Korea And Globalisation Politics Economics And Culture:

Korea and Globalization James B. Lewis, Amadu Sesay, 2013-07-04 Korea faces two challenges in the twenty first century unification and globalization Both entail problems of economic political and cultural integration In the past Koreans successfully unified in various forms and globalized in many ways This book is a study of the theme of globalization addressing various aspects of Korea s integration into the global community from a social scientific or humanistic perspective This investigation begins with a focus on contemporary South and North Korea the globalized southern daily life South Korean labour as a global player the southern development state and the cultural division that poses the greatest threat to reunification Moving outwards in concentric circles chapters address Korea s connections with its region and Koreans contributions to the wider world Relations with Japan Korea s most difficult bi lateral relationship are surveyed to identify both patterns and images The thirteenth century Tripitaka Koreana is the most complete collection of Buddhist scripture in Chinese and its recent digitization points towards a renaissance of this world religion South Korea s pursuit of a Nobel Prize in Literature is put in perspective when one considers Korean contribution to the pre modern Sinitic literary world South Korea may owe its existence to the United Nations but since entering the UN in 1991 it has taken to heart the altruistic urge of global peacekeeping

The Two Koreas and their Global Engagements Andrew David Jackson, 2022-02-22 This book departs from existing studies by focusing on the impact of international influences on the society culture and language of both North and South Korea Since President Kim Young Sam s segyehwa drive of the mid 1990s South Korea has become a model for successful globalization In contrast North Korea is commonly considered one of the least internationally integrated countries This characterization fails to account for the reality of the two Koreas and their global engagements The opening essay situates the chapters by highlighting some significant contrasts and commonalities between the experiences of North and South Korea s history of engagement with the world beyond the Peninsula The chapters explore both the longer term historical influence of Korea s international contacts as well as specific Korean cultural linguistic and social developments that have occurred since the 1990s demise of the global Cold War and greater international integration

Kim,2000-10-25 This clear and timely book presents the first sustained and structured analysis of globalization in the East Asian context exploring the strategies used by East Asian countries to cope with the forces of globalization Eschewing both neoliberal hyperglobalization chants and neorealist globaloney castigation the authors integrate a broad conceptual framework with region and country specific case studies Specifically the book poses and addresses three major questions about East Asia s globalization First it identifies the range of contending conceptualizations of globalization that have underpinned the region s changing and contradictory views in the 1990s Second the book critically probes the discrepancy between promise and performance the myths and realities of East Asian globalization and the complex interaction of challenges and responses Third the authors evaluates the impacts and consequences of globalization for East Asia s political economic social cultural ecological and security development These questions clarify the often murky nature challenges responses and consequences of globalization especially in light of the Asian financial crisis and moves toward recovery *Political, Economic And Social Dimensions Of Labour Markets: A Global Insight* Soon Beng Chew,Lingli Huang,Kai Xiang Kwa,2022-06-23 Why and how do politics society and economics shape the growth and failure of labour markets Does government intervention help or harm labour market reforms adjustments in times of economic downturn What forces drive such government intervention and do they differ from society to society In addressing these big picture questions this book s analytical scope is heavily centred around the topic of labour markets performance The book argues that performance in labour markets across countries are influenced by their labour market policies In turn these policies are shaped in varying degrees by the country s politics Each chapter in this book dives into the labour market experiences in various countries to demonstrate why in some countries labour markets perform better than in other countries Major findings from this book suggest that countries can produce better economic and social outcomes e g lower socio economic inequality if their labour market policies are aimed at fostering a socially and politically stable society via greater equity in wealth distribution across various socio cultural and income groups This book is an essential read for any public policy researchers policy practitioners and undergraduate graduate students who are interested or vested in the topic of labour markets performance in the political social and economic dimensions Particularly this book provides a critical synthesis of the labour market experiences in many countries Hence the book serves as an ideational tool to advance future labour market research and policy Globalization and the Asia Pacific Economy Kyung Tae Lee,2003-09-02 This book looks at globalisation in historical perspective and examines the experience of East Asian economies during the financial crisis provides an account of globalisation through the activities of Japanese multinational enterprises deals with the social

consequences of exposure to the financial market risks of globalisation in East Asia details the experience of East Asian economies in managing the financial crisis draws lessons from East Asian experience with financial market liberalisation asks what approaches to international financial cooperation trade policy and corporate governance can assist East Asian interests in the world economy *Global Exposure in East Asia* Ming-Chang Tsai, 2016-03-09 In contrast to speculative sweeping literature on globalization *Global Exposure in East Asia* grounds globalization theories in a detailed empirical analysis providing a systematic investigation of what until now have been grand narratives of huge global phenomena This book presents a micro level explanation of globalization by examining individual global exposure and its influence in the values and perceptions of individuals contending that individual and personal global experience or microglobalization is a key variable in understanding how modern mobile persons act and think in ways different from those who remain geographically immobile and constrained Drawing on detailed empirical evidence from China Japan Taiwan and South Korea *Global Exposure in East Asia* explores the structures of global exposure and their influences on values and identities in contemporary East Asia A rich comparative and grounded examination of modern theories of globalization this book introduces an innovative perspective that highlights the significance of microglobalization in understanding quotidian lives in a context of ever expanding transnational exchanges and connectivities As such it will appeal to social scientists with interests in globalization cosmopolitanism mobility migration and transnationalism national identity and everyday life **New Korean Cinema** Chi-Yun Shin, Julian Stringer, 2005 A wide ranging analysis of modern South Korean cinema **Gaming Cultures and Place in Asia-Pacific** Larissa Hjorth, Dean Chan, 2009-06-24 This collection explores the politics of game play and its cultural context by focusing on the Asia Pacific region Drawing from micro ethnographic studies to macro political economy analysis of techno nationalisms and transcultural flows of cultural capital it provides an interdisciplinary model for thinking through the politics of gaming *From Factory Girls to K-Pop Idol Girls* Gooyong Kim, 2020-07-06 Focusing on female idols proliferation in the South Korean popular music K pop industry since the late 1990s Gooyong Kim critically analyzes structural conditions of possibilities in contemporary popular music from production to consumption Kim contextualizes the success of K pop within Korea s development trajectories scrutinizing how a formula of developments from the country rapid industrial modernization 1960s 1980s was updated and re applied in the K pop industry when the state had to implement a series of neoliberal reforms mandated by the IMF To that end applying Michel Foucault s discussion on governmentality a biopolitical dimension of neoliberalism Kim argues how the regime of free market capitalism updates and reproduces itself by 1 forming a strategic alliance of interests with the state and 2 using popular culture to facilitate individuals subjectification and subjectivation processes to become neoliberal agents As to an importance of K pop female idols Kim indicates a sustained utility legacy of the nation s century long patriarchy in a neoliberal development agenda Young female talents have been mobilized and deployed in the neoliberal culture industry in a similar way to how unwed obedient female

workers were exploited and disposed on the sweatshop factory floors to sustain the state's export oriented labor intensive manufacturing industry policy during its rapid developmental stage decades ago. In this respect Kim maintains how a post feminist neoliberal discourse of girl power has marketed young female talents as effective commodities and how K pop female idols exert biopolitical power as an active ideological apparatus that pleasurably perpetuates and legitimates neoliberal mantras in individuals' everyday lives. Thus Kim reveals there is a strategic convergence between Korea's lingering legacies of patriarchy, developmentalism and neoliberalism. While the current K pop literature is micro scopic and celebratory Kim advances the scholarship by multi perspectival critical approaches. With a well balanced perspective by micro scopic textual analyses of music videos and macro scopic examinations of historical and political economy backgrounds Kim's book provides a wealth of intriguing research agendas on the phenomenon and will be a useful reference in International Intercultural Communication Political Economy of the Media Cultural Media Studies Gender Sexuality Studies Asian Studies and Korean Studies.

A History of East Asia Charles Holcombe, 2017-01-11 Charles Holcombe begins by asking the question what is East Asia. In the modern age many of the features that made the region now defined as including China Japan Korea and Vietnam distinct have been submerged by the effects of revolution politics or globalization. Yet as an ancient civilization the region had both an historical and cultural coherence. This shared past is at the heart of this ambitious book which traces the story of East Asia from the dawn of history to the twenty first century. The second edition has been imaginatively revised and expanded to place emphasis on cross cultural interactions and connections both within East Asia and beyond with new material on Vietnam and modern pop culture. The second edition also features a Chinese character list additional maps and new illustrations.

Meeting Once More Elise M. Prébin, 2013-05-06 Examines the impact of adoptees on their birth country and birth families. A great mobilization began in South Korea in the 1990s adult transnational adoptees began to return to their birth country and meet for the first time with their birth parents sometimes in televised encounters which garnered high ratings. What makes the case of South Korea remarkable is the sheer scale of the activity that has taken place around the adult adoptees return and by extension the national significance that has been accorded to these family meetings. Informed by the author's own experience as an adoptee and two years of ethnographic research in Seoul as well as an analysis of the popular television program I Want to See This Person Again which reunites families Meeting Once More sheds light on an understudied aspect of transnational adoption the impact of adoptees on their birth country and especially on their birth families. The volume offers a complex and fascinating contribution to the study of new kinship models migration and the anthropology of media as well as to the study of South Korea.

Preaching to Korean Immigrants Rebecca Seungyoun Jeong, 2022-09-14 In terms of practical theology's critical reflection on marginalized people's wounds in a wider society this book investigates the question How to proclaim the good news in response to first generation Korean immigrants contextual suffering in the United States To answer the question the book starts with investigating Korean immigrant hearers contextual predicaments in a new land to point out emerging practical theological issues in relation to the practice of preaching In this book the primary subjects are first generation Korean immigrants especially those who have relatively low socio economic status and struggle with the purpose of their lives as immigrants particularly those whose material dreams have been shattered In order to proclaim the good news this book proposes a more appropriate immigrant theology for in the practice of preaching by reclaiming the priorities of God's future in our lives and confirming God's active identification with Korean immigrant congregations in the depths of their predicament Such reconstructive work for immigrant theology arises in response to their existential hardships marginality ethnic discrimination and relative powerlessness in life While acknowledging both the possibilities and limits of the diverse forms of current Korean immigrant preaching the book then offers a strategic proposal for a new homiletic theory namely a psalmic theological homiletic This proposed homiletic is deeply rooted in the theology of the Psalms and their rhetorical movement This re-envisioned mode of eschatological and prophetic preaching in times of difficulty recovers ancient Israel's psalmic rhetorical tradition that aims toward faith Its theological rhetorical strategy intends to both transform hearers' habitus of living in faith and enhance their hope-filled life through communal anticipation of God's coming future on the margins Specifically this proposed homiletic critically adopts key features from psalms of lament and their typical fourfold theological rhetorical movement i.e. lament retelling a story confessional doxology and obedient vow as now core elements of a revised Korean immigrant preaching practice
