Legendary Figures:

Legendary Figures Clayton Koelb, 1998-01-01 *Legendary Figures* examines revolutionary views of the past that have played a crucial role in European and American literature of the last 150 years Clayton Koelb traces these new approaches to history through an impressive range of novels from Flaubert's *Salammbô* to Christa Wolf's *Cassandra* Koelb argues that this new historical sense which arose in the mid nineteenth century gained eloquent expression in Flaubert's writings What is crucial about the new historical sense is that it views the past as essentially alien and other The connection between past and present may be powerful but it is always indirect and difficult to negotiate As a result the past seems exotic and unattainable the object of nostalgia and desire Koelb distinguishes this sense of history with its persistent discontinuities between past and present from the more continuous and progressive views of history of novelists like Sir Walter Scott and such philosophers as Hegel Marx and Lukács In their writings history proceeds according to the laws of cause and effect and each epoch can be understood as both the result of the previous one and the cause of the next In contrast the modernist writers that Koelb examines Flaubert Pater Mann Broch Wilder Yourcenar and Wolf imagine a past that is mythic and legendary and thus a metaphor for everything distant complicated unattainable and unknowable

Jesus the Exorcist Graham H. Twelftree, 2011-07-11 That the synoptic writers believed that Jesus cast out demons and that such a role figured prominently in the Synoptics portrait of him can scarcely be denied. And yet only scant scholarly attention has been focused on Jesus' role as exorcist. Even less consideration has been given to the significance of Jesus as exorcist for understanding the historical Jesus. Now in a provocative and insightful study, Graham Twelftree helps New Testament scholars move beyond such myopia. Twelftree examines exorcists and exorcism in first-century Palestine, assesses the New Testament accounts of demons and their demise, and explores the implications and significance of the fact that Jesus was indeed an exorcist. The volume appeared originally in the noted German series *Wissenschaftliche Untersuchungen zum Neuen Testament*.

A Project Approach to Language Learning Katherine Luongo-Orlando, 2001 A wealth of imaginative learning projects that will help students build literacy knowledge and skills as they explore literary genres and themes.

The Human Face of Globalization Jacques Audinet, 2004 International immigration, massive migrations, economic globalization, and a world-wide communications revolution have brought about a mixing of races, cultures, and lifestyles unprecedented in human history. What are the implications of this phenomenon? What options present themselves: a battle of cultures for power, a move toward communitarian cooperation, or something new: the evolution of racially and culturally mixed societies? Anthropologist and sociologist Jacques Audinet proposes an alternative to culture wars and simple multiculturalism as he explores the history and evolution of *mestizaje*, the mixing of races and cultures resulting in a third and new force able to ease the tensions between the original two. Audinet reviews the tragic history of imperial and colonial conquests and traces the growth of *mestizaje*, especially stimulated by literature, music, and sports. Audinet argues that instead of chasing or preserving the illusion of pure races, we need to face the shifting boundaries of peoples and cultures. He acknowledges the uncertainty of the changes but emphasizes the essential role that *mestizaje* can play in the avoidance of racial and cultural clashes while pursuing equality as part of the promise of a democratic society.

Poetics of Arabesk in Turkish-German Cinema

Nazlı Kilerci-Stevanović, 2025-06-16 This book challenges Eurocentric interpretations of the so-called Turkish-German cinema from a transnational perspective, advocating for a comprehensive reevaluation to encourage enriched dialogues. The first part critically assesses dominant media discourses on guest workers and migrants in the historiography of Turkish-German cinema, arguing for a shift from traditional identity-focused narratives to a broader exploration of shared emotions. The second part explores Arabesk, which while originating as a hybrid musical genre, has evolved into a significant cultural force encompassing a range of emotional phenomena. Arabesk embodies the visceral, often painful expressions of

migration and dislocation characterized by a profound emotional intensity It articulates a painful passion and longing for the homeland left behind providing an invaluable method for understanding aesthetic nuances of Turkish German films Arabesk serves as an analytical tool for deconstructing cinematic expressions revealing complex emotional ties and cultivating a feeling of familiarity through the dynamic circulation and exchange of cultural media Thus Arabesk s poetics significantly shape transnational cinema practices and contribute to global cinema discourse **Making Sense of the Bible** Antony F. Campbell,2010 Indicates how current trends in scriptural scholarship may benefit modern faith
