[Extraordinary Politics](#) Charles Euchner, 2018-02-19 Political protest and social movements—their history, their cyclical development, their organization strategies and tactics—constitute what Charles Euchner calls extraordinary politics, an antidote to the breakdown of politics as usual and a necessary, if not sufficient, condition of

democracy Activists have set the pace on every conceivable issue including the environment gay rights feminism abortion states rights religion and multiculturalism The president and Congress can barely keep up but extraordinary politics keeps evolving With style and grace the author weaves together hundreds of examples drawn from movements spanning the ideological spectrum to offer both a practical and intellectual guidebook to political activism in a reputedly apathetic age embracing with abandon the art of making a difference When dissidents and activists toppled powerful regimes across the globe in the 1980s and 1990s from the Soviet Union to South Africa from Nicaragua to the Philippines how did Americans respond to challenges in their own country The conventional wisdom is that Americans sullenly withdrew from all manner of political action But in fact activists of all backgrounds took to the streets to challenge ordinary structures of politics These movements their history their cyclical development their organization strategies and tactics constitute what the author calls extraordinary politics Activists have set the pace on every conceivable issue including the environment gay rights feminism abortion states rights religion and multiculturalism The president and Congress can barely keep up but extraordinary politics keeps evolving With style and grace Charles Euchner weaves together hundreds of examples drawn from movements spanning the ideological spectrum to offer both a practical and intellectual guidebook to political activism in a reputedly apathetic age embracing with abandon the art of making a difference

Exploring a Heritage Anne-Louise Eriksson, Goran Gunner, Niclas Blader, 2012-11-08 From a historical perspective similarities among the Lutheran churches in Denmark Iceland Norway and Sweden are easily understood But these previously homogeneous northern societies built on a Lutheran tradition with close ties between church and state are now considered to be among the most secular in the world as well as being impacted by a growing presence of other religions These changes present a major challenge to the churches concerning how to relate to the state and how to be a folk church The goal of this volume is to explore how Lutheran identity presently shapes churches in the north What are the burning issues engaging these churches at the beginning of the third millennium Are there signs that they are affected by the global emergence of a theology and practice commonly known as Neo Pentecostal or Charismatic What is the situation for women in these churches embedded in societies ranked among the world's most egalitarian In what ways does their Lutheran heritage influence how these churches shape themselves today The point of departure for this study is not a predetermined normative understanding of what a Lutheran church is or should be but the fact that the churches presented here represent what Lutheranism is today in this part of the world Contributors include Anne Louise Eriksson Steinunn Arnthrudur Bjornsdottir Solveig Anna Boasdottir Niclas Blader Carl Reinhold Brakenhielm Thomas Ekstrand Arnfri ur Gu mundsdottir Goran Gunner Harald Hegstad Hjalti Hugason Roger Jensen Halvard Johannessen Peter Lodberg Benedicte Hammer Pr stholm Karin Sarja Ulrika Svalfors Merete Thomassen Marie Thomsen Marie Vejrup Nielsen and Else Marie Wiberg Pedersen
