Lemon 60 Heroic Failures Of Motoring:

Lemon! Tony Davis, 2004 When an owner stood by his Triumph Stag it was usually because he couldn't get the door open. The Niki demonstrated every handling vice known to suspension engineers plus some invented especially for this car. If you needed a sudden burst of acceleration in the Goggomobil Dart it was best to jump out and run. It's true that cars are getting better and better. But sometimes despite the designer's best intentions instead of a peach we get a lemon. And while car enthusiasts WHEELS magazine has a circulation of about 65 000 copies will argue endlessly about what are the best cars they'll argue even more ferociously about what are the WORST. LEMON is a catalogue of 60 courageous disasters from the 1958 Ford Edsel by the 1960s edsel was used in the US as a byword for failure and the 23rd edition of the Webster Dictionary made it official to the much loved travesty the P76 when people took P76s in for warranty work they carried lists of the things that didn't need fixing. Bad design appalling execution ridiculous pretensions ludicrous names this detailed and hilarious look at automotive atrocities from the 1950s to the 1990s is a motoring Hall of Shame. Great photographs from car manufacturers NEVER AGAIN Photo Archives will make this book impossible to resist. There are also plenty of top ten lists top ten worst designs top ten worst for handling etc for those who suffer from list mania. The perfect Father's Day gift LEMON will also make a great stocking filler at Christmas. From Alfa to Zeta from the tiny to the gargantuan and from the endearingly incompetent to the bombastically stupid LEMON will leave you not only laughing but wondering how so many car makers got away with so much for so long. *Extra Lemon!* Tony Davis, 2005 The sales slogan was Make way for the Austin Freeway. Car buyers did more than that. They gave it the widest berth possible. You may not recall the Falcon EA. But Ford certainly does. It had to recall tens of thousands of them. During 27 years the Trabant evolved from a primitive badly built deathtrap into a primitive badly built deathtrap with a 12 volt electrical system. In this laugh out loud sequel to the bestselling LEMON Tony Davis inducts 65 more cars into his Motoring Hall of Shame. Read about cars like the East German Trabant with its cotton reinforced body or the dafter than you'd believe possible Lightburn Zeta Sports which the brochure bizarrely dubbed a super car the only thing it could leap in a single bound was out of gear. There's the appalling Piazza the ridiculously hyped Tucker 48 and the explosive Ford Pinto all shining examples of the hair brained the unsightly the excruciatingly dull and the magnificently unsuccessful. EXTRA LEMON will make you wince groan and avert your eyes once you've stopped laughing. More heroic failures of motoring by the author of the bestselling LEMON. Step on It! Tony Davis, 2006 From the infamous Cugnot the Frenchman who in 1789 both built the first working automobile and had the first car crash to Craig Breedlove who survived the fastest accident in the history of motoring an unscheduled right hand turn at 1080 km/h in a jet car STEP ON IT traces the evolution of the car in all its glory and shame. With his inimitable humour motoring expert Tony Davis presents the best and worst car names advertising slogans and technical innovations pop up headlights anyone the rise of drive thru culture and four wheel drives and the films and songs that parked certain cars firmly in our hearts. Guaranteed

to start arguments with a list of the five greatest cars of all time and packed with more quirky motoring trivia and memorable car quotes than you could fit in a Mini Minor STEP ON IT will delight committed car enthusiasts and beginner rev heads alike
