Annual Report Presbyterian Church in the U.S.A. Board of Foreign Missions, 1919 The Risk of Compressed Modernity Chang Kyung-Sup, 2025-07-11 In many Asian societies the process of modernization often took place in a rapid and highly compressed fashion not over centuries as had happened in most Western societies but in several decades This enabled Asian societies to achieve high levels of economic growth very quickly but it also harbored unexpected risks and costs that threatened further development The very mechanisms and strategies that made their explosive modernization possible tended to produce existentially hazardous consequences in virtually all areas of public and private life and seemingly insurmountable obstacles to sustained advances in the future Focusing on South Korea and other Asian countries this book presents a critical account of compressed modernity and its key structural risks These include endemic political crises distorted industrial governance widespread labor displacement worsening intellectual and cultural dependency rampant environmental and physical hazards and even abrupt demographic meltdown However these risks and contradictions have also stimulated structural reforms and adaptations opening up the possibility for the kind of radical change that Ulrich Beck described as the metamorphosis of the world Japan's Evolving Foreign Policy Doctrine Bert Edström, 2016-07-27 During half a century after the war Japan's economy was built up from scratch to the world's number two while its foreign policy has

been described by many as passive and even verging on being non-existent. As a contrast this study evinces how the foundations of Japan's foreign policy were laid in the early postwar period and how postwar policies have been characterized by pervasive continuity guided by distinct national goals and expressed in clear-cut national role conceptions. *Defense Mapping Agency Nautical Charts and Publications Public Sale* United States. Western-Centrism and Contemporary Korean Political Thought Jung In Kang, 2015-08-20 This book is an outgrowth of critical examination of Western political theory embedded in Western centrism and the tumultuous ideational processes by which contemporary Korean political theory and reality have intensely interacted both in convergent and divergent ways with it. To conduct such examination the book addresses complex and variegated questions regarding Western centrism: What is Western centrism? How is Western centrism to be compared and contrasted with other forms of centrism such as Sinocentrism, capitalism, bourgeois centrism, patriarchy, male centrism, and racism, white centrism? How has Western centrism evolved in world history and in the history of Western political thought? How has Western centrism shaped the evolution of contemporary Korean political thought? What kinds of ill effects has Western centrism brought about in Korean society and academia? And ultimately how can Western centrism be overcome? **Grain Market News** United States.
