Holism In Development An African Perspective On Empowering Communities:

Holism in Development Deborah Ajulu, 2001 *Holistic Mission* Brian Woolnough, Wonsuk Ma, 2011-01-01 Holistic mission or integral mission implies God is concerned with the whole person the whole community body mind and spirit Many Christians concentrate only on one aspect This book reaffirms that to be true to the Bible to follow the example of Jesus the church must address the whole person in all their needs It considers the meaning of the holistic gospel how it has developed and implications for the individual Christian for the local church for denominations and church groups for missionary societies for Christian NGOs and for theological training institutions It takes a global eclectic approach with 19 writers church leaders academics and practitioners all of whom have much experience in and commitment to holistic mission It addresses critically and honestly one of the most exciting challenging and important issues facing the church today To be part of God's plan for God's people the church must take holistic mission to the world **Biblical Holism and Agriculture (Revised Edition)** David J. Evans, Ronald J. Vos, Keith P. Wright, 2020-04-22 Because the World Matters New generations are championing responsibility for both the environment and those peoples who depend upon it in all new ways Biblical Holism and Agriculture addresses the urgent need for constructing a holistic perspective grounded in the Bible to appraise the economic social ecological environmental and spiritual impact of globalization and the unprecedented impact of powerful agricultural technologies and marketing systems The holistic biblical perspectives within reference ancient Hebrew insights about responsible freedom for keeping the land by people created in the image of God as representatives commissioned to stewardship and justice *Non-Governmental Development Organizations and the Poverty Reduction Agenda* Jonathan J. Makuwira, 2013-12-04 The Non Governmental Development Organisations NGDOs have over the past two decades entered centre stage in their active participation in the social political and economic issues affecting both the developing and developed world This book offers a highly stimulating and concise summary of the NGDO sector by examining their history and metamorphosis their influence on the social political and economic landscapes of the Northern and Southern governments and societies The author analyses competing theoretical and conceptual debates not only regarding their contribution to the global social political dynamism but also on the sector's changing external influence as they try and mitigate poverty in marginalized communities This book presents NGDOs as multidimensional actors propelled by the desire to make a lasting change but constrained by market oriented approaches to development and other factors both internal and external to their environment While a lot of attention has been given to understanding international NGDOs like World Vision International Oxfam Care International and Plan International this book offers a critical analysis of grassroots organizations those NGDOs founded and established by locals and operate at the deepest end of the development contexts This work will be of interest to students and scholars in a range of areas including Development Studies International Organizations and Globalization **The SAGE Handbook of Globalization** Manfred Steger, Paul Battersby, Joseph Siracusa, 2014-05-22

Global studies is a fresh and dynamic discipline area that promises to reinvigorate undergraduate and postgraduate education in the social sciences and humanities. In the Australian context the interdisciplinary pedagogy that defines global studies is gaining wider acceptance as a coherent and necessary approach to the study of global change. Through the Global Studies Consortium GSC this new discipline is forming around an impressive body of international scholars who define their expertise in global terms. The GSC paves the way for the expansion of global studies programs internationally and for the development of teaching and research collaboration on a global scale. Mark Juergensmeyer and Helmut Anheier's forthcoming *Encyclopaedia of Global Studies* with SAGE is evidence of this growing international collaboration while the work of Professor Manfred Steger exemplifies the flourishing academic literature on globalization. RMIT University's Global Cities Institute represents a substantial institutional investment in interdisciplinary research into the social and environmental implications of globalization in which it leads the way internationally. Given these developments the time is right for a book series that draws together diverse scholarship in global studies. This Handbook allows for extended treatment of critical issues that are of major interest to researchers and students in this emerging field. The topics covered speak to an interdisciplinary approach to the study of global issues that reaches well beyond the confines of international relations and political science to encompass sociology, anthropology, history, media and cultural studies, economics and governance, environmental sustainability, international law and criminal justice. Specially commissioned chapters explore diverse subjects from a global vantage point and all deliberately cohere around core global concerns of narrative, praxis, space and place. This integrated approach sets the Handbook apart from its competitors and distinguishes Global Studies as the most equipped academic discipline with which to address the scope and pace of global change in the 21st century. **Followership**

Development and Enactment among the Acholi of Uganda David Wesley Ofumbi, 2019-07-25. The industrial era organizations used dualistic leadership theory which regarded followers as objects of leaders' influence to socialize them into passive followership irrespective of context and outcome. Consequently organizations focused on leadership and condemned active followership as a toxic behavior that sabotages organizational processes and outcomes. However the emergence of relational leadership theory in the information era flattened organizational structure which created a greater need for collaboration within and across sectors. In this new era organizations cannot survive without responsible individuals who could be productive as both leaders and followers. As a result organizations are experiencing high demand for active followership throughout organizational ranks, roles and relationships. Nonetheless since followership studies are still in their infancy there is hardly any information on how followers develop and enact active followership. Whereas some studies established followership identity, role and behaviors and identified factors influencing their development, none has explored how they do so. This study offers a theory of followership development and enactment anchored in a seamless paradigm that can be used to expand leadership theory beyond dualistic tendencies that absolutized the differences among leadership

variables despite their seamlessness Therefore it enhances organizational desire and capacity to develop and engage star followers effectively

Identity and Transformation David Wesley Ofumbi,2012-02 David Ofumbi is convinced biblically that Christian faith covers the entire realm of human existence There is no dichotomy between private life and public life or spiritual life and secular life or an individual and a community In fact the whole of human life is the visible expression of the invisible God Therefore respective indigenous cultures and the gospel must engage and impact each other On the one hand Christians in respective indigenous cultures engage and adapt the gospel to the deep level meaning and the surface level forms of their cultures on the other hand the gospel transforms respective cultures continuously African understanding and practices of Christian faith Africa Christianity in this respect is both the outcome of the reciprocal impact between respective indigenous cultures and the gospel and the basis of authentic Christian response to human needs Christian Community Transformation In the first two chapters he identifies and discusses briefly the challenges and hopes that characterize local communities in East Africa He also defines and discusses the phrases African Christianity and Christian Community Transformation David particularly highlights that the impact of African understandings and practices of Christianity on Christian Community Transformation strive 1 to instill self confidence in native peoples by enabling them to recover and reassert their true human identities to restore their true self dignity and to build just relationships 2 to encourage the development and the use of local resources 3 to bolster robust and enabling faith community structures and proactive responses compatible with the African Christian human ethos and 4 to galvanize global relevance and impact David Ofumbi is the team leader of Leadership Development Initiative Africa Leadia an indigenous leadership development ministry based in Kampala Uganda Leadia envisions a community of competent Christian leaders transforming ordinary people into effective followers of Christ courageously transforming Africa He is currently pursuing post graduate studies focusing on the reciprocal influence between followership and leadership

Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today's global context *The African Perspective of Sexual Orientation and Gender Identity in Higher Education* Mfundo Mandla Masuku, Mbongeni Shadrack Sithole, 2025-05-23 This book uses a deconstruction context to highlight the challenges faced by the LGBTQIA communities in African Higher Education The discursive approach adopted in the book is critical in enabling the editors and their authors space to articulate the subtle problematic and context sensitive issues that drive exclusionary and unequal practices that students face in campus life The book goes on to present an advanced argument for integrating African epistemologies such as Ubuntu with social justice frameworks to foster cultural competence and diversity in higher education Leadership Formation in the African Context Samuel Deressa, 2022-03-25 The teachings of Christian leadership have been dominated by a focus on the influence of a leader on its followers Samuel Deressa's new book Leadership Formation in the African Context highlights how an African concept of community and holistic approach to ministry provides a biblically sound approach to understanding leadership formation and practice in this new age This book links the issue of missional leadership with the life of the congregation It provides theological and practical insights into how we can understand leadership formation in contexts where churches are engaged in the Missio Dei as a community of believers *Education for Holistic Transformation in Africa* Faustin Ntamushobora, 2015-04-07 Research has revealed ineffectiveness among university graduates in Africa Some possible causes include a lack of transformative teaching and learning methods Most of the learning methods used in Africa today were installed by colonial educational systems often reducing the learner to an empty container waiting to be filled with lecture after lecture As a result there is a cry throughout Africa for an education that can empower the learner to think critically to love both God and others and to bring change in

his or her community This is what education for holistic transformation is all about This book came about as a result of a doctoral study conducted in Kenya which featured both Christian higher educational institutions and public universities in a unique comparative analysis that will be helpful to educational leaders on both sides Readers will learn that transformation is a discovery that takes place through change of perspective As this research reveals this new perspective is triggered by a new revelation a new truth a provoking thought a shocking observation or a new testimony Thus the process of holistic transformation takes place through divine revelation self reflection written material and the other
