American Autopia Gabrielle Esperdy, 2019-10-28 Early to mid twentieth century America was the heyday of a car culture that has been called an automobile utopia In *American Autopia* Gabrielle Esperdy examines how the automobile influenced architectural and urban discourse in the United States from the earliest days of the auto industry to the aftermath of the 1970s oil crisis Paying particular attention to developments after World War II Esperdy creates a narrative that extends from U S Routes 1 and 66 to the Las Vegas Strip to California freeways with stops at gas stations diners main drags shopping centers and parking lots along the way While it addresses the development of auto oriented landscapes and infrastructures *American Autopia* is not a conventional history offering instead an exploration of the wide ranging evolution of car centric territories and drive in typologies looking at how they were scrutinized by diverse cultural observers in the middle of the twentieth century Drawing on work published in the popular and professional press and generously illustrated with evocative images the book shows how figures as diverse as designer Victor Gruen geographer Jean Gottmann theorist Denise Scott Brown critic J B Jackson and historian Reyner Banham constructed autopia as a place and an idea The result is an intellectual history and interpretive roadmap to the United States of the Automobile

Architecture and the Public Good Tom Spector, 2021-06 Why has explaining the value of the architecture profession proven so difficult The architecture profession can be well defended by demonstrating the public good which results from its protected practice Although the book believes in this approach this approach immediately raises the thorny questions of just who is the public and what is its good To answer these questions to explain why the profession has done a poor job explaining itself and to propose a fresh perspective are the challenges set out in this book The book dissects the internal weaknesses and external forces which have prevented architects from asserting their value to the public explains how the concept of the public is itself widely misunderstood investigates the shifting boundaries of the public and private realms and proposes a series of measures by which we can assess and improve an architectural work's publicness Through a renewed focus on the public good that everyday architects are capable of as a profession the book charts an ultimately optimistic program for the architecture profession's renewal

American Architect, 1886 **Architecture DC**, 2006

The American Architect and Building News, 1886 **Louis I. Kahn's Jewish Architecture** Susan G. Solomon, 2015-05-01 In 1961 famed architect Louis I Kahn 1901-1974 received a commission to design a new synagogue His client was one of the oldest Sephardic Orthodox congregations in the United States Philadelphia's Mikveh Israel Due to the loss of financial backing Kahn's plans were never realized Nevertheless the haunting and imaginative schemes for Mikveh

Israel remain among Kahn's most revered designs Susan G Solomon uses Kahn's designs for Mikveh Israel as a lens through which to examine the transformation of the American synagogue from 1955 to 1970 She shows how Kahn wrestled with issues that challenged postwar Jewish institutions and evaluates his creative attempts to bridge modernism and Judaism She argues that Kahn provided a fresh paradigm for synagogues one that offered innovations in planning decoration and the incorporation of light and nature into building design The British Architect, 1913 **Her Name Is Rose** Christine Breen, 2015-04-14 Iris Bowen is a young Irish gardener and mother of a beloved adopted daughter Rose A recent widow Iris has spent the last two years concentrating on the day to day business of launching Rose into the world But when she receives some worrisome results on a breast scan the words of her husband as he was dying of cancer become hauntingly urgent He had begged Iris to search for Rose's birth mother so that Rose would still have family if anything happened to Iris Suddenly Iris fears that Rose really could be left alone **Rambles in Old College Towns** Hildegard Hawthorne, 1917 **The Battle for Home: The Vision of a Young Architect in Syria** Marwa al-Sabouni, 2016-05-17 An architect's gripping account of living and working in war torn Syria and the role architecture plays in whether a community crumbles or comes together Drawing on the author's personal experience of living and working as an architect in Syria this timely and fascinating account offers an eyewitness perspective on the country's bitter conflict through the lens of architecture showing how the built environment and its destruction hold up a mirror to the communities that inhabit it From Syria's tolerant past with churches and mosques built alongside one another in Old Homs and members of different religions living harmoniously together the book chronicles the recent breakdown of social cohesion in Syria's cities With the lack of shared public spaces intensifying divisions within the community and corrupt officials interfering in town planning for their own gain these actions are symptomatic of wider abuses of power With firsthand accounts of mortar attacks and stories of refugees struggling to find a home The Battle for Home is a compelling explanation of the personal impact of the conflict and offers hope for how architecture can play a role in rebuilding a sense of identity within a damaged society **Faces of Geometry** Paola Magnaghi-Delfino, Giampiero Mele, Tullia Norando, 2021-04-03 The volume reports on interdisciplinary discussions and interactions between theoretical research and practical studies on geometric structures and their applications in architecture the arts design education engineering and mathematics These related fields of research can enrich each other and renew their mutual interest in these topics through networks of shared inspiration and can ultimately enhance the quality of geometry and graphics education Particular attention is dedicated to the contributions that women have made to the scientific community and especially mathematics The book introduces engineers architects and designers interested in computer applications graphics and geometry to the latest advances in the field with a particular focus on science the arts and mathematics education
