THE WHISTLE-BLOWER ON CORRUPT SCIENCE P.S.J. (Peet) Schutte, 2012-12-14 The Whistle Blower on Corrupt Science Science went corrupt the day Edmund Halley in 1705 told the world he used the physics formula of his friend Isaac Newton to calculate the route that Halley's comet took and the time it would arrive This was where science went crooked a position that went on ever since because that same dishonesty is still present in Newtonian science Halley calculated the time periods since 1066 at the battle of Hastings and found a comet was mentioned every seventy six years This was very ordinary for a man of his class so he had to get far cleverer than backdate history to get a time frame So he really got clever and conspired with the biggest fraud in science ever since the man that stole all the physics Doctor Hooks invented the man who even got Kepler figures wrong the man called Isaac Newton Halley said he used the formula of Newton to calculate the route the comet took This says he used mass to calculate how the comet came to the sun According to Newton's science the sun's mass pulled the comet and the comet's mass pulled right back and in this way the comet came to the sun I don't go into the comet as such in this book but I do in other books In this book I show how Newtonian science started to go corrupt in 1705 with one conspiracy to cheat and became the corrupt myth it now developed into How do I know Halley did not use the mass pull mass idea It is because if he did so then how did he calculate that the comet was cyclic or that it returns every seventy six years If mass pulled the comet to the sun what then pushed the comet back into outer space His big ambition was to prove the comet comes and goes but if mass makes the comet come what pushes the comet back You know what is the biggest fraud that came to be called Newtonian science The most brilliant minds on earth this past three hundred years failed to ask this simple question if mass pulls the comet closer what pushes the comet away If mass forms the force of pulling and pulled the comet closer then what pushed the comet back into the darkness of the beyond How did he know the mass of Halley's comet Nobody then asked questions No one asks uneasy question except me I show the fake science we

have Newton and Halley got away with corrupt science If you wish to prove wrong I challenge you to prove that Newton is correct Today just like it was and keeping the trend go on modern Newtonians gets away with even more corrupt science than anyone can imagine *Conscientious Science* Justin Klickermann,2013-10-08 Conscientious Science is a simplified yet in depth look into the intricacies of our universe through the fascinating world of theoretical physics The science of theoretical physics is one of great speculation and hypotheses which rely on proven facts the results of new and not publicly available experiments as well as both direct and indirect evidence Conscientious Science explains complex scientific phenomena in such a way that anyone can understand it It uses reasonable and plausible explanations to convey and effectively support the theories it explores while always providing answers to the questions of How and Why Conscientious Science is an encounter with forces that no one on this Earth really understands You may find it shocking impossible but it is never the less evidence of the universe beyond the power of our five senses **Annual Report** United States. Bureau of Reclamation,1904 EXPOSING CORRUPT SCIENCE PSJ (Peet) Schutte, **How Things Work** Louis A. Bloomfield,2015-12-15 How Things Work provides an accessible introduction to physics for the non science student Like the previous editions it employs everyday objects with which students are familiar in case studies to explain the most essential physics concepts of day to day life Lou Bloomfield takes seemingly highly complex devices and strips away the complexity to show how at their heart are simple physics ideas Once these concepts are understood they can be used to understand the behavior of many devices encountered in everyday life The sixth edition uses the power of WileyPLUS Learning Space with Orion to give students the opportunity to actively practice the physics concepts presented in this edition This text is an unbound three hole punched version Access to WileyPLUS sold separately **God: the Evidence** Ronald W. Larsen PhD,2022-09-19 The holy grail of physics is quantum gravity often called the theory of everything But any scientific theory will be incomplete without the God of the Bible Physicists claim the cosmos began with a big bang created from nothing But the word nothing is meaningless in physics Furthermore the big bang is an impenetrable barrier to whatever preceded it In addition a finite cosmos cannot contain within itself an explanation for its own existence To claim we are here by accident explains nothing and leads to a logical dead end The cause of the universe is information in the form of mathematical laws left behind for science to discover The fundamental properties of these laws have the same attributes as the Supreme Lawgiver of Genesis An intelligible cosmos is unmistakable evidence the Creator is an Intelligent Mind The Creator s Voice is a valid scientific theory confirming the truth of Genesis God spoke the laws creating the universe out of nothing creatio ex nihilo The foundation of the universe is ethereal cosmic waves which interact according to the laws to create and sustain the illusion of reality we experience Space time energy and matter are made from quantum information nothing else is needed By a process of elimination God is the only possible explanation for everything we know The human mind is evidence consciousness is endemic to the cosmos Cosmic waves interact with the human mind in mysterious ways The cosmos relates

to humans more like a great Mind than a mindless machine The god like nature of the human mind is evidence we are made imago Dei Even if God is included in a scientific theory it means little unless it can be shown God is a real Being alive present in the world and relevant to our lives *Revealing Corrupt Science* Peet Schutte,2012-09-25 Revealing Corrupt Science I spent a lifetime uncovering information science hides for centuries My approach to science is revealing to the point and new It is your choice which you wish to read to get the same ideas about a new approach to stars galaxies and the Universe Read how the cosmos works when using the formula Kepler gave us In these books I make a financially rewarding offer of investment to prospective investors From where I stand my work is too big or I am too small to bring about the awareness I have to provoke to allow change in science to come about I need your help to get my work advertised so that people can see what my work entails In this there are 4 identical books namely To Inform To Reveal and To Expose and Uncovering The 1 is better developed than the other or the 1 is less informing than the other The page numbers will tell which is which Reading which one is your choice because we all can cope with different volumes of information and divulge more or less facts given as new information **Cosmological Conundrums** Howard Burton,2020-10-01 This book is based on an in depth filmed conversation between Howard Burton and Justin Khoury Professor of Physics at the University of Pennsylvania This thoughtful extensive conversation gives a window into the world of what a practicing theoretical physicist cosmologist is doing all day long and examines a wide range of fascinating topics that his research covers such as the early universe the Big Bang dark matter dark energy Cosmic Microwave Background the MOND Modified Newtonian Dynamics theory and more This carefully edited book includes an introduction Into The Light and questions for discussion at the end of each chapter I Becoming A Physicist The power of passion II The Victim of Its Success Swinging scientific pendulums III Periodically Fiery Calculating colliding branes IV The CMB Almost completely homogeneous V The Process of Discovery Typically messier than you think VI Learning from History Missing mass or missing theory VII MOND vs Dark Matter Part I Looking at galaxies VIII MOND vs Dark Matter Part II Dark matter roars back IX Why Not Both The liquid helium analogy X Dark Energy Vacuum energy and the cosmological constant problem XI Personal vs Professional The scientist as childlike iconoclast XII Revolutionary Rumblings Cosmology s Golden Age About Ideas Roadshow Conversations Presented in an accessible conversational format Ideas Roadshow books not only explore frontline academic research but also reveal the inspirations and personal journeys behind the research **Water & Sewage Works** ,1891 Vols 76 include Reference and data section for 1929 1929 called Water works and sewerage data section [Eleventh Census of the United States, 1890](#) United States. modern scientists who are advancing knowledge way beyond our universe *Paradigm Shift: The Future of Science & Technology* Alan P Garfoot,2010 The birth of the new field of Hyperspatial Mechanics in the subject of Physics with new pioneering scientific theory supporting experiments and subsequent technologies based on originality innovation and inspiration **The Quantum Frontier** Don Lincoln,2009-03-10 The highest energy particle accelerator ever built the Large Hadron Collider runs under the border between France and Switzerland It leapt into action on September 10 2008 amid unprecedented global press coverage and widespread fears that its energy would create tiny black holes that could destroy the earth By smashing together particles smaller than atoms the LHC recreates the conditions hypothesized to have existed just moments after the big bang Physicists expect it to aid our understanding of how the universe came into being and to show us much about the standard model of particle physics even possibly proving the existence of the mysterious Higgs boson In exploring what the collider does and what it might find Don Lincoln explains what the LHC is likely to teach us about particle physics including uncovering the nature of dark matter finding micro black holes and supersymmetric particles identifying extra dimensions and revealing the origin of mass in the universe Thousands of physicists from around the globe will have access to the LHC none of whom really knows what outcomes will be produced by the 7 7 billion project Whatever it reveals the results arising from the Large Hadron Collider will profoundly alter our understanding of the cosmos and the atom and stimulate amateur and professional scientists for years to come **How to Swindle by Faking Science** P.S.J. (Peet) Schutte,2012-12-14 How To Swindle by Faking Science then you are going read what is the mother of all the conspiracies in science which is about how science applies mind control by processing thought control This is the truth Science practicing physics about Astronomy Cosmology and everything to do with Stars the Cosmos or Universe Galactica is under a Conspiracy to hide and conceal the truth Does this sound far fetched I challenge you to read this book and then still think it is far fetched Read what science hides and I prove every word This book reveals what Science in Physics concerning Astronomy Cosmology hides for hundreds of years You read how science swindles to make Newton seem truthful and every time they find out how nature works nature destroys Newtonian concepts completely This is the a conspiracy For the first time in history I prove gravity is P But if science was as unblemished and perfect as physicists say it is then my work has no place to be This then is the attitude in science about my work To counter that claim I prove that there is a mother conspiracy in place about covering the misconceptions hidden under a cloak of false lily white purity and truthfulness To hide Newtons in defensible incorrectness science created a mother conspiracy which I reveal There is a mother conspiracy hiding mistakes in place Science benefits from and build upon this mother conspiracy being in place while I cant get further with my work while it is in place Its imbedded in the teaching and learning process students undergo in learning Newtonian dogma Students are brainwashed by the instigation of mind control that forces students to accept the dogma I prove gravity has value of P still by keeping me quiet I am perverted to introduce a new cosmic vision showing how the Universe forms when

enlisting the four phenomena How it works in science is Newton gets undeserved unduly credit in discrediting nature I show how singularity takes on every shape and space we know Are you up to facing the truth about what you thought is more righteous than God Read this and see what those in science hide to make them seem so surreal **The Large Hadron Collider** Don Lincoln,2020-09-29 An insider s history of the world s largest particle accelerator the Large Hadron Collider why it was built how it works and the importance of what it has revealed Since 2008 scientists have conducted experiments in a hyperenergized 17 mile supercollider beneath the border of France and Switzerland The Large Hadron Collider or what scientists call the LHC is one of the wonders of the modern world a highly sophisticated scientific instrument designed to re create in miniature the conditions of the universe as they existed in the microseconds following the big bang Among many notable LHC discoveries one led to the 2013 Nobel Prize in Physics for revealing evidence of the existence of the Higgs boson the so called God particle Picking up where he left off in The Quantum Frontier physicist Don Lincoln shares an insider s account of the LHC s operational history and gives readers everything they need to become well informed on this marvel of technology Writing about the LHC s early days Lincoln offers keen insight into an accident that derailed the operation nine days after the collider s 2008 debut A faulty solder joint started a chain reaction that caused a massive explosion damaged 50 superconducting magnets and vaporized large sections of the conductor The crippled LHC lay dormant for over a year while technical teams repaired the damage Lincoln devotes an entire chapter to the Higgs boson and Higgs field using several extended analogies to help explain the importance of these concepts to particle physics In the final chapter he describes what the discovery of the Higgs boson tells us about our current understanding of basic physics and how the discovery now keeps scientists awake over a nagging inconsistency in their favorite theory As accessible as it is fascinating The Large Hadron Collider reveals the inner workings of this masterful achievement of technology along with the mind blowing discoveries that will keep it at the center of the scientific frontier for the foreseeable future Falling Flat Danny Faulkner,2019-09-18 Flat earth fallacies are just one more way to muddy the waters in the creation and evolution debate as well as trying to discredit the Bible as being inaccurate and Christianity as an empty hoax Now be prepared when faced with these untruths and misleading agendas and get the facts regarding the flat earth fallacy Powerful answers to refute misleading and false flat earth claims Important thoroughly researched historical and scientific evidences disproving a flat earth Vital context of biblical truths and effective apologetics for Christians Enjoy a fascinating look at discoveries science and the Church throughout history as it faces down and disproves over and over again flat earth fallacies **Engineering Record, Building Record and Sanitary Engineer** ,1883 **Journal of the New England Water Works Association** New England Water Works Association,1902
