Legitimation of Regimes : International Frameworks for Analysis city university of new york Conference on legitimation and delegitimation of regimes (1977. 1),1979 *The Politics of Legitimation in the European Union* Christopher Lord,Peter Bursens,Dirk De Bièvre,Jarle Trondal,Ramses A. Wessel,2022-04-19 This book examines and investigates the legitimacy of the European Union by acknowledging the importance of variation across actors institutions audiences and context Case studies reveal how different actors have contributed to the politics of re legitimating the European Union in response to multiple recent problems in European integration The case studies look specifically at stakeholder interests social groups officials judges the media and other actors external to the Union With this the book develops a better understanding of how the politics of legitimating the Union are actor dependent context dependent and problem dependent This book will be of key interest to scholars and students of European integration as well as those interested in legitimacy and democracy beyond the state from a point of view of political science political sociology and the social sciences more broadly Legitimizing Identities Rodney Barker,2001-10-18 This book discusses how rulers cultivate their identity for their own self justification and esteem **Political Legitimation in Communist States** T. H. Rigby,Ferenc Feher,1982-06-18 The Legitimacy of International Regimes Helmut Breitmeier,2016-12-05 How legitimate are outcomes outputs and impacts of global environmental regimes Can non state actors contribute to improve the output and input oriented legitimacy of global environmental governance Helmut Breitmeier responds to these questions balancing the volume with both theoretical and empirical chapters The theoretical and conceptual chapters illustrate the relevance and meaning of legitimacy as well as the impact of non state actors on environmental governance They also describe various methodological issues involved with the coding of 23 environmental regimes The empirical chapters are based on the findings of the International Regimes Database IRD They explore whether problem solving in international regimes is effective and equitable and the influence of a regime s contribution to how states comply with international norms These chapters also analyze whether non state actors can improve the output and input oriented legitimacy of global governance systems **The Dissolution of Yugoslavia and the Badinter Arbitration Commission** Steve Terrett,2017-11-22 This title was first published in 2000 Yugoslavia s dissolved at a time when rhetoric of the New World Order was firmly established in legal and political discourse Nevertheless the largely positive appraisal of international law s response to the Iraq Kuwait conflict has not been mirrored in relation to Yugoslavia This book evaluates the peace making efforts of the major institutional actors whilst focusing specifically on the Badinter Arbitration Commission an ad hoc EC created organ required to provide legal advice on the issues surrounding Yugoslavia s dissolution Initially composed of constitutional lawyers aiming to redraft Yugoslavia s constitution the Commission soon faced problems of public international law Its jurisprudence challenges international lawyers to reassess their state centric conceptions of international law in a world where most conflicts war crimes and human rights abuses exist within rather than

between States This book is vital reading for anyone interested in international law international relations politics and central eastern European studies **Comparing Pluralist Democracies** Mattei Dogan,2019-03-06 This book is an outcome of the international conference held in July 1985 at Berlin It discusses the issues related to the legitimacy of the political regime The book also discusses crises of legitimacy in democracy focusing on the current crisis of the welfare state

Recognition in International Law Stefan Talmon,2021-10-18 The bibliography lists the literature and State practice on the question of recognition in international law for the last two hundred years It contains books and articles ie contributions to journals and other collected works such as Festschriften and Encyclopaedias as well as published and unpublished theses pamphlets compilations of diplomatic documents and case notes As many of the monographs on recognition in international law will not be available in all libraries book reviews have been included in the bibliography in order to enable the user to decide whether it may be advisable to order a certain work by inter library loan Its 4 500 entries are arranged systematically according to subject categories in fourteen main sections Each main section is further subdivided with ever increasing specificity into sub sections on codification codification attempts general studies studies of certain recognition questions and studies of specific recognition cases The bibliography employs a broad meaning of recognition It is not restricted to the question of status of an authority or entity in international law but encompasses also the question of relations with it As many of the recognition cases must be considered and can only be understood against their historic political and sometimes even economic background the bibliography includes not only purely legal treaties but also publications of a primarily historical political or economic content which incidentally deal with aspects of recognition in international law This is reflected by the titles of the 730 journals from more than 50 countries in 20 different languages which have been used to compile the bibliography The bibliography contains both an author and a comprehensive subject index to enable users to locate works of a particular writer or a specific problem **Openness and Foreign Policy Reform in Communist States** Gerald

Segal,2005-06-28 This book looks at the way in which foreign policy has changed in communist states It considers especially the relationship between domestic reform and foreign policy reform at times when formerly closed societies are becoming more open to the outside world It focuses on three European and three Asian states analysing their different paths to reform and looking in depth at the question of why some communist regimes collapse and why those in Asia have proved more durable than those in Europe The Official Concept of the Nation in the Former GDR Joanna McKay,2019-01-04 First

published in 1998 this volume joined the effort to understand the former German Democratic Republic with the aim of reaching a better understanding of the psychologically painful process of German reunification following the collapse of East German communism in 1989 While born illegitimate and artificial the country determined the lives of millions of people despite having now disappeared from the map This study from Joanna McKay incorporates previously unavailable archive material and focuses on some of the most challenging ever present tasks for the GDR leaders In particular she examines how

they approached explaining the division with West Germany without undermining the legitimacy of the GDR *Regime Change in the Philippines* Mark Turner,1987 *Comparing autocracies in the early Twenty-first Century* Aurel Croissant,Steffen Kailitz,Patrick Koellner,Stefan Wurster,2015-12-22 Despite the so called Third Wave of Democratization many autocracies have been resilient in the face of political change Moreover many of the transition processes that could be included in the Third Wave have reached a standstill or at the very least have taken a turn for the worse leading sometimes to new forms of non democratic regimes As a result of these developments the research on autocracies has experienced a revival in recent times This unique two volume work aims at taking stock of recent research and providing new conceptual theoretical and empirical insights into autocratic rule in the early twenty first century It is organized into two parts The contributions in this first volume analyse the trajectories manifestations and perspectives of non democratic rule in general and autocratic rule in particular It brings together some of the leading authoritarianism scholars in Europe and North America who address three broad questions How to conceptualize and measure forms of autocratic regimes What determines the persistence of autocratic rule What is the role of political institutions legitimation ideology and repression for the survival of different forms of autocratic rule This book is an amalgam of articles from the journals Democratization Contemporary Politics and Politische Vierteljahresschrift **The International Journal of Critical Sociology** ,1980 *What Remains?* Joyce Marie Mushaben,2023-03-11 This book tells the story of the German Democratic Republic from the inside out using the lens of generational change to deconstruct an intriguing array of social identities that had little to do with the official GDR version authoritarian rulers regularly sought to impose on their citizens The author compares the identities of five societal subgroups GDR writers and intellectuals pastors and dissidents women youth and working class men exploring the policies defining their lives and status before during after the 1989 Wende as well as the diverging exit voice and loyalty dilemmas encountered by each The dialectical components treated in this work center on the extent to which eastern identities were lost found and reconfigured across three generations from 1949 to 1989 from 1990 to 2005 then up to 2020 It explores how the existence of a separate East German state and the socialization processes imposed on each subculture has not only complicated the search for national unity since 1990 but also perhaps more controversially invoked new challenges directly related to ongoing East West structural disparities since unification and the treatment of eastern Germans by often more privileged western Germans **Regionalism and Supranationalism** Institute for Research on Public Policy,Policy Studies Institute,1981 Human Rights in Eastern Europe and the Soviet Union United States. Congress. House. Committee on Foreign Affairs,United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Organizations,1981 *Education, Public Confidence, and the Legitimacy of the Modern State* Hans N.
