio is the sum of unreliable personal testimony and dubious, possibly doctored documents. If the real history of the Philippine Revolution is to be written, May concludes, historians will have to break through these heroic myths and admit to the limitations of the existing sources.

Distributed for the Center for Southeast Asian Studies, University of Wisconsin-Madison. **1898** Taina Beatriz Caragol-Barreto, Taína Caragol, Kate Clarke Lemay, Jorge Duany, Theodore S. Gonzalves, Kristin Hoganson, 2023-12-12 A revealing look at U.S. imperialism through the lens of visual culture and portraiture. In 1898 the United States seized territories overseas, ushering in an era of expansion that was at odds with the nation's founding promise of freedom and democracy for all. This book draws on portraiture and visual culture to provide fresh perspectives on this crucial yet underappreciated period in history. Taína Caragol and Kate Clarke Lemay tell the story of 1898 by bringing together portraits of U.S. figures who favored overseas expansion, such as William McKinley and Theodore Roosevelt, with those of leading figures who resisted colonization, including Eugenio María de Hostos of Puerto Rico, José Martí of Cuba, Felipe Agoncillo of the Philippines, Padre José Bernardo Palomo of Guam, and Queen Liliʻuokalani of Hawaiʻi. Throughout the book, Caragol and Lemay also look at landscapes, naval scenes, and ephemera. They consider works of art by important period artists Winslow Homer and Armando Menocal, as well as contemporary artists such as Maia Cruz Palileo, Stephanie Syjuco, and Miguel Luciano. Paul A. Kramer's essay addresses the role of the Smithsonian Institution in supporting imperialism, and texts by Jorge Duany, Theodore S. Gonzalves, Kristin L. Hoganson, Healoha Johnston, and Neil Weare offer critical perspectives by experts with close personal or scholarly relations to the island regions. Beautifully illustrated. 1898 Visual Culture and U.S. Imperialism in the Caribbean and the Pacific challenges us to reconsider the Spanish American War, the Philippine American War, and the annexation of Hawaiʻi while shedding needed light on the lasting impacts of U.S. imperialism. Published in association with the Smithsonian's National Portrait Gallery, Washington, DC. Exhibition Schedule: National Portrait Gallery, Washington, DC, April 28, 2023–February 25, 2024. *Inventing Vietnam* Michael A. Anderegg, 1991 Testimony of the unique relationship between the U.S. Vietnam War and the images and sounds that have been employed to represent it. Determining the Truth, 1997 *American Empire in Global History* Shigeru Akita, 2021-12-19 This book shows how the predominantly national focus that characterises studies of the United States after 1783 can be integrated with

global trends as viewed from the perspective of imperial history The book also argues that historians of European empires have much to gain by considering the United States after 1783 as a newly decolonised country that acquired overseas territorial possessions in 1898 and remained a member of the Western imperial club until the mid twentieth century The wide ranging synthesis by A G Hopkins *American Empire A Global History* 2018 provides the starting point for contributions that appraise its main theme and take it in new directions The first three chapters identify fresh approaches to U S history between the Revolution and the Civil War suggesting ways in which the United States can be considered as a newly decolonised country examining shifting meanings of the term empire and reassessing the character of continental expansion The second group deals with initiatives and responses in the Philippines and Cuba reconsidering the character of nationalism in two of the most important overseas territories that were either ruled directly or controlled indirectly by the United States and placing it in an international context The third group examines the exercise of U S power in the twentieth century identifying aspects of international law that have been overlooked and reviewing the extensive literature on the controversial themes of the Cold War and informal empire after 1945 The ten chapters in this edited volume bring together noted specialists on the history of international relations the United States and the insular empire it ruled in the twentieth century The chapters were originally published as articles in a special issue of *The Journal of Imperial and Commonwealth History*

The Star-entangled Banner Sharon Delmendo, 2005 This work looks at the problematic relationship between the Philippines and the US It argues that when faced with a national crisis or a compelling need to reestablish its autonomy each nation paradoxically turns to its history with the other to define its place in the world **American Empire** A. G. Hopkins, 2019-08-27 Compelling provocative and learned This book is a stunning and sophisticated reevaluation of the American empire Hopkins tells an old story in a truly new way American history will never be the same again Jeremi Suri author of *The Impossible Presidency The Rise and Fall of America's Highest Office* **Hardcore Inventing** Robert Yonover, Ellie Crowe, 2009-07-27 A guide to inventing that explains how people can develop an idea into an invention build a prototype safeguard intellectual property market strategically field investors and successfully navigate each step of the inventing process *The Heroic Age* Hector Munro Chadwick, 1912 *Inventing Montana* Ted Leeson, 2009-09 Every summer for two decades Ted Leeson and a maverick group of close companions have returned to an old ranch house on the benchland overlooking the Madison River Trout and fly fishing may be at the heart of their ritual return but their experience goes far beyond fishing For these men fishing is more than a hobby it's a way of life Leeson brilliantly contemplates both the human and natural landscape the fly anglers passionate ironic and sometimes hilarious allegiance to what they do the intriguing Madison Valley and its creatures and flowers the trout town of Ennis maps and their revelations the green card experience of living in a place you aren't originally from the nature of leisure Full of wit surprise shrewd observation and wisdom this book tells a story about creating a place of temporary liberty and inhabiting a world fashioned of your best

Inventing Paradise Paul Haddad, 2024-06-18 Inventing Paradise The Power Brokers Who Created the Dream of Los Angeles traces the improbable rise of Los Angeles through the prism of six visionaries who had outsized influence on the city's growth Phineas Banning Harrison Gray Otis Henry Huntington Harry Chandler William Mulholland and Moses Sherman In the late 1870s Los Angeles was a violent dusty 29 square mile pueblo with a few thousand souls largely unchanged since its founding in 1781 By 1930 its size had swelled to within 96% of its current 468 square miles housing a staggering 1.2 million people In just 50 years L.A. had joined the ranks of other world class cities In the tradition of Mike Davis's classic work *City of Quartz* Paul Haddad *Freewaytopia* and *10,000 Steps a Day* in L.A. debunks many myths about the City of Angels with a wildly entertaining narrative that sheds new light on the fascinating birth of modern Los Angeles Power came from a select few whose triumphs scandals and correspondence are well documented in *Inventing Paradise* along with other little known facts about L.A. history including How Los Angeles Times chief Harry Chandler pushed eugenics and endorsed white spots Henry Huntington's and Moses Sherman's trolley systems and the extortion type practices that led to their expansion When Los Angeles was so desperate for water it hired a miracle worker who promised rain How L.A.'s power elite peddled the lie that the Owens River used to flow into Los Angeles and rightfully belonged to the city When Los Angeles annexed a city in which monkeys cast votes How Venice California was not the first Venice California William Mulholland's game changing construction of the Los Angeles Aqueduct which raised the city's population ceiling from 250,000 to 2.5 million Haddad also covers the heavy costs that came with creating paradise in such a short period of time including car dependency environmental problems and deep seated inequities between wealthy white Angelenos and people of color due to racist policies All have left an imprint on present day Los Angeles Los Angeles is known as a city that should not exist and yet it does Through *Inventing Paradise* Haddad shows readers that Los Angeles is not a paradise found but a paradise that was willed into existence owing to the collective vision of these six Gilded Era born tycoons

Founding Gods, Inventing Nations William F. McCants, 2012 From the dawn of writing in Sumer to the sunset of the Islamic empire *Founding Gods Inventing Nations* traces four thousand years of speculation on the origins of civilization Investigating a vast range of primary sources some of which are translated here for the first time and focusing on the dynamic influence of the Greek Roman and Arab conquests of the Near East William McCants looks at the ways the conquerors and those they conquered reshaped their myths of civilization's origins in response to the social and political consequences of empire The Greek and Roman conquests brought with them a learned culture that competed with that of native elites The conquering Arabs in contrast had no learned culture which led to three hundred years of Muslim competition over the cultural orientation of Islam a contest reflected in the culture myths of that time What we know today as Islamic culture is the product of this contest whose protagonists drew heavily on the lore of non Arab and pagan antiquity McCants argues that authors in all three periods did not write about civilization's origins solely out of pure antiquarian interest they also sought to address the social and political tensions of the day The strategies they employed and the postcolonial dilemmas they confronted provide invaluable context for understanding how authors today use myth and history to locate themselves in the confusing aftermath of empire "That Fiend in Hell" Catherine Holder Spude, 2012-09-28 As the Klondike gold rush peaked in spring 1898 adventurers and gamblers rubbed shoulders with town builders and gold panners in Skagway Alaska The flow of riches lured confidence men too among them Jefferson Randolph Soapy Smith 1860-98 who with an entourage of bunco men conned and robbed the stampedeers Soapy though a common enough criminal would go down in legend as the Robin Hood of Alaska the uncrowned king of Skagway remembered for his charm and generosity even

for calming a lynch mob When the Fourth of July was celebrated in 98 he supposedly led the parade Then a few days later he was dead killed in a shootout over a card game With Smith s death Skagway rid itself of crime forever Or at least so the story goes Journalists immediately cast him as a martyr whose death redeemed a violent town In fact he was just a petty criminal and card shark as Catherine Holder Spude proves definitively in That Fiend in Hell Soapy Smith in Legend a tour de force of historical debunking that documents Smith s elevation to western hero In sorting out the facts about this man and his death from fiction Spude concludes that the actual Soapy was not the legendary boss of Skagway nor was he killed by Frank Reid as early historians supposed She shows that even eyewitnesses who knew the truth later changed their stories to fit the myth But why Tracking down some hundred retellings of the Soapy Smith story Spude traces the efforts of Skagway s boosters to reinforce a morality tale at the expense of a complex story of town building and government formation The idea that Smith s death had made a lawless town safe served Skagway s economic interests Spude s engaging deconstruction of Soapy s story models deep research and skepticism crucial to understanding the history of the American frontier

The Industrial Revolution - Lost in Antiquity - Found in the Renaissance Cort McLean Johns Ph.D. - HSG,2021-03-05 Historians of Technology and Humanist Industrial Archaeologists have failed to include the larger contribution and influence of Ctesibius compressor driven Hydraulis with its pneumatic pumps keyboard and organ pipes in the path of critical preparatory events leading up to the Latent Industrial Revolution One should also realize that Ctesibius had all the parts and sub assemblies on hand to invent the first Steam Hydraulis or Calliope as illustrated on the front book cover of this work From the Fertile Crescent of the Persian Empire to the Hellenistic Library of Alexandria Vitruvius writing brought the Hydraulis to the Abbey of St Gall in 1414 during the Renaissance Its path then took it through Italy Germany and the Paris of Louis XIV along the Arch of Industrial Reawakening This was the Hydraulis 2 millennium path from Antiquity to its return reigniting the Latent Industrial Revolution

The Industrial Revolution - Lost in Antiquity - Found in the Renaissance Cort MacLean Johns, Ph.D.-HSG,2021-02-18 Ever increasing research evidence continues to mount Having started my research on the connection of the Hydraulis to the roots of the more recent Industrial Revolution at the University of St Gallen in 1989 over 30 years ago I continue to identify additional support for it We do not know whether the beginnings of an Industrial Revolution in Hellenistic Greece would have continued if not cut off by the Roman Empire s conquests Neither do we know whether the more recent latent Industrial Revolution could have risen up again in the 17th century without Vitruvius or Hero of Alexander s preserved writings The point of this book is to emphasize with new findings that had the Romans not stopped the growth of science and technology in the Hellenistic Period that it would have likely continued to develop into a full fledged Industrial Revolution Secondly the more recent Industrial Revolution borrowed heavily on the technology and science of the Hellenistic Period In the true sense of the Renaissance 17th century industrial progress largely picked up the written remnants of Antiquity to be able to continue on after a centuries long caesura
