The Biblical Basis for Modern Science Henry Morris,2020-02-11 The Bible is Indeed a Book of Science Revealed By God We live in a scientific age and the proliferation of scientific knowledge and the resulting technologies seem almost endless Scientific discoveries and developments however can be a danger as well as a blessing to mankind The modern world is desperately in need of God s own wisdom concerning the purpose and meaning of true science When you move beyond modern assumptions and false preconceptions the Bible is found to not only reveal a thoroughly modern perspective on the real facts and principles of science but also to provide wisdom and guidance concerning its proper role in human life Biology is the science of life and Christ himself is life Geology is the science of the earth and He is the Creator of the ends of the earth We also could speak of other sciences but all must ultimately be ascribed to Christ True knowledge of any component of His creation must depend ultimately on the knowledge of Christ and His Word Reveals biblical insights for cosmology astronomy physics thermodynamics chemistry geology paleontology biology anthropology and more Brings to light how scientific and statistical evidence rationally evaluated favor God over evolution

Stories of Parallel Dimensions Martin K. Ettington, I ve written a lot of books about the paranormal spiritual time travel and weird phenomena My interest is in writing about what is the truth regarding these things which people report and I am not influenced by conventional beliefs What I look for is the number of stories on a particular subject and are these stories consistent As an engineer and having studied a lot of physics I know that conventional science has theorized about parallel dimensions but has not any evidence or theories of persons moving between dimensions In this book my focus is on reviewing reputable stories to see if there is a pattern in what people report to see if interdimensional travel has really happened to them I ve studied a lot of strange subjects and more often than not there are basic truths in the things people report Many of the stories in this book come from the Reddit Sub Reddit on Parallel Dimensions I ve selected those stories which seems like the best examples of parallel dimension activities

The Mythical People of Ireland Martin K. Ettington, The ancient history of Ireland involves many mysterious beings who may have been aliens or had come from another dimension called The Otherworld This book examines the history of mythical people in

Ireland such as the Tuatha Da Danann the Gods of these peoples and their descendants The fairies include the Leprechauns there being several different types and the Druids who may also be descended from these ancient peoples What is the history of fairies and druids Did they really exist There are stories about all of these beings who may have all been inter related Information on The Otherworld is also included It is supposed to be a realm where these beings all originated and can return to Some humans have visited and returned also I've also collected some stories about possible modern encounters with these beings They may still exist in our modern world

The Destruction of Civilization about 10,500 B.C. Martin K. Ettington, There is much of human history which we don't know due to lost records the oceans covering our ancestor's cities natural disasters and reasons we don't know There are also many anomalies which have been found showing ruins and objects from the far past which should not exist Some of the Historical Facts this book is based on Plato said that Atlantis was destroyed 9 000 years before his time in Greece Plato lived in 433 B C which would have meant Atlantis was destroyed 9 433 years B C or 11 433 years before the current age The Younger Dryas Period in History was between roughly 12 900 and 11 600 years ago according to paleontologists and archeologists Many researchers think this period of climate change resulted from comets hitting the Earth at this time The Vulture Stone at Gobekli Tepe which some scientists have interpreted as having a record of comets hitting the Earth about 11 000 B C My study on ancient history has led me to write a number of books on the topic which can be found on my website at this link <https://mckettingtonbooks.com/ancient-history.html> The above facts and all of my research has led me to conclude that there were ancient world spanning civilizations which existed and were destroyed on the Earth in the 9 000 B C to 11 000 B C period There may have been earlier civilizations too but the focus of this book is on that time period The following chapters review some of the evidence of these ancient civilizations which existed at these same very ancient times

A Commentary on Virgil's Eclogues Andrea Cucchiarelli, 2023 In this commentary accompanied by a detailed introduction Andrea Cucchiarelli offers a detailed analysis of Virgil's Eclogues He establishes comparisons with both Greek and Roman poetic models and with significant other texts and provides the first systematic account of the poem in its historical context

The Celts John T. Koch, Antone Minard, 2012-08-08 This succinct accessible two volume set covers all aspects of Celtic historical life from prehistory to the

present day The study of Celtic history has a wide international appeal but unfortunately many of the available books on the subject are out of date narrowly specialized or contain incorrect information Online information on the Celts is similarly unreliable This two volume set provides a well written up to date and densely informative reference on Celtic history that is ideal for high school or college aged students as well as general readers The Celts History Life and Culture uses a cross disciplinary approach to explore all facets of this ancient society The book introduces the archaeology art history folklore history linguistics literature music and mythology of the Celts and examines the global influence of their legacy Written entirely by acknowledged experts the content is accessible without being simplistic Unlike other texts in the field The Celts History Life and Culture celebrates all of the cultures associated with Celtic languages at all periods providing for a richer and more comprehensive examination of the topic

An A-Z of Animal Symbolism Aurore Pramila, 2024-06-04 Learn to interpret the messages the animal world has for you A bird knocks insistently on your window your cat brings you a lizard you find yourself face to face with a spider or you dream of an elephant what if each animal had a message for you Animals have always been a source of fascination for humans we love to watch them learn about them and keep them as pets But what if animals could actually communicate with us In this complete guide you will find everything you need to know about the symbolism and signs of more than 150 animals whether they appear to you in a dream or happen to cross your path You will learn their individual characteristics as well as the elements and seasons they are associated with You will also discover what these encounters mean for different aspects of your life including love career family and health Messages from the animal world are always filled with compassion but animals are not there to flatter your ego Rather they aim to help you advance in consciousness in your life's journey Sometimes you will receive an encouraging sign that confirms you are on the right path or guidance to help you move forward Other times an animal will deliver a deeper lesson for you to explore because that's how we learn More than anything their messages can open avenues of questioning and help to make your way forward clearer The animals wish you well they want you to hear their messages Let them become your guides

The Literature of the Jewish People in the Period of the Second Temple and the Talmud, Volume 3: The Literature of the Sages Shmuel Safrai, Ze'ev Safrai, Joshua J. Schwartz, Peter Tomson, 2006-01-01 This long awaited companion volume to The Literature of the Sages First Part Fortress Press 1987 brings to completion Section II of the renowned Compendia series The Literature of the Sages Second Part explores the literary creation of thousands of ancient Jewish teachers the often anonymous Sages of late antiquity and the Middle Ages Essays by premier scholars provide a careful and succinct analysis of the content and character of various documents their textual and literary forms with particular attention to the ongoing discovery and publication of new textual material Incorporating groundbreaking developments in research these essays give a comprehensive presentation published here for the first time This volume will prove an important reference work for all students of ancient Judaism the origins of Jewish tradition and the Jewish background of Christianity The literary creation of

the ancient Jewish teachers or Sages also called rabbinic literature consists of the teachings of thousands of Sages many of them anonymous For a long period their teachings existed orally which implied a great deal of flexibility in arrangement and form Only gradually as parts of this amorphous oral tradition became fixed was the literature written down a process that began in the third century C E and continued into the Middle Ages Thus the documents of rabbinic literature are the result of a remarkably long and complex process of creation and editing This long awaited companion volume to *The Literature of the Sages* First Part 1987 gives a careful and succinct analysis both of the content and specific nature of the various documents and of their textual and literary forms paying special attention to the continuing discovery and publication of new textual material Incorporating ground breaking developments in research these essays give a comprehensive presentation published here for the first time *The Literature of the Sages* Second Part is an important reference work for all students of ancient Judaism as well as for those interested in the origins of Jewish tradition and the Jewish background of Christianity
