

THE GREAT TURNING

"Future generations, if there is a livable world for them, will look back at the epochal transition we are making to a life-sustaining society. And they may well call this the time of the Great Turning. It is happening now." - Joanna Macy

Great Turning:

The Great Turning David C. Korten, 2007-10-22 David Korten's classic bestseller *When Corporations Rule the World* was one of the first books to articulate the destructive and oppressive nature of the global corporate economy. In *The Great Turning* he argues that corporate consolidation of power is merely one manifestation of what he calls Empire: the organization of society through hierarchy and violence that has largely held sway for the past 5 000 years. *The Great Turning* traces the evolution of Empire from ancient times to the present day but also tells the parallel story of the attempt to develop a democratic alternative to Empire beginning in Athens and continuing with the founding of the United States of America although elitists with an imperial agenda have consistently sought to undermine the bold and inspiring American experiment. Finally Korten draws on evidence from sources as varied as evolutionary theory, developmental psychology and religious teachings to make the case that Earth Community, a life centered egalitarian sustainable alternative to Empire based on democratic principles of partnership, is indeed possible. And he outlines a grassroots strategy for beginning the momentous turning toward a future of as yet unrealized human potential.

The Great Turning , Stories of the Great Turning
Peter Reason, Melanie Newman, 2016-11-21 This book tells stories of how ordinary people in their everyday lives have responded to the challenges of living more sustainably. In these difficult times we need stories that engage, enchant and inspire. Most of all we need stories of practical changes of community action, of changing hearts and minds. This is a book that takes the question 'What can I do?' and sets out to find some answers using one of our species' most vital skills: the ability to tell stories in which to spread knowledge, ideas, inspiration and hope. Read about the transformation of wasteland and the installation of water power, stories about reducing consumption and creating sustainable business stories from people changing how they live their lives and the inner transformations this demands.

Turning Point Dr. Terry Mortenson, 2004-08-01 Many people in the Church today have the idea that young earth creationism is a fairly recent invention popularized by fundamentalist Christians in the mid 20th century. Is this view correct? In fact, scholar Terry Mortenson has done fascinating original research on this subject in England and documents that several leading pre-Darwin scholars and scientists known as scriptural geologists did not believe in long ages for the earth. Mortenson sheds light on the following: Before Darwin, what did the Church believe about the age of the earth? Why did it believe this way? What was the controversy that rocked the Church in 19th century England? Who were the scriptural geologists? What influences did the Church contend with even before Darwin's book? What is the stance of the Church today? This book is a thoroughly researched work of reference for every library, certainly every creationist library. Terry Mortenson spent much time and work on this project in both the United States and Great Britain. The history of the Church and evolution is fascinating and it is interesting to see not only the tremendous influence that evolution has had on the Church but on

society as well The Great Turning (Volume 1 of 2) (EasyRead Super Large 20pt Edition) , The Great Turning (Volume 2 of 2) (EasyRead Super Large 18pt Edition) , *The Great Turning Points of British History* Michael Wood,2013-02-07

Twenty of the most crucial moments in Britain's history BBC History Magazine asked a selection of leading historians to choose and describe the twenty most important turning points in British history from AD 1000 to 2000. Collected together, their choices present a new way of looking at our nation's story. From the Danish invasion of Britain in 1016 to the Suez crisis in 1956, the key moments include victories or defeats both at home and abroad, plague, reform and even revolutions that have reshaped the British way of life. Each contribution brings the past to life, offering new perspectives and food for debate: did the Battle of Agincourt change England's role in Europe? What was the impact of American independence on Britain? Was 1916 more important than 1939? Thought provoking and inspiring accounts.

A Wild Love for the World Stephanie Kaza,2020-04-14 Joanna Macy is a scholar of Buddhism, systems thinking and deep ecology whose decades of writing, teaching and activism have inspired people around the world. In this collection of writings, leading spiritual teachers, deep ecologists and diverse writers and activists explore the major facets of Macy's lifework. Combined with eleven pieces from Macy herself, the result is a rich chorus of wisdom and compassion to support the work of our time. Being fully present to fear to gratitude to all that is, this is the practice of mutual belonging. As living members of the living body of Earth, we are grounded in that kind of belonging. Even when faced with cataclysmic changes, nothing can ever separate us from Earth. We are already home. Joanna Macy

Storytelling Futures Egbert van Wyngaarden,2023-10-25 It's Code Red for humanity. How do the media respond to that? This book is for anyone who's interested in using storytelling and media with the aim to shape desirable futures for humanity and all other forms of life on Earth. We're facing a host of serious, global, complex, entangled problems: Nuclear weapons, runaway technology, indestructible waste, resource depletion, overpopulation, pandemics, radicalization, species extinction, ecosystem loss, climate change. It's breathtaking, life-threatening and truly existential. How can anyone look such challenges in the eye without feeling desperate? If humans are the cause of these problems, being as inventive and ambitious as we are, we can also solve them. It's being tried with some positive effects. But that is not enough. The obstacle seems to be less of a practical nature than a matter of awareness. It's our collective incapacity to feel and act according to what is genuinely beneficial for us and the world we're part of. Humanity lacks a vision of what a livable future, pluralistic, livable futures could look like. There are hardly any convincing aspirational myths for people to root for. More often than not, stories about tomorrow are dystopias. In the hour of danger, our imagination fails us. This is not accidental. It's critical. There is no longer any doubt that we'll only be able to survive on this planet if we radically change our way of life, our economies, our societies. To achieve this, stories and media need to lead the way. We must get better at working with probable, possible and desirable futures. This would be a useful skill for anyone. It's a duty for all those who shape and create realities in the media. As journalists, writers, filmmakers, game designers or XR creators, we can present what we care about to many.

Prophetic Wisdom Charles R. Strain, 2024-06-01 Classical Buddhism lacked an understanding of systemic injustice and its contribution to collective suffering. Despite the teaching of impermanence, classical Buddhist schools viewed social institutions as given and offered no path to social transformation. Today, Buddhists are shaped by multiple religious and secular traditions, including those stemming from the Hebrew prophets. The prophetic tradition offers a socially and religiously powerful concept: the concept of justice that reconfigures the Buddhist dharma. In a time of unparalleled peril, Buddhists are challenged as never before to turn wisdom into strategic action to foster systemic social change. Compassion is not enough. Prophetic Wisdom shows how Engaged Buddhists can expand their understanding of the causes of collective suffering and develop nonviolent means for social transformation through a dialectic of love, power, and justice. It concludes by confronting the poison of racism in the American body politic.
