Great Sky River:

Great Sky River Gregory Benford, 2024-09-24 The third novel in the Nebula Award winning author's classic series A challenging pacesetter work of hard science fiction that should not be missed Los Angeles Times Nearly 100 000 years after first contact with the machines that dominate the universe a few hundred humans survive Trapped on Snowglade a barren world near the center of the galaxy people like Killeen of Family Bishop and his child Toby are primitive scavengers homeless and hunted by the ruling mechs Then suddenly a strange cosmic entity neither organic nor cybernetic nor living matter reaches out from a black hole to speak with Killeen But can this fallen descendant of starfarers understand this alien being in time and seize the only chance to save his family and mankind from final annihilation **Great Sky River** Gregory

Benford, 2014-07-02 The third novel in the award winning author's classic Galactic Center series is available once again A challenging pacesetter work of hard science fiction that should not be missed Los Angeles Times Great Sky River

Gregory Benford, 2024-09-24 The third novel in the Nebula Award winning author's classic series A challenging pacesetter work of hard science fiction that should not be missed Los Angeles Times Nearly 100 000 years after first contact with the machines that dominate the universe a few hundred humans survive Trapped on Snowglade a barren world near the center of the galaxy people like Killeen of Family Bishop and his child Toby are primitive scavengers homeless and hunted by the ruling mechs Then suddenly a strange cosmic entity neither organic nor cybernetic nor living matter reaches out from a black hole to speak with Killeen But can this fallen descendant of starfarers understand this alien being in time and seize the only chance to save his family and mankind from final annihilation **Science Fiction in the Real World** Norman

Spinrad, 1990 Updates Lentz's previous work which Library journal said was producers screenwriters cinematographers special effects technicians make up artists art directors III film index IV TV series index V alternate title index Science fiction writer Spinrad presents 13 essays some previously published examining particular works in the genre aspects of the industry and how they influence each other Topics include critical standards the visual expression in comic books and movies modes of content politics and profiles of individual authors No bibliography Paper edition unseen 14 95 Annotation copyrighted by Book News Inc Portland OR *Echoes of the Great Song* David Gemmell, 2011-06-08 A HUMDINGER A MASTERLY TALE

TOLD WITH CLARITY AND VERVE The Times London The Avatars are immortal and live like kings even though the empire is dying Their immortality is guaranteed by magic crystals whose influence is now waning overwhelmed by the sheer power of a great flood and a sudden ice age But when two moons appear in the sky and the ruthless armies of the Crystal Queen swarm across the land bringing devastation and terror the Avatars unite with their subjects to protect their universe As the cities face imminent destruction three heroes emerge Talaban a warrior haunted by tragedy Touchstone the mystic tribesman seeking his lost love and Anu the Holy One the Builder of Time And when all seems lost two others enter the fray Sofarita the peasant girl who will inspire a legend and the madman Viruk who will become a god **Calculating the Cosmos** Ian

Stewart,2016-10-25 A prize winning popular science writer uses mathematical modeling to explain the cosmos In *Calculating the Cosmos* Ian Stewart presents an exhilarating guide to the cosmos from our solar system to the entire universe He describes the architecture of space and time dark matter and dark energy how galaxies form why stars implode how everything began and how it s all going to end He considers parallel universes the fine tuning of the cosmos for life what forms extraterrestrial life might take and the likelihood of life on Earth being snuffed out by an asteroid Beginning with the Babylonian integration of mathematics into the study of astronomy and cosmology Stewart traces the evolution of our understanding of the cosmos How Kepler s laws of planetary motion led Newton to formulate his theory of gravity How two centuries later tiny irregularities in the motion of Mars inspired Einstein to devise his general theory of relativity How eighty years ago the discovery that the universe is expanding led to the development of the Big Bang theory of its origins How single point origin and expansion led cosmologists to theorize new components of the universe such as inflation dark matter and dark energy But does inflation explain the structure of today s universe Does dark matter actually exist Could a scientific revolution that will challenge the long held scientific orthodoxy and once again transform our understanding of the universe be on the way In an exciting and engaging style *Calculating the Cosmos* is a mathematical quest through the intricate realms of astronomy and cosmology

Spirit Moon William Sarabande,2000-08-01 The First Americans Saga continues As the retreating ice age scars the land old rivalries between the survivors threaten the first Americans As the Age of Ice ends the People must follow a new path for survival Led by their powerful headman T r n rssuk they begin a treacherous journey to the Great River of the White Whales where they hope to hunt trade and reunite with friendly tribes But a young shaman has foreseen a sign of doom T r n rssuk is filled with grave doubts A fierce wildfire a blood red moon and rumors of a great white mammoth could foretell the death of the People T r n rssuk also faces treachery from both within and without his clan There are those who believe he has lost his ability as headman Even as he leads his people through danger an enemy is waiting for him with a plan that could break not only T r n rssuk but the uneasy truce that exists between the northern Inuits and the forest dwellers Soon clan could turn against clan and brother against brother in the bitterest struggle for survival Bestselling author William Sarabande has once again captured the fierce and savage splendor of a prehistoric continent and at the same time painted a vivid and unforgettable portrait of our first American ancestors in a bold and magnificent novel filled with adventure treachery discovery and courage

The Golden Disc Robyn Adams,2013 Holding up the device Jondra said This is the Golden Disc of Ra the Healing Bomb from our home planet Because of the sudden and unexpected nature of its destruction this force was never activated It was originally prepared to transmute negative emotional thoughts into much more compassionate and loving actions in an explosion of consciousness not protect us from wayward meteors One day it may save the dwellers on this planet Earth from destroying themselves Pity we never had a chance to test it The Earth is in crisis as the Forces of Darkness and Destruction are rapidly gaining power in many countries Four people remember their

ancient pledge to re discover one section of the powerful device if a dire enough situation warrants it When a rogue country detonates a nuclear bomb over Jerusalem these four are called to save humanity from a destructive aftermath of retribution From each continent comes one whose ancient destiny is to reassemble the Golden Disc programmed millennia ago to empower the Forces of Light to triumph One by one the four are awakened to their destiny reconnected with each other and travel to Kenya to reassemble the Golden Disc that will save the Earth They must release a wave of higher consciousness from the device called a Healing Bomb before several other countries ally to become involved in all out nuclear war which will have a cataclysmic effect on Earth and humanity far greater than the predicted earth changes that were due to take place at the end of 2012 Will they make it before the deadline and can they remember how to re assemble the device in time If it is not done absolutely correctly a terrible confl agration could destroy the very thing they are trying to save Earth To do so they will have to outwit those whose role it is to prevent this from happening by Robyn Adams **Gregory Benford**

George Slusser,2014-02-28 Gregory Benford is perhaps best known as the author of Benford s law of controversy Passion is inversely proportional to the amount of real information available That maxim is a quotation from Timescape Benford s Nebula and Campbell Award winning 1980 novel which established his work as an exemplar of hard science fiction dedicated to working out the consequences of modern science rather than substituting pseudoscience for fantasy Like many other current science fiction writers Benford has tackled the major genres space travel time travel technology running amok prolonged longevity searing apocalyptic cosmic events and alien life which he theorizes to be more likely viral than intelligent An astrophysicist by training and profession Benford has published more than twenty novels over one hundred short stories some fifty essays and myriad articles that display both his scientific rigor as well as a recognition of literary traditions In this study George Slusser explores the extraordinary seemingly inexhaustible display of creative energy in Gregory Benford s life and work Presenting Benford s ideas on science and the writing of science fiction the volume addresses the writer s literary production and his place in contemporary science fiction By identifying direct sources and making parallels with other works and writers Slusser reveals the vast scope of Benford s knowledge both of literature and of the major scientific and philosophical issues of our time Slusser also discusses Benford s numerous scientific articles and nonfiction books and includes a new interview with Benford **Face of the Rising Sun** William Sarabande,1996-09-06 A warmer sun fills the sky

as the great Ice Age is ending and a new and savage epoch descends upon the land Warakan son of war chiefs and spirit masters wanders alone in the primeval forest searching for the mysterious great white mammoth and the totemic power it can give him He escaped into the wilderness as a boy and has now become a man torn between his yearning for peace and companionship and his desire for blood and vengeance Under the shadowing wings of a golden eagle he is about to fulfill his destiny The Gothic Imagination John C. Tibbetts,2011-10-10 This book brings together the author s interviews with many prominent figures in fantasy horror and science fiction to examine the traditions and extensions of the gothic mode of

storytelling over the last 200 years and its contemporary influence on film and media **Across the Sea of Suns** Gregory Benford, 2007-07-31 From the Nebula Award winning author comes a newly revised edition of this story in his classic Galactic Center series 2076 Technology has propelled the world into a new age of enlightenment Nigel from In the Ocean of Night has left Earth to explore space for alien life But while on this captivating mission humanity's birthplace has fallen prey to attack and its seas are seeded with alien lifeforms Now Nigel is left to search for the only savior he knows the one who saved him once before the alien machine called the Snark Having left the solar system and turned traitor to its alien masters Nigel is unsure of the Snark's new allegiance Is the Snark a friend Or will it also turn on Nigel proving to be a deadly foe **The**

Mythology of Venus Helen Benigni, 2013-06-03 The Mythology of Venus is a collection of essays that summarizes the archaeoastronomy calendar associations religious and cultural icons and myths identified with the planet Venus The book concentrates on Western Europe the Mediterranean the Near East and the East from the Paleolithic Age to the Iron Age It reveals the archetype of a goddess associated with the planet Venus who is identified with transformation spiritual resurrection and enlightenment The characteristics of the goddess are steeped in sexual metaphors which contain images of birth and re birth and they reveal a pattern of symbols that follows the journey of the planet Venus through its cycles in the night sky Moreover the journey of Venus and the corresponding icons associated with the goddess are part of an intricate pattern of symbolic language that is seen on ancient monuments and on the ancient calendars of several cultures Temples from France and Ireland to Greece and Malta trace the journey of the planet Venus and the story of the goddess of Venus

Fiction 2000 George Edgar Slusser, T. A. Shippey, 1992 Will novels and stories be relevant in the next millennium when the boundaries between illusion and reality and observer and observed may dissipate in a whirl of images signals and data This essay collection divines the prospects of fiction in the information age by examining cyberpunk literature A movement less than a decade old cyberpunk is driven by deep concerns about society ethics and new technology and has been defined as the literature of the first generation of science fiction writers actually to live in a science fiction world These essays were first presented at the 1989 annual J Lloyd Eaton Conference on Science Fiction and Fantasy Literature the field's most prestigious international gathering They address concerns common not only to cyberpunk and traditional science fiction scholars critics and writers but to their counterparts outside the genre as well Interdisciplinary in perspective the essays consider the origins of cyberpunk the appropriation of its conventions by the mass media the literature's paradoxical retrogressive iconoclastic nature cyberpunk's affinities to and deviations from both traditional science fiction and postmodernist literature the parameters and components of the cyberpunk canon and the movement's future course Some essays are theoretical but all are grounded in works familiar to serious science fiction readers Neuromancer Frontera Deserted Cities of the Heart Islands in the Net Great Sky River the Mirrorshades anthology and others cyberpunk TV and cinema like the Max Headroom programs Blade Runner and Tron and precursory literature including Frankenstein Le Roman

de l'avenir Ralph I24C 41 and A Clockwork Orange Useful for its views on a volatile science fiction subgenre Fiction 2000 is also valuable for what it tells us about the fate of mainstream literature **Look at the Evidence** John Clute, 2016-11-24 For more than 50 years John Clute has been reviewing science fiction and fantasy Look at the Evidence is a collection of reviews from a wide variety of sources including Interzone the New York Review of Science Fiction and Science Fiction Weekly about the most significant literatures of the twenty first century science fiction fantasy and horror the literatures Clute argues should be recognized as the central modes of fantastika in our times It covers the period between 1987 and 1992 **To Be Continued** Hope Apple, Merle L. Jacob, 2000-10-10 Keeping track of prolific authors who write fiction series was quite challenging for even the most ardent fan until To Be Continued debuted in 1995 Now readers will be happy that the soon to be released second edition has added 1 600 new books and 400 new series To Be Continued Second Edition maintains the first volume's successful formula that featured concise A to Z entries packed with useful information including titles publishers publication dates genre categories annotations and subject terms Among the genre categories that can be found in To Be Continued are romance science fiction crime novel horror adventure fantasy humor western war Christian fiction and others X, Y, Z, T Damien Broderick, 2004-01-01 Damien Broderick has had a major impact as an Australian SF writer since 1964 He is undoubtedly the leading Australian theorist of the SF genre Russell Blackford Van Ikin Sean McMullen Strange Constellations Now Broderick draws upon his skills as both critic and novelist to analyze science fiction of the last two decades and its earlier roots The book proposes sf as a distinctive form of writing the extreme narrative of difference then closely reads authors such as John Barnes Jamil Nasir Wil McCarthy Robert Grossbach and Poul Anderson While concentrating on exciting work published in the USA and Britain Broderick does not neglect his own country's contributions discussing sf by George Turner and other Australians His critical voice is wry entertaining and occasionally scathing Science Fiction, Imperialism and the Third World Ericka Hoagland, Reema Sarwal, 2014-01-10 Though science fiction is often thought of as a Western phenomenon the genre has long had a foothold in countries as diverse as India and Mexico These fourteen critical essays examine both the role of science fiction in the third world and the role of the third world in science fiction Topics covered include science fiction in Bengal the genre's portrayal of Native Americans Mexican cyberpunk fiction and the undercurrents of colonialism and Empire in traditional science fiction The intersections of science fiction theory and postcolonial theory are explored as well as science fiction's contesting of imperialism and how the third world uses the genre to recreate itself Instructors considering this book for use in a course may request an examination copy here *Science Fact and Science Fiction* Brian Stableford, 2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage

will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed [The Bear Nobody Could See](#) May Koliander,2024-02-02

TALES FOR WISE CHILDREN Horace the Crow Who Flew East Horace an adventurous crow stumbles upon a piece of exquisite matcha cake that leaves him craving for more Determined to discover the origins of this delectable treat Horace embarks on an epic journey across Europe tasting its myriad delights along the way Amidst his adventures he befriends Lime a vibrant parrot shunned by a murder of crows due to his unique plumage Together with the guidance of Tsuru a melancholic crane they venture towards the heart of matcha s homeland Japan The Mysterious Bear of Whispering Meadows In the tranquil pastures whispers of an elusive bear stir curiosity among the sheep With tales of its ever changing appearance the bear becomes an enigma Some claim it s brown others are convinced it s a white bear with piercing blue eyes Young Daisy with her vivid imagination believes the bear is a prince trapped by a wicked witch s curse Is this bear real or just a figment of tales Only the meadows hold the answer as the mystery remains unsolved for the flock
