Inventing Finnish Music Kimmo Korhonen, 2007 **Inventing Finnish Music** Kimmo Korhonen, 2003 *After Sibelius: Studies in Finnish Music* Tim Howell, 2017-07-05 During the last twenty years the rest of the world has come to focus on the music of Finland The seemingly disproportionate creative energy from this small country defies prevalent trends in the production of classical music Tim Howell provides an engaging investigation into Finnish music and combines elements of composer biography and detailed analysis within the broader context of cultural and national identity The book consists of a collection of eight individual composer studies that investigate the historical position and compositional characteristics of a representative selection of leading figures ranging from the beginning of the twentieth century to the present day These potentially self contained studies subscribe to a larger picture which explains the Sibelian legacy the effect of this considerable influence on subsequent generations and its lasting consequences an internationally acclaimed school of contemporary music Outlining a particular perspective on modernism Howell provides a careful balance between biographical and analytical concerns to allow the work to be accessible to the non specialist Each composer study offers a sense of overview followed by progressively more detail Close readings of selected orchestral works provide a focus while the structure of each analysis accommodates the different levels of engagement expected by a wide readership The composers under consideration are Aarre Merikanto Erik Bergman Joonas Kokkonen Einojuhani Rautavaara Aulis Sallinen Paavo Heininen Kaija Saariaho and Magnus Lindberg The concluding discussion of issues of national distinctiveness and the whole phenomenon of why such a small nation is compositionally so active is of wide ranging significance Drawing together various strands to emerge from these individual personalities Howell explores the Finnish attitude to new music in both its composition and reception uncovering an enlightened view of the value of creativity from which **"Kaija Saariaho: Visions, Narratives, Dialogues "** Jon Hargreaves, 2017-07-05 Kaija Saariaho is internationally recognized as a leading figure in contemporary music enjoying a well deserved reputation for works that are both creatively original and of considerable appeal Her music communicates with a refreshingly broad audience and this special achievement deserves careful consideration In the first symposium book in English to be dedicated exclusively to this single figure scholars from both the UK and Saariaho's native Finland bring a range of perspectives to her richly varied output Uncovering the compositional historical cultural and sociological issues that have resulted in such critical acclaim lies at the heart of this collection of essays Saariaho's approach to composition is an interdisciplinary one it embraces a number of art forms visual literary and musical in works that explore a creative dialogue between image continuity and time While such diversity is readily accommodated in a multi authored collection the consistency of an underlying compositional identity and integrity is also an important trait The grouping of these essays into three strands visions narratives and dialogues reflects the wide range of Saariaho's creative preoccupations while subscribing to a carefully structured succession of commentaries *After*

Sibelius Tim Howell, 2006 The seemingly disproportionate creative energy from the small country of Finland defies prevalent trends in the production of classical music Tim Howell provides an engaging investigation into Finnish music and combines elements of composer biography and **Rautavaara's Journey in Music** Barbara Blanchard Hong, 2022-07-12 Einojuhani Rautavaara 1928 2016 has been called Finland's most notable musical export after Sibelius His prolific output includes eleven operas eight symphonies eleven concertos choral works for the Orthodox Lutheran and Roman Catholic churches secular choral works chamber music vocal solos and keyboard works Many of these works were commissioned by internationally known performers and ensembles including Vladimir Ashkenazy Richard Stoltzman Hilary Hahn Anne Akiko Meyers Gerald Finley the Philadelphia Orchestra and the Juilliard School of Music Orchestra Perhaps most frequently performed are his *Cantus Arcticus* a concerto for recorded arctic birds and orchestra *Angel of Light* his seventh symphony and the *Lorca* choral suite depicting Death as a stalker in a Spanish village Rautavaara's *Journey in Music* is divided into two sections the first a biography and discussion of works that show his various style changes from neoclassical to twelve tone to neoromantic and finally to a personal expressive style combining elements of twelve tone and tonality The second part divides his works by genre and gives more detailed information of stylistic analysis libretto provenance and often reception
