Schwaller, 2021-09-02 From the 1520s through the 1580s thousands of African slaves fled captivity in Spanish Panama and formed their own communities in the interior of the isthmus African Maroons in Sixteenth Century Panama a primary source reader edited by Robert C Schwaller documents this marronage in the context of five decades of African resistance to slavery The self sufficiency of the Maroons along with their periodic raids against Spanish settlements sparked armed conflict as Spaniards sought to conquer the maroon communities and kill or re-enslave their populations After decades of struggle Maroons succeeded in negotiating a peace with Spanish authorities and establishing the first two free Black towns in the

Americas The little known details of this dramatic history emerge in these pages traced through official Spanish accounts reports and royal edicts as well as excerpts from several English sources that recorded alliances between Maroons and English privateers in the region The contrasting Spanish and English accounts reveal Maroons attempts to turn European antagonism to their advantage and significantly several accounts feature direct testimony from Maroons Most importantly this reader includes translations of the first peace agreements made between a European empire and African Maroons and the founding documents of the free Black communities of Santiago del Principe and Santa Cruz la Real the culmination of the first successful African resistance movement in the Americas Schwaller has translated all the documents into English and presents each with a short introduction thorough annotations and full historical cultural and geographical context making this volume accessible to undergraduate students while remaining a unique document collection for scholars

Augustine and Social Justice Teresa Delgado, John Doody, Kim Paffenroth, 2015-01-14 This volume brings into dialogue the ancient wisdom of Augustine of Hippo a bishop of the early Christian Church of the fourth and fifth centuries with contemporary theologians and ethicists on the topic of social justice Each essay mines the major themes present in Augustine's extensive corpus of writings from his *Confessions* to the *City of God* with an eye to the following question how can this early church father so foundational to Christian doctrine and teaching inform our twenty first century context on how to create and sustain a more just and equitable society In his own day Augustine spoke to conditions of slavery conflict and war violence and poverty among many others These conditions while reflecting the characteristics of our technological age continue to obstruct our collective efforts to bring about the common good for the global human community The contributors of this volume have taken great care to read Augustine through the lens of his own time and place at the same time they provide keen insights and reflections which advance the conversation of social justice in the present
