The Routledge International Handbook of Disability Human Rights Hierarchies Stephen Meyers, Megan McCloskey, Gabor Petri, 2023-10-31 Disability is defined by hierarchy Regardless of culture or context persons with disabilities are almost always pushed to the bottom of the social hierarchy With the advent of the Convention on the Rights of Persons with Disabilities 2006 disability human rights seemingly provided a path forward for tearing down ableist social hierarchies and ensuring that all persons with disabilities everywhere were treated equally Despite important progress the disability human rights project not only remains incomplete but has often created new hierarchies among persons with disabilities themselves or across the human rights it promotes Certain groups of persons with disabilities have gained new voices while others remain silenced and certain rights are prioritized over others depending on what states international organizations or advocates want rather than what those on the ground need most This volume was inspired both by the continued need to expose human rights violations against persons with disabilities but to also explore the nuanced role that hierarchies play in the spread implementation and protection of disability human rights The enjoyment of human rights is not equal nor is the recognition of specific individuals and groups rights In order to change this situation inequalities across the disability human rights movement must be explored Divided into five parts Who counts as disabled Political social and cultural context Which rights on top whose rights on bottom Pushed to the periphery in the disability rights movement Representations of disability and comprised of 34 newly written chapters including case studies from the Anglophone Caribbean Bangladesh Bosnia Herzegovina China Ghana Haiti Hungary India Israel Kenya Latin America Poland Russia Scotland Serbia and South Africa and other countries this book will be of interest to all scholars and students of disability studies sociology human rights law and social policy **Transformational Leadership Styles for Global Leaders: Management and Communication Strategies** Roache, Darcia Ann Marie, 2023-09-26 The impact of transformational leadership styles management strategies and communication for organizational effectiveness and employee performance within organizations cannot be overemphasized Leadership as a concept has evolved over the years based on situations practices and change management approaches in organizations The evolution of transformational leadership in organizations is imperative to examine in order to motivate and encourage others to collectively support and work to achieve organizational effectiveness or vision and mission Leadership needs a paradigm shift to influence opportunities and challenges in organizations such as organizational behavior motivation communication and management functions Transformational Leadership Styles Management Strategies and Communication for Global Leaders aims to provide relevant theoretical conceptual and procedural frameworks and the latest empirical research findings that critically examine the areas of leadership leadership styles management studies and communication for leaders globally It is ideal for multi sectoral interests in business and educational organizations chief executive officers executive members team leaders industry leaders human resource directors and personnel leadership and

management and practitioners *Disability Definitions, Diagnoses, and Practice Implications* Julie Smart, 2018-09-03 This introductory text defines and describes disability while providing concrete practice guidelines and recommendations for students in the fields of counseling social work and the helping professions Various specialty areas are explored in detail including marriage and family counseling adolescent counseling addictions counseling LGBTQ concerns multicultural counseling and career counseling The first three chapters lay the foundations by discussing the demand for counseling services by individuals with all types of disabilities presenting clinical legal medical biological and personal definitions of disability and describing physical cognitive and psychiatric disabilities Next author Julie Smart examines core beliefs about disability using a range of first person accounts from experienced counselors The last six chapters focus on practice guidelines for various aspects of disability including ethical considerations societal issues social role demands and individual responses and consider new possibilities for disability counseling professions With rich case studies woven throughout as well as valuable information on client needs disability categorizations and key Models of Disability this essential textbook will be useful not only to counseling students but also to professional counselors social workers and psychologists *Mummified* Angela Stienne, 2022-06-07 *Mummified* explores the curious unsettling and controversial cases of mummies held in French and British museums From powdered mummies eaten as medicine to mummies unrolled in public dissected for race studies and DNA tested in modern laboratories there is a lot more to these ancient remains than first meets the eye This book takes you on a journey from Paris to London Leicester and Manchester from the apothecaries of the Middle Ages to the dissecting tables of the eighteenth century and finally behind the screen of today's computers to revisit the stories of these bodies that have fascinated Europeans for so long *Mummified* investigates matters of life and death of collecting and viewing and of interactions sometimes violent and sometimes emotional that question the essence of what makes us human The SAGE Handbook of Social Studies in Health and Medicine Susan C. Scrimshaw, Sandra D. Lane, Robert A. Rubinstein, Julian Fisher, 2021-12-01 With new chapters on key topics such as mental health the environment race ethnicity and health and pharmaceuticals this new edition maintains its multidisciplinary framework and bridges the gap between health policy and the sociology of health It builds upon the success of the first by encompassing a range of issues studies and disciplines The broad coverage of topics in addition to new chapters present an engagement with contemporary issues resulting in a valuable teaching aid This second edition brings together a diverse range of leading international scholars with contributors from Australia Puerto Rico USA Guatemala Germany Sri Lanka Botswana UK South Sudan Mexico South Korea Canada and more The second edition of this Handbook remains a key resource for undergraduates post graduates and researchers across multidisciplinary backgrounds including medicine health and social care sociology and anthropology PART ONE Culture Society and Health PART TWO Lived Experiences PART THREE Health Care Systems Access and Use PART FOUR Health in Environmental and Planetary Context *Shame 4.0* Claude-Hélène Mayer, Elisabeth Vanderheiden, Paul T. P.

Wong, 2021-07-21 This edited volume provides new perspectives on how shame is experienced and transformed within digital worlds and Industry 4.0. The editors and authors discuss how individuals and organisations can constructively transform shame at work in professional and private contexts and with regard to socio-cultural lifestyle changes founded in digitalisation and Industry 4.0. The contributions in this volume enable researchers and practitioners alike to unlock the topic of shame and its specifics in the highly dynamic and rapidly changing times to explore this emotion in depth in connection with remote workplaces, home office, automated realities and smart systems or digitalised life and working styles. By employing transdisciplinary and transcultural perspectives, the volume further discusses shame in the context of new lifestyles, religion, gender, sexual suppression, mental illness and the nature of citizenship. Researchers, practitioners and students in the fields of industrial and organisational psychology, positive psychology, organisational studies, future studies, health and occupational science and therapy, emotion sciences, management, leadership and human resources will find the contributions highly topical, insightful and applicable to practice. Fresh, timely thought provoking with each turn of the page, this impressive volume explores shame in today's world. Moving beyond the simple 'guilt is good, shame is bad' perspective, authors from diverse disciplines examine adaptive and maladaptive aspects of shame in the context of contemporary issues, e.g. social media use, COVID-19, via multiple cultural and social lenses. Aptly named 'Shame 4.0', it is a treasure trove of rich ideas ripe for empirical study, a blueprint for the next generation of research on this complex and ubiquitous emotion. Bravo! June Tangney, PhD, University Professor and Professor of Psychology, George Mason University, USA. 'Uncovering Shame' is to a much greater extent than other emotions like anger, grief and fear, until recently, most shame in modern societies has been hidden from sight. The text you see in this book is one of the steps that is being taken to make it more visible and therefore controllable. Thomas Scheff, Prof Emeritus, Department of Sociology, UCSB, Santa Barbara, Ca.
