Great Disasters

Anthony Elliott, Eric Hsu

Great Disasters:

The Era of Great Disasters Makoto Iokibe, 2020-09-25 The Era of Great Disasters examines modern disaster response in Japan from the changing earthquake preparations and regulations to immediate emergency procedures from the national prefectural and city levels and finally the evolving efforts of rebuilding and preparing for the next great disaster in the hopes of minimizing their tragic effects This book focuses on three major earthquakes from Japan's modern history The first is the 1923 Great Kant Earthquake which struck the capital region The second is the 1995 Great Hanshin Awaji Earthquake affecting the area between Kobe and Osaka The third is the 2011 Great East Japan Earthquake the magnitude 9.0 quake that struck off the Pacific coast of the Tohoku region causing a devastating tsunami and the nuclear accident While the events of and around each of these earthquakes are unique Professor Iokibe brings his deep expertise and personal experience to each disaster unveiling not only the disasters themselves but the humanity underneath In each case he gives attention and gratitude to those who labored to save lives and restore the communities affected from the individuals on the scene to government officials and military personnel and emergency responders in hope that we might learn from the past and move forward with greater wisdom knowledge and common purpose

Training Manual for Human Service Workers in Major Disasters Norman L. Faberow, 1999-06 This Manual represents a first effort to produce a training instrument to be used in the development of an effective response to the emotional problems which may occur when a major disaster disrupts the functioning of individuals families and communities It discusses the principles and techniques of crisis intervention which aim to relieve current emotional stress and to forestall or diminish future emotional difficulties This Manual includes techniques which have been developed from thousands of emergency calls to a Suicide Prevention Center and have been adapted to the kinds of problems which are caused by major disasters The

Great Chicago Theater Disaster Marshall Everett, 1904 **The Consequences of Global Disasters** Anthony Elliott, Eric Hsu, 2016-04-14 Disasters of the 21st century differ substantially from other kinds of hazards that previous societies have had to cope with because of the twin forces of globalization and the communications revolution But what makes today's disasters industrial technological environmental and socio cultural so different in scope and impact What are the possible disasters of the future And how can we as collective humanity best manage and respond to the globalization of disasters The Consequences of Global Disasters makes a distinctive contribution to the ever expanding field of disaster research by developing a multi contextual multi disciplinary and multi methodological approach to the social analysis of disasters Anthony Elliott and Eric L. Hsu have brought together a highly distinguished group of international contributors to focus on how people react to the unsettling effects of disasters which come in a multitude of forms Numerous contributors

concentrate on the cultural political and psychological ramifications of the 2011 Great East Japan earthquake and tsunami but disasters in other contexts such as Australia China and Haiti are considered as well By offering unique empirical methodological and theoretical insights *The Consequences of Global Disasters* sets an agenda for future developments in the field of disaster research and will be a key resource for students and scholars working in social science disciplines such as sociology cultural studies international relations psycho social studies social work Japanese studies and social theory
