Palmer,2021-10-25 Bryan D Palmer reinterprets the history of labour and the left in the United States during the 1930s through a discussion of the emergence of Trotskyism in the most advanced capitalist country in the world Focussing on James P Cannon the founder of American Trotskyism Palmer builds on his previously published and award winning book *James P Cannon and the Origins of the American Revolutionary Left 1890 1928* 2007 with a deeply researched and elegantly written study of Cannon and the Trotskyist movement in the United States from 1928 38 Situating this dissident communist movement within the history of class struggle both national and international Palmer examines how Cannon and others fought to revive a combative trade unionism thwart fascism and the drift to war refuse Stalinism s many degenerations and build a new Party and a new International both of which would be dedicating to reviving and realizing the possibilities of revolutionary socialism The result is a study that provides a definitive account of the largest and most influential Trotskyist movement in the world in the 1930s a mobilization whose history recasts understandings of the more extensively studied experience of United States working class militancy and the place of the Comintern affiliated Communist Party within it **Trotskyism in the United States** Paul Le Blanc,Alan Wald,George Breitman,2016-12-01 In the new edition of this definitive work on the history of the revolutionary socialist current in the United States that came to be identified as American Trotskyism Paul Le Blanc offers fresh reflections on this history for scholars and activists in the twenty first century Includes a preface written especially for the new edition of this distinctive work Paul Le Blanc is a professor of History at La Roche College and author of Choice Award winning book *A Freedom Budget for All Americans* **The Left Opposition in the U.S., 1928-31** James Patrick Cannon,1981 *The Communist International and US Communism, 1919-1929* Jacob Zumoff,2014-08-21 Since the Cold War most historians have set up an opposition between the American and international aspects of early American Communism This book examines the development of the Communist Party in its first decade from 1919 to 1929 Using the archives of the Communist International this book in contrast to previous studies argues that the International played an important role in the early part of this decade in forcing the party to Americanise Special attention is given to the attempts by the Comintern to orient American Communists on the role of black oppression and to see the struggle for black liberation and the fight for socialism as inextricably linked The later sections of the book provide the most detailed account now available of how the Comintern reflecting the Stalinisation of the Soviet Union intervened in the American party to ensure the Stalinisation of American Communism *The Historical & International Foundations of the Socialist Equality Party* Socialist Equality Party (U.S.),2008 *The Red Thread* Jacob A. Building the Revolutionary Party Dave Holmes,1997 *True Mission* Eric Thomas Chester,2004-02-20 In the election campaign of 2000 Al Gore and Ralph Nader polled many millions more votes than George W Bush Yet the US Left lost out a casualty of the two party system This is a pattern which has been repeated many times over the years The most contentious issues dividing the Left in the United States have been those related to the Democratic Party This book explores the crucial moments in US history where the stranglehold of the two party system was nearly broken Presenting a detailed history of Labor party politics beginning with Henry George s campaign for mayor of New York City in 1886 proceeding to Robert La Follette s independent presidential campaign of 1924 and the Socialist party s relationship to New York s American Labor Party in the early twentieth century Eric Chester explores the history of Left in America up to and including the Nader campaign of 2000 Chester identifies key reasons why burgeoning political movements have failed He examines the part played by trade union based political parties He also looks at the inability of populist middle class parties to establish ideological or organisational groundings for a viable third party Looking to the future Chester proposes an alternative drawing on the success of the Socialist Party at the turn of the last century he lays out ideas for a mass based socialist party as the only way forward towards genuinely independent politics

The History of American Trotskyism James Patrick Cannon,1995 Trotskyism is not a new movement a new doctrine Cannon says but the restoration the revival of genuine Marxism as it was expounded and practiced in the Russian revolution and in the early days of the Communist International In this series of twelve talks given in 1942 James P Cannon recounts an important chapter in the efforts to build a proletarian party in the United States James P. Cannon and the Early Years of American Communism James Patrick Cannon,1992

Class Struggle and the New Deal Rhonda F. Levine,1988 In this reassessment of New Deal policymaking Rhonda Levine argues that the major constraints upon and catalysts for FDR s policies were rooted in class conflict Countering neo Marxist and state centred theories which focus on administrative and bureaucratic structures she contends that too little attention has been paid to the effect of class struggle
