development of humanity showed a consistent homogenous pattern Then suddenly around 3000 B C E great civilizations sprang up around the globe All the creation myths of these civilizations tell of gods who came down to Earth and fashioned man in their own image teaching them the arts of agriculture and civilized life In addition the dominant architectural design in Egypt Sumeria Peru Mexico and China was the pyramid though science has never been able to explain why or where these peoples obtained the advanced technological knowledge to construct such edifices The abruptness and similarities of these evolutionary leaps calls into question the Darwinian theory of evolution given that there are no traces of any intermediate evolutionary forms Now using the most current research on DNA Will Hart shows that these gods were actually visitors from other worlds who genetically engineered modern humanity from the beings that then inhabited the planet He also suggests that the Bible and other creation stories have been interpreted falsely as myth when they should have been read as history The structures left by our ancestors were designed in accordance with precise astronomical and geodetic alignments to make them visible from outer space and to survive for thousands of years with the intent of communicating information relating to physical and temporal events Humanity s current stage of development has finally reached the point where the secret messages of these structures can be decoded to reveal the fate of humanity in the coming Earth changes After the New Age Steven H. development of UFO subculture McKee explores the life and career of a larger than life hoaxer and originator of pseudoscientific ideas Ever an entertainer Barker established his reputation with one of the first flying saucer fanzines The Saucerian and with his first book the conspiratorial and sensationalistic They Knew Too Much about Flying Saucers By the close of the 1950s he had established a publishing imprint that brought out some of the strangest UFO related books of the era with a particular emphasis on flying saucer contactees Saucerian Books became a platform for those whose stories were too unusual implausible or crudely written for more mainstream publishers Though Barker himself was a skeptic he viewed the world of occult believers as a source of ongoing entertainment He also may have used the perceived eccentricity of flying saucer research or ufology to obscure his homosexuality from his small town neighbors From his place on the fringes of midcentury American culture Barker left an unmatched legacy in conspiratorial concepts that have become prominent pop cultural folklore including the Men in Black the Mothman and the Philadelphia Experiment As a mastermind behind the fantastical Barker's promotional efforts were the precursor to contemporary conspiracism
