**Rediscovering the Fifth dimension** Jan Edvin Andersen, 2023-05-31 This brand new universal model and physics was first published in book form September 26th 2015 Remember the important date This book is a brand new textbook in a brand new basic 5 dimensional quantum physics and is written for future physicists and researchers This new model is a full visualization of all these extra undetectable quantum physical dimensions Rediscovering the fifth dimension is a brand new 5 dimensional quantum physics model that builds up the entire universe only on energetic oscillating fields and a very special universal substance This substance is actually the difference between whether something can be seen discovered detected or not This universal substance was fully proven by Carl David Anderson as early as the 1930s This semi physical substance is produced only by the Higgs field That's the only reason they were able to discover this Higgs field as the absolute only possible field they could detect in the particle accelerator They found absolutely no physical particles Remember this This is very important if you want to understand the universe as it really appears This new quantum physical hologram model's atoms are only these 4 dimensional oscillating energetic fields which are actually fully proven by the particle accelerator in 2016 As a result 99% of the universe actually consists of an undetectable quantum physics side and 1% is this strange substance This is where reality comes to the surface and becomes fully visible in the highly active 5 dimensional quantum physical universal engine room The fact that something is visible and detectable is only due to the substance This new model reveals Tesla technology and stealth technology and points out the very reason why the UFOs can disappear from today's high tech radars The reason why the UFO can disappear from radar is that there are no physical particles left in the UFO only the atom This substance can disappear again completely controlled also the stealth effect occurs in the UFO The particle accelerator's final and very clear evidence just says that there can be no physical particles and that it actually proves that there has never been a big bang Still today is this fake big bang universe only researched and taught Why Is it only because scientists don't understand the right universe that the particle accelerator actually proved to them should be there The energetic oscillating field universe

**The Infinite Holographic Quantum Physical Universe!** J.E. Andersen, 2023-06-05 My name is J E Andersen and it is not my name you should hang yourself in but my new 5 dimensional universal holographic quantum physics model This story starts up in 1976 when I had an incredible out of body experience opened my eyes to the paranormal side lying universe and began exploring this experience This led me to the right universal physics model the physics model that I describe in my books It was soon discovered that the 3 dimensional physics model would not be able to hold all the way In 1986 I started a brand new hologram model which later turned out to reveal just the right active universe which is 5 dimensional in the active universal engine room We can only see experience and detect the actual substance coming out of the very innermost field of this field system the Higg s fields The Higg s fields are located inside the atoms but atoms can also be empty i e without the Higg s fields and then we are inside the famous stealth technology the invisibility technology Remember that it is atoms that are the building blocks of the universe It is precisely this stealth technology that comes out of this 5 dimensional very active holographic quantum physics which is the next big breakthrough in all types of research today The fact that the universe is no longer just physical leaves behind a universe that is totally 100% holographic and which is powered 100% by an active 5 dimensional quantum physics There are no physical particles in this universe only this holographic matter that can actually disappear and come back again and now we have revealed stealth technology

Stealth technology is about the relationship between the atoms and the inner Higgs fields. The atoms can actually operate completely empty and now this object can no longer be seen due to the lack of Higgs substance. This is more than interesting, this is also very exciting and completely new to you because this is the truth about the creation of the universe: expansion, the unifying mass inside all gravitational fields which turn into pressure cookers and develop moons into planets, planets into gas planets, gas planets into stars, and the stars burn up the physical liquid plasma transforming this plasma into the totally invisible starlight and thus becomes a black hole. It is the gravitational fields that create shape and develop absolutely everything that is visible in this universe. Read my books about technology and physics. *A Fork in the Road* D. D. Hulse, 2009-08.

In my travels across the country the question asked most frequently is how I went from being a fundamentalist preacher to being a developer of healing techniques using tuning forks. This book is the story of that journey. I feel honored yet humbled to be among those rising to the call to facilitate the new 5th Dimensional energy coming into our third dimensional time space continuum. Come with me as we journey step by step through my search for answers. After looking at what I refer to in this book as my Fork in the Road, a new truth was born, a truth that provides answers for the Spirit, Mind, and Body. I will share information concerning self-healing using sound vibration and frequencies that can clear, cleanse, balance, and focus our lives in all its forms. The ancient Solfeggio frequencies are part of a process that can assist us in creating the possibility of lives without stress, illness, and sickness. Together we will go to the cutting edge of scientific discoveries regarding sound and healing. This book is also a call for Lightworkers to gather in this crucial time of change and transformation on the planet. Join me and others who do not live in fear of the future. Just tune your inner ear and listen to these wonderful new ideas as I share the techniques of working with sound and more specifically the Solfeggio tuning forks. My hope is that we can all find the harmonics of our own individual music and that through this process we will be enabled to live balanced lives. Physical Acoustics V10

Warren P. Mason, 2012-12-02. Physical Acoustics: Principles and Methods Volume X is a five-chapter text that covers the principles and methods of generation of physical acoustics. The first chapter provides the essential results obtained concerning acoustic surface waves on curved surfaces and relates them to the corresponding plane surface waves. This chapter also presents a classification of surface and lateral waves on flat surfaces along with their properties. The second chapter describes a group of acoustic wave problems that are particularly suitable for study by means of Schlieren visualization. The third chapter deals with the production of ultrasonic waves by direct electromagnetic generation while type II superconductors which are useful for superconducting magnets with strong magnetic fields and with high current densities.

are investigated in the fourth chapter The fifth chapter discusses the principles of hologram and its application to very short length electromagnetic waves known as microwaves and to acoustic waves of various wavelengths
