learning a core ingredient of tomorrow s educational paradigms Now that digital natives are coming of age the blending of on

quality is *Elements of Quality Online Education Into the Mainstream* The 14 peer reviewed studies in this volume provide
guidance for effectively responding to the challenges facing higher education The studies on Student Satisfaction recognize
that significant populations remain underserved Yet asynchronous learning networks ALNs are widening access by easing
some of the constraints of place based synchronous learning so that many more and many more new kinds of learners can
achieve satisfaction and success The studies on Learning Effectiveness share an emphasis on the ways that ALN exceeds the
no significant difference minimum standard for learning outcomes The studies on blending combining face to face and online
methods for learning offer rich possibilities for what many see as the best of both learning modes The studies on assessment
go to the core of the Sloan C quality framework and its emphasis on continuous quality improvement through demonstrating
progress towards the overarching goal of affordable access for all in a wide range of disciplines In our time of profound rapid
and discontinuous change these studies envision solutions to the challenges of online blended and face to face education in
higher education Sponsored by the Alfred P Sloan Foundation the purpose of the Sloan Consortium Sloan C is to help
learning organizations continually improve quality scale and breadth according to their own distinctive missions so that
education will become a part of everyday life accessible and affordable for anyone anywhere at any time in a wide variety of
