**Korea Briefing, 1993** Donald N. Clark,2019-04-08 This edition of Korea Briefing the fourth in the series is issued in conjunction with The Asia Society s Festival of Korea a yearlong nationwide celebration of Korean history culture and contemporary life      The Korean American Dream Kyeyoung Park,2018-09-05 Korean immigrants to the United States establish their own small businesses at a rate exceeding that of immigrants from any other nation with more than one third of all Korean immigrant adults involved in small businesses Kyeyoung Park examines this phenomenon in Queens New York tracing its historical bases and exploring the transformation of Korean cultural identity prompted by participation in an enterprise Park documents the ways in which Korean immigrants use entrepreneurship to improve the quality of their lives focusing on their concerns and anxieties as well as their joys The concept of anjong is crucial to the lives of first generation Korean Americans in Queens Park explains The word may be translated as establishment stability or security and it identifies a particular concept of success through which Koreans make sense of the American ideology of opportunity What they seek is not great wealth or social position but rather the creation of their own small businesses as a way of realizing the American dream The pursuit of anjong is important enough to justify changes in gender and kinship relations resulting in the rise of a Korean American women centered and sister initiated kinship structure Commitment to the concept has also inspired a different understanding of class ethnicity and race and stimulated new religious ideas and practices

**Koreans in the Hood** Kwang Chung Kim,1999-07-06 Conflict between Korean Americans and African Americans attracted national attention in the aftermath of the 1992 Rodney King trial in Los Angeles The news media seized upon the violent riots and depicted Korean shop owners as gun wielding exploiters of the African American poor Absent from

the barrage of media coverage was the Korean American point of view and experience of the inner city economy and racial relations This new volume of essays written largely by Korean American scholars adds substantially to our understanding of interracial multiethnic conflict by examining relations between the Korean American and African American communities in three major American cities Los Angeles Chicago and New York Edited by sociologist Kwang Chung Kim the book brings together similar yet contrasting studies of Korean American and African American conflict Korean Americans find themselves economically powerful but weak politically African Americans however wield considerable political clout even though they may have little economic power Koreans in the Hood offers the Korean American perspective on coexisting with African Americans in some of the poorest areas of American cities Each chapter focuses on a particular city and experience offering a unique opportunity for inter city comparison as the contributors explore three overt forms of Korean American and African American confrontation interpersonal dispute boycott and mass violence The first part of the book examines Korean American experience of the conflict in Los Angeles It then details the social political and economic tensions arising from the African American boycott of Korean fruit and vegetable merchants in New York The final chapters concern the Korean American experience of conflict in Chicago Throughout the authors rely on empirical data and seek to trace the roots of conflict the consequences and future directions of relations between the two groups What emerges is an unique account of Korean Americans caught between the poor African American population and the larger more affluent white population

**Sons And Daughters Of Los** David James, 2003-02-27 Los Angeles A city that is synonymous with celebrity and mass market culture is also according to David James synonymous with social alienation and dispersal In the communities of Los Angeles artists cultural institutions and activities exist in ways that are often concealed from sight obscured by the

powerful presence of Hollywood and its machinations In this significant collection of original essays *The Sons and Daughters of Los* reconstructs the city of Los Angeles with new cultural connections Explored here are the communities that offer alternatives to the picture of L A as a conglomeration of studios and mass media Each essay examines a particular piece of or place in Los Angeles cultural life from the Beyond Baroque Poetry Foundation the Woman s Building to Highways and LACE as well as the achievements of these grassroots initiatives Also included is critical commentary on important artists including Harry Gamboa Jr and others whose work have done much to shape popular culture in L A The cumulative effect of reading this book is to see a very different city take shape one whose cultural landscape is far more innovative and reflective of the diversity of the city s people than mainstream notions of it suggest *The Sons and Daughters of Los* offers a substantive and complicated picture of the way culture plays itself out on the smallest scale in one of the largest metropolises on earth contributing to a richer more textured understanding of the vibrancy of urban life and art *Blue Dreams* Nancy

ABELMANN, John Lie, Nancy Abelman, 2009-06-30 No one will soon forget the image blazed across the airwaves of armed Korean Americans taking to the rooftops as their businesses went up in flames during the Los Angeles riots Why Korean Americans What stoked the wrath the riots unleashed against them *Blue Dreams* is the first book to make sense of these questions to show how Korean Americans variously depicted as immigrant seekers after the American dream or as racist merchants exploiting African Americans emerged at the crossroads of conflicting social reflections in the aftermath of the 1992 riots The situation of Los Angeles s Korean Americans touches on some of the most vexing issues facing American society today ethnic conflict urban poverty immigration multiculturalism and ideological polarization Combining interviews and deft socio historical analysis *Blue Dreams* gives these problems a human face and at the same time clarifies the historical political and economic factors that render them so complex In the lives and voices of Korean Americans the authors locate a profound challenge to cherished assumptions about the United States and its minorities Why did Koreans come to the United States Why did they set up shop in poor inner city neighborhoods Are they in conflict with African Americans These are among the many difficult questions the authors answer as they probe the transnational roots and diversity of Los Angeles s Korean Americans Their work finally shows us in sharp relief and moving detail a community that despite the blinding media focus brought to bear during the riots has nonetheless remained largely silent and effectively invisible An important corrective to the formulaic accounts that have pitted Korean Americans against African Americans *Blue Dreams* places the Korean American story squarely at the center of national debates over race class culture and community Table of Contents Preface The Los Angeles Riots the Korean American Story Reckoning via the Riots Diaspora Formation Modernity and Mobility Mapping the Korean Diaspora in Los Angeles Korean American Entrepreneurship American Ideologies on Trial Conclusion Notes References Index Reviews of this book *Blue Dreams* a poetic allusion to the clear blue sky that Koreans see as a symbol of freedom is a welcome exploration by outsiders into the vexing and largely invisible Korean American

predicament in Los Angeles and the nation Abelman and Lie's colorful interview subjects offer sharp observations K W Lee  
 Los Angeles Times Reviews of this book An informed and thoughtful examination of Korean immigration to the United States  
 since 1970 Abelman and Lie show that even in a period as short as twenty five years there have been successive waves of  
 differently motivated differently resourced Korean immigrants and their experiences and reactions have differed accordingly  
 Michael Tonry Times Literary Supplement Reviews of this book The authors transnational perspective is particularly effective  
 for explicating Korean immigrants behaviors activities and feelings Interesting and readable Pyong Gap Min American  
 Journal of Sociology Reviews of this book Beginning with a poetic book title the authors recount in depth as to how the Blue  
 Dreams of the Korean American merchants in East Los Angeles had shattered in the midst of the 1992 riot that turned out to  
 be elusive dreams in America The book not only portrays the L A riot surrounding the Korean merchants but also  
 characterizes diaspora of the Koreans in America The authors have also examined with scholarly insights the more complex  
 socioeconomic and political underplay the Koreans encountered in their Promised New Land Eugene C Kim International  
 Migration Review **Imperial Citizens** Nadia Y. Kim, 2008 Examines how immigrants acquire American ideas about race  
 both pre and post migration in light of U S military presence and U S cultural dominance over their home country drawing on  
 interviews and ethnographic observations of Koreans in Seoul and Los Angeles *Ethnic Peace in the American City*  
 Edward Taehan Chang, Jeannette Diaz-Veizades, 1999-08 The Los Angeles riot of 1992 marked America's first high profile  
 multiethnic civil unrest Latinos Asian Americans whites and African Americans were involved as both victims and assailants  
 Nearly half of the businesses destroyed were Korean American owned and nearly half of the people arrested were Latino In  
 the aftermath of the unrest Los Angeles with its extremely diverse population emerged as a particularly useful site in which  
 to examine race relations Ethnic Peace in the American City documents the nature of contemporary inter ethnic relations in  
 the United States by describing the economic political and psychological dynamics of race relations in inner city Los Angeles  
 Drawing from local as well as international examples the authors present strategies such as coalition building dispute  
 resolution and community organizing Moving beyond the stereotyped focus on negative interactions between minority groups  
 such as Korean owned businesses and the African American community and countering the white black or bi racial  
 paradigms of American race relations the authors explore practical means by which ethnically fragmented neighborhoods  
 nationwide can work together to begin to address their common concerns before tensions become explosive *On My Own*  
 In-Jin Yoon, 2007-12-01 The Los Angeles riots shattered Korean immigrants naive belief in the American dream As many as 2  
 300 Korean shopkeepers lost their lifetime investments in one day Korean immigrants had struggled for years to become  
 economically independent through small businesses of their own However the riots made them realize how fragile their  
 economic base is because their businesses are dependent on the impoverished oppressed and rebellious classes In *On My  
 Own* In Jin Yoon combines an intimate fieldwork account of Korean black relations in Chicago and Los Angeles with extensive

quantitative analysis at the national level Yoon argues that a complete understanding of the contemporary Korean American community requires systematic analyses of patterns of Korean immigration entrepreneurship and race relations with other minority groups He explains how small business has become the major economic activity of Korean immigrants and how Korean businesses in minority neighborhoods have intensified racial tensions between Koreans and minorities like blacks and Latinos A groundbreaking study of Korean black relations Yoon s insights on immigration entrepreneurship and race relations significantly enhance our understanding of urban racial tensions William Julius Wilson Harvard University

**Asian America** Huping Ling,2009-04-29 The last half century witnessed a dramatic change in the geographic ethnographic and socioeconomic structure of Asian American communities While traditional enclaves were strengthened by waves of recent immigrants native born Asian Americans also created new urban and suburban areas Asian America is the first comprehensive look at post 1960s Asian American communities in the United States and Canada From Chinese Americans in Chicagoland to Vietnamese Americans in Orange County this multi disciplinary collection spans a wide comparative and panoramic scope Contributors from an array of academic fields focus on global views of Asian American communities as well as on territorial and cultural boundaries Presenting groundbreaking perspectives Asian America revises worn assumptions and examines current challenges Asian American communities face in the twenty first century

Chang,2021-04-14 Through new research and materials Edward T Chang proves in Pachappa Camp The First Koreatown in the United States that Dosan Ahn Chang Ho established the first Koreatown in Riverside California in early 1905 Chang reveals the story of Pachappa Camp and its roots in the diasporic Korean community s independence movement efforts for their homeland during the early 1900s and in the lives of the residents Long overlooked by historians Pachappa Camp studies the creation of Pachappa Camp and its place in Korean and Korean American history placing Korean Americans in Riverside at the forefront of the Korean American community s history Multiculturalism

from the Margins Dean A. Harris,1995-10-24 So called multiculturalists have been recently targeted by journalists and scholars arguing that such apologists are the cause of contemporary cultural fragmentation racism neo segregation lowered standards and a radicalism that ignores the wishes of mainstream America This book is an introduction to some of the ideas underlying the claims multiculturalists make for diversity inclusion and complexity and is one of the first rejoinders minorities have presented to combat the onslaught Spanning the philosophical spectrum from difference to competent intercultural communication each essay represents the precipitate produced from the writer s engagement with students scholars the public at large and marginalized peoples The reader will not find in these pages a call for chaos civil war or racism None of what is here espoused can responsibly be characterized as unpatriotic or misanthropic Radical Yes Subversive Yes But also expansive sympathetic challenging and galvanizing This book is not for the faint of heart Readers looking for a demanding analysis that will provide guidance on adjudicating the claims of multiculturalists and

monoculturalists will find it in this book      *Monitored Peril* Darrell Y. Hamamoto, 1994 A meticulous work of history cultural criticism and political analysis *Monitored Peril* illuminates the unstable relationship between the practices of commercial television programs liberal democratic values and white supremacist ideology The book clearly demonstrates the pervasiveness of racialized discourse throughout U S society especially as it is reproduced by network television      *Being Buddhist in a Christian World* Sharon A Suh, 2012-09 Challenging Western notions of Buddhism as a self effacing path to rebirth and enlightenment Sharon Suh shows how first generation Korean Americans at Sa Chal Temple in Los Angeles have applied Buddhist doctrines to the project of finding and knowing the self in everyday life Buddhism for these Buddhists serves as a source of empowerment and as a wellspring of practical and spiritual relief from myriad everyday troubles Painful life events and circumstances psychological stresses marital discord adjustments to immigrant life racial and religious minority status prompt a turning toward religion in an effort to build self esteem The process of coming to find and know the self initiates a transformation that far from taking future rebirths as its focus enables the self to enact change in the present Oral histories from twenty five men and twenty five women also offer unexpected insights into distinctly male and female forms of Buddhist worship As a commentary on ethnicity *Being Buddhist in a Christian World* challenges much of the existing literature in Asian American studies by placing religion at the center and illustrating its importance for shaping ethnic identity Not only does Suh ask how Korean American identity might be grounded in religion she goes on to examine the implications of this grounding when the religious tradition is considered to be socially marginal      **Bibliography of Asian Studies** , 1996      **Mapping the Social Landscape** Susan J.
