, *The Lonelinesses of Modernity* Denis Newiak, 2025-01-03 Modernity presents itself as an age of increasing social disintegration secularization and rationalization urbanization and globalization individualization and digitalization make it difficult for communities today Modernity comes with desirable promises that make it attractive but it does not come free Its price is escalating modern loneliness Denis Newiak tells a cultural history of modernization that from industrialization to the late modern network society produces ever new and harsher experiences of loneliness Sonatas, Volume 2 Ludwig van Beethoven, Artur Schnabel, 2006-03-23 Re engraved corrected editions by Artur Schnabel with Schnabel's notes and comments in five languages Volume One contains Sonatas One through Seventeen and Volume Two contains Sonatas Eighteen through Thirty Two **Latomus and Luther** Anna Vind, 2019-09-16 Who was Jacob Latomus What did he write in the series of lectures to which Luther penned an answer in 1521 an answer which is now so central to many interpretations of the great reformer And how is the reading of that answer affected when it is preceded by an interpretation of what Latomus wrote The study goes through the most important parts of Latomus treatise against Luther 1521 The aim is to identify Latomus theological convictions and thus to pin down who and what Luther was up against The second and major part of the book is a reading of Luther's pamphlet against Latomus 1521 Parallels are drawn with Latomus theology in order to facilitate as much as possible an appreciation of the differences between the two The comparison between the two theologians shows that they speak completely different languages and that their viewpoints do not square at all Basically their ways depart in their understanding of God's word and how it is communicated to man This generates two ways of perceiving the matter of theology and of speaking theologically and prevents mutual understanding Latomus cannot understand Luther's view of the autonomy of God's word and the special character of proclamation and hence a theology which is incompatible with natural reason Even though he accepts a division between a natural and a supernatural rationality and thus admits that natural reason has a limit he grants the very same natural reason an important role in the ascent of cognition towards revelation Everything else such as Luther's theology is a dehumanization of the human being Luther on the other hand regards Latomus theology as a result of the impulse in sinful man towards ruling and controlling the word of God with his own inadequate natural abilities In Luther's eyes that proclamation of Christ which in the shape of a human being comes to man in contradiction of everything human here disappears in the twinkling of an eye **Cultural Studies of Modern Germany** Russell A. Berman, 1993 A study probing the ambiguities of German nationhood Berman takes a theoretical perspective of cultural studies exploring such themes as the constitution of nationhood what holds a citizenry together and history's role in providing a framework for current identities and institutions Nietzsche's Last Notebooks 1888, **Nietzsche in the Nineteenth Century** Robert C. Holub, 2018-06-15 Friedrich Nietzsche is often depicted in popular and scholarly discourse as a lonely philosopher dealing with abstract concerns unconnected to the intellectual

debates of his time and place Robert C Holub counters this narrative arguing that Nietzsche was very well attuned to the events and issues of his era and responded to them frequently in his writings Organized around nine important questions circulating in Europe at the time in the realms of politics society and science Nietzsche in the Nineteenth Century presents a thorough investigation of Nietzsche s familiarity with contemporary life his contact with and comments on these various questions and the sources from which he gathered his knowledge Holub begins his analysis with Nietzsche s views on education nationhood and the working class movement turns to questions of women and women s emancipation colonialism and Jews and Judaism and looks at Nietzsche s dealings with evolutionary biology cosmological theories and the new science of eugenics He shows how Nietzsche although infrequently read during his lifetime formulated his thought in an ongoing dialogue with the concerns of his contemporaries and how his philosophy can be conceived as a contribution to the debates taking place in the nineteenth century Throughout his examination Holub finds that against conventional wisdom Nietzsche was only indirectly in conversation with the modern philosophical tradition from Descartes through German idealism and that the books and individuals central to his development were more obscure writers most of whom have long since been forgotten This book thus sheds light on Nietzsche s thought as enmeshed in a web of nineteenth century discourses and offers new insights into his interactive method of engaging with the philosophical universe of his time

Ewigkeit in Schleiermachers Predigten Sebastian Rink, 2024-05-06 Schleiermacher gilt als einer der bedeutendsten Prediger der vergangenen 200 Jahre was in der Forschung jedoch kaum zum Tragen kommt Dabei sind die Predigten nicht weniger als das theologische Kontinuum des schleiermacherschen uvres Sebastian Rink untersucht das in der Kritischen Gesamtausgabe neu edierte umfangreiche Gesamtwerk der Predigten Schleiermachers mithilfe digitaler Werkzeuge Er leistet damit einen exemplarischen Beitrag zur methodischen Weiterentwicklung digital untersttzter theologischer Forschung Anhand der Funktionen des Ewigkeitsbegriffs zeichnet die Arbeit in sieben Phasen den Zuschnitt und die Entwicklungen der Theologie Schleiermachers vor dem Hintergrund seiner ebenfalls vernachlssigten Eschatologie nach Insbesondere durch Vergleiche mit den nicht homiletischen Schriften wird die Bedeutung der Predigten Schleiermachers fr eine Interpretation seiner Theologie neu in den Fokus gerckt Ewigkeit wird dabei als ein hermeneutischer Schlsselbegriff profiliert Mit der Arbeit liegt eine im Blick auf den Untersuchungsgegenstand der Predigten erstmals umfassende und zudem methodisch innovative Untersuchung der Theologie Schleiermachers vor

United with Christ Volker Leppin, 2025 Leppin illuminates how Luther s emerging theology drew upon deep wells of personal mystical experience and the guidance of late medieval mystics such as fourteenth century priest and theologian John Tauler and others who influenced the reformer s views on a host of theological subjects including such cornerstones as the Passion and the Eucharist

Humanity in God's Image Claudia Welz, 2016-08-18 How can we in our times understand the biblical concept that human beings have been created in the image of an invisible God This is a perennial but increasingly pressing question that lies at the heart of theological anthropology

Humanity in God's Image An Interdisciplinary Exploration clarifies the meaning of this concept traces different Jewish and Christian interpretations of being created in God's image and reconsiders the significance of the imago Dei in a post Holocaust context As normative counterfactual notions human dignity and the imago Dei challenge us to see more Claudia Welz offers an interdisciplinary exploration of theological and ethical visions of the invisible By analysing poetry and art Welz exemplifies human self understanding in the interface between the visual and the linguistic The content of the imago Dei cannot be defined apart from the image carrier an embodied creature Compared to verbal visual and mental images how does this creature as a living image refer to God like a metaphor a mimetic mirror or an elusive trace Combining hermeneutical and phenomenological perspectives with philosophy of religion and philosophy of language semiotics art history and literary studies Welz regards the imago Dei as a complex sign that is at once iconic indexical and symbolical pointing beyond itself

The Anthem Companion to Ernst Troeltsch Christopher Adair-Totef, 2017-12-15 The Anthem Companion to Ernst Troeltsch is the first collection of essays in English devoted to the thinking of Ernst Troeltsch The eight essays are written by scholars who have been recognized as major contributors to works on Troeltsch many of them have published books on his theology These essays are devoted to exploring Troeltsch's ethical sociological and political ideas in addition to his theological concepts The collection aims to depict Troeltsch as a major sociologist and important philosopher in addition to being one of the most significant German theologians of the late nineteenth and early twentieth centuries

Theology of Love Werner G. Jeanrond, 2010-01-21 This book explores the different dimensions of Christian love It argues that all expressions of love are wrestling with the challenge of otherness

Hugo Wolf and his Mörike Songs Susan Youens, 2000-06-22 Viennese composer Hugo Wolf produced one of the most important song collections of the nineteenth century when he set to music fifty three poems by the great German poet Eduard Mörike Susan Youens reappraises this singular collaboration to shed new light on the sophisticated interplay between poetry and music in the songs Wolf is customarily described as the Poet's Composer someone who revered poetry and served it faithfully in his music Yet as Youens reveals this cliché overlooks the rich terrain in which his songs are often at cross purposes with his chosen poetry Although Wolf did much to draw the world's attention to the neglected Swabian poet his musical interpretation of the poetry was also influenced by his own life psychology and experiences This book examines selected Mörike songs in detail demonstrating that the poems and music each have their own distinctive stories which at times intersect but also diverge

Cicero in Basel Cédric Scheidegger Laemmle, 2024-11-18 The fifteen contributions to the multilingual volume together chart Cicero's presence in the cultural history of Basel from the city's foundation to the heyday of humanist print culture to the cultural politics of the modern day Written by scholars working from different academic traditions and organised in four sections they trace a broad range of engagements with Cicero in Basel across time thus offering the rudiments of a localised form of reception history Ciceronian Foundations focuses on Cicero's role in the city's and her university's foundation myths Editions

and Commentaries centres on the Ciceronian editions and commentaries in the heyday of humanist printing culture Discussions and Engagements situates his reception in the intellectual currents that define humanist Basel from stylistic and literary debates to the controversies of the theologians lastly Scholarship and Education explores the entanglements of academic and civic life that come to define Cicero's place in Basel from the 17th century For all their diversity the contributions are united in their aim to contribute both to the study of Ciceronian reception and to the cultural history and development of Basel in its European context

Ernst Troeltsch and the Spirit of Modern Culture Christopher Adair-Totter, 2021-04-06 Ernst Troeltsch was a theologian and sociologist but he was also a philosopher of culture He was concerned with the spirit of the modern world throughout most of his academic life and chose to investigate a number of critical issues which he believed were especially problematic for the modern world This book is an exploration of many of the key issues It begins with an explanation of what Troeltsch believed the spirit of the modern world to be and then to explaining the debt that Troeltsch owed to Friedrich Schleiermacher for an understanding of the modern world Chapters are then devoted to Troeltsch's investigations into issues such as the relationship between church and state the role of natural law the problems of historicism and pessimism and it concludes with his observations about politics in war and in revolution This work will be of interest to those concerned with understanding the modern world

Rationalization in Religions Yohanan Friedmann, Christoph Marksches, 2018-12-17 Current tendencies in religious studies and theology show a growing interest for the interchange between religions and the cultures of rationalization surrounding them The studies published in this volume based on the international conferences of both the Berlin Brandenburgische Akademie der Wissenschaften and the Israel Academy of Sciences and Humanities aim to contribute to this field of interest by dealing with concepts and influences of rationalization in Judaism Christianity Islam and religion in general In addition to taking a closer look at the immediate links in the history of tradition between those rationalizing movements and evolutions in religion emphasis is put on intellectual historical convergences Therefore the articles are led by central comparative questions such as what factors foster hinder rationalization where are criteria for rationalization drawn from in which institutions is rationalization taking place who propagates supports and utilizes rationalization

Young Nietzsche Carl Pletsch, 1991 Provocative and persuasive Pletsch has illuminated the process by which a gifted but awkward philology student became one of the modern world's most original thinkers Deserves to be read by anyone interested in the dynamics of creative influence and achievement

[Nietzsche's Notebook of 1887-1888](#) , **The Oxford History of Modern German Theology, Volume 1: 1781-1848** Grant Kaplan, Kevin M. Vander Schel, 2023-05-20 From the closing decades of the eighteenth century German theology has been a major intellectual force within modern western thought closely connected to important developments in idealism romanticism historicism phenomenology and hermeneutics Despite its influential legacy however no recent attempts have sought to offer an overview of its history and development Oxford History of Modern German Theology Vol I 1781 1848

the first of a three volume series provides the most comprehensive multi authored overview of German theology from the period from 1781 1848 Kaplan and Vander Schel cover categories frequently omitted from earlier overviews of the time period such as the place of Judaism in modern German society race and religion and the impact of social history in shaping theological debate Rather than focusing on individual figures alone Oxford History of Modern German Theology Vol I 1781 1848 describes the narrative arc of the period by focusing on broader intellectual and cultural movements ongoing debates and significant events It furthermore provides a historical introduction to each of the chronological subsections that divides the book Moreover unlike previous efforts to introduce this time period and geographical region the volume offers chapters covering such previously neglected topics as religious orders the influence of Romantic art secularism religious freedom and important but overlooked scholarly initiatives such as the Corpus Reformatorum Attention to such matters will make this volume an invaluable repository of scholarship and knowledge and an indispensable reference resource for decades to come

Objectivity and the Silence of Reason George McCarthy, 2019-01-22 Issues important to the philosophy of social science are widely discussed in the American academy today Some social scientists resist the very idea of a debate on general issues They continue to focus on behaviorist and positivist criteria and the concepts methods and theories appropriate to a particular and narrow form of scientific inquiry McCarthy argues that a new and valuable perspective may be gained on these questions through a return to philosophical debates surrounding the origins and development of nineteenth and twentieth century German sociology In Objectivity and the Silence of Reason he focuses on two key figures Max Weber and Jurrgen Habermas reopening the vibrant and rich intellectual dispute about knowledge and truth in epistemology and concept formation logic of analysis and methodology in the social sciences He uses this debate to explore the forms of objectivity in everyday experience and science and the relations between science ethics and politics McCarthy analyzes the tension in Weber s work between his early methodological writings with their emphasis on interpretive science subjective intentionality cultural and historical meaning and the later works that emphasize issues of explanatory science natural causality social prediction and nomological law While arguing for a value free science Weber was highly critical of the disenchanted and meaningless world of technical reason and rejected positivist objectivity McCarthy shows how Habermas attempted to resolve tensions in Weber s work by clarifying the relationship between the methods of subjective interpretation and objective causality Habermas believes that social science cannot be silent in the face of alienation false consciousness and the oppression of technological and administrative rationality and must adopt methodologies connected to the broader ethical and political questions of the day Drawing deeply on the Kantian and neo Kantian tradition that contributed to the development of Weber s method Objectivity and the Silence of Reason demonstrates the crucial integration of philosophy and sociology in German intellectual culture It elucidates the complexities of the development of modern social science The book will be of interest to sociologists philosophers and intellectual historians
