Last Frontier:

Yukon Melody Webb,1993-01-01 Covering vast distances in time and space Yukon The Last Frontier begins with the early Russian fur trade on the Aleutian Islands and closes with what Melody Webb calls the technological frontier Colorful and impeccably researched her history of the Yukon Basin of Canada and Alaska shows how much and how little has changed there in the last two centuries Successive waves of traders trappers miners explorers soldiers missionaries settlers steamboat pilots road builders and aviators have come to the Yukon bringing economic and social changes but the immense land remains virtually untouched by permanent intrusions The Last Frontier Zachary Taylor Sutley,2013-09 The Strip Stefan Al,2017-03-03 The transformations of the Strip from the fake Wild West to neon signs twenty stories high to starchitecture and how they mirror America itself The Las Vegas Strip has impersonated the Wild West with saloon doors and wagon wheels it has decked itself out in midcentury modern sleekness It has illuminated itself with twenty story high neon signs then junked them After that came Disney like theme parks featuring castles and pirates followed by replicas of Venetian canals New York skyscrapers and the Eiffel Tower It might be noted that forty two million people visited Las Vegas in 2015 ten million more than visited the real Paris More recently the Strip decided to get classy with casinos designed by famous architects and zillion dollar collections of art Las Vegas became the implosion capital of the world as developers driven by competition got rid of the old to make way for the new offering a non metaphorical definition of creative destruction In The Strip Stefan Al examines the many transformations of the Las Vegas Strip arguing that they mirror transformations in America itself The Strip is not as popularly supposed a display of architectural freaks but representative of architectural trends and a record of social cultural and economic change Al tells two parallel stories He describes the feverish competition of Las Vegas developers to build the snazziest most tourist grabbing casinos and resorts with a cast of characters including the mobster Bugsy Siegel the eccentric billionaire Howard Hughes and the would be political kingmaker Sheldon Adelson And he views the Strip in a larger social context showing that it has not only reflected trends but also magnified them and sometimes even initiated them Generously illustrated with stunning color images throughout The Strip traces the many metamorphoses of a city that offers a vivid projection of the American dream **Las Vegas** Lynn Zook,Carey Burke,Allen Sandquist,2009-03-02 Everyone thinks they know the story of Las Vegas the showgirls the gambling the mob But Las Vegas has always been much more Families have lived here since its founding in 1905 After 1931 legalized gaming became the big tourist draw and following World War II the town began to market itself as Americas Playground That is when the famed Las Vegas Strip came into its own and downtown was dubbed Glitter Gulch These vintage postcards show how Las Vegas evolved from a dusty railroad town into the Entertainment Capital of the World while remaining a city filled with families and pioneering souls *The EmBodyment of American Culture* Heinz Tschachler,Maureen Devine,Michael Draxlbauer,2003 American culture has literally become fixated on the body at the same time that the body has emerged as a

key term within critical and cultural theory Contributions thus address the body as a site of the cultural construction of various identities which are themselves enacted negotiated or subverted through bodily practices Contributions come from literary and cultural studies film and media studies history and sociology and women studies and are representative of many theoretical positions hermeneutic historical structuralist feminist postmodernist They deal with representations and discursifications of the body in a broad array of texts in literature the visual arts theater the performing arts film and mass media science and technology as well as in various cultural practices

Nevada Yesterdays Frank Wright,2005 For 18 years Las Vegans have enjoyed small helpings of their own rich history served up by public radio station KNPR Hearing well told tales of characters with names like Whiskey Pete and the comic opera romance between a famous female evangelist and a boyfriend called Whataman many a listener has wished for a transcript This book fulfills that wish presenting more than 100 selected mostly by the program s original author historian Frank Wright Wright mined the pits and pockets of local lore for nuggets little known to the public misunderstood by most or merely enough fun to be worth telling once more **Tourists and Tourism** Simone Abram,Don Macleod,Jackie D. Waldren,2021-04-26 The fact that tourism is a major global industry forecast to continue its dramatic growth well into the twenty first century is often cited as a rationale for its analysis However while the connection between individual locations and the world s global markets is an obvious product of tourism the heart of the tourist experience is the construction of identity the relation of the traveller to resident populations the participants views of themselves and others tourists search for authenticity and their testing of boundaries This book significantly furthers current debates on tourism by asking important and vexing questions about the nature of the tourist experience folk museums that forget many of the folk who live in the areas represented the environments and events that are shaped to meet the imagined dreams of tourist spectators the categorization of visitors and returnees who take up residence and participate in the construction of local identities the evolving meanings associated with indigenous culture tradition heritage representation reality and authenticity In renegotiating the definitions of tourism for the new millennium this book represents a major contribution to an emerging and highly topical area of study **Protecting the Arctic** Mark Nuttall,2005-10-05 Protecting the Arctic explores some of the ways in which indigenous peoples have taken political action regarding Arctic environmental and sustainable development issues and investigates the involvement of indigenous peoples in international environmental policy making Nuttall illustrates how indigenous peoples make claims that their own forms of resource management not only have relevance in an Arctic

regional context but provide models for the inclusion of indigenous values and environmental knowledge in the design negotiation and implementation of global environmental policy
