France Since 1918:

France Since 1918 Herbert Tint, 1980 *France Since 1945* Robert Gildea, 2002-03-14 The last fifty years of French history have seen immense challenges for the French constructing a new European order building a modern economy searching for a stable political system It has also been a time of anxiety and doubt The French have had to come to terms with the legacy of the German Occupation the loss of Empire the political and social implications of the influx of foreign immigrants the rise of Islam the destruction of rural life and the threat of Anglo American culture to French language and civilization Robert Gildea s account examines the French political system and France s role in the world from 1945 to 2000 He looks at France s attempt to recover national greatness after the Second World War its attempt to deal with the fear of German resurgence by building the European Community and its struggle to preserve its Empire He also discusses the Algerian War and its legacy and the later development of a neo colonialism to preserve its influence in Africa and the Pacific Gildea also examines the rise and fall of the two Republics the rise of and fall of De Gaulle and the revolution of 1968 along with topics such as the construction of the myth of the Resistance the painful truths of French involvement in anti Semitic persecution and France s continuing obsession with national identity France since 1870 Charles Sowerwine, 2018-01-25 This thoroughly revised updated and expanded new edition of an established text surveys the cultural social and political history of France from the Franco Prussian War of 1870 and the Paris Commune through to Emmanuel Macron s presidency Incorporating the newest interpretations of past events Sowerwine seamlessly integrates culture gender and race into political and social history This edition features extended coverage of the 2007 8 financial crisis the rise of the political and cultural far right and the issues of colonialism and its contemporary repercussions This is an essential resource for undergraduate and taught postgraduate students of history French studies or European studies taking courses on modern French history or European history This text will also appeal to scholars and readers with an interest in modern French history Richly informative and lucidly presented Sowerwine s *France since 1870* offers essential reading for students and researchers Particularly powerful is the new final chapter which draws on historical expertise to explore and explain the literary and political malaise of contemporary France Jessica Wardhaugh University of Warwick UK This third edition is unparalleled in its reach and excellence as a history of modern France from 1870 to the present Sowerwine seamlessly integrates culture gender and race into political and social history His incorporation of the newest interpretations of past events as well as the historical perspective he lends to current events such as terror attacks new laws regarding labor and marriage modern globalization neo liberalism as well as to France s darkening mood make this highly readable book a true masterpiece Elinor Accampo University of Southern California USA Her recent social and economic challenges have cast deep shadows into the story of modern France that Charles Sowerwine tells so clearly Those dark questions about culture politics and society have their full place in this This scholarly but accessible reassessment of French history since 1870 This

edition raises new questions about France's story directly and compellingly and remains the key text for readers who are curious about modern France Julian Wright Northumbria University UK Following on the fine precedent set by earlier editions this masterful survey offers students and the public alike a readable and illuminating account of the tortuous and ever intriguing path of French history since 1870 George Sheridan University of Oregon USA *France Since 1800* D. L. L. Parry, Pierre Girard (professor of contemporary history.), 2002 In this concise history of France since 1815 David Parry and Pierre Girard examine distinctive features of contemporary France tracing their origins and investigating their continuities and transformations Each chapter focuses on a particular chronological period beginning by setting the scene in terms of political events the narrative then broadens out to consider the wider issues of society economics religion the arts gender relations and France's relationship with Europe and with the rest of the world This clearly written accessible text will appeal to undergraduates studying French history politics and culture as well as the general reader **France Since the Liberation** Gino Raymond, 2024-02-20 This book focuses on the tension between the modernising thrust that places France on a trajectory of convergence with comparable liberal democracies and the defence of a national specificity that can act as a brake complicating France's relationship with its neighbours its present and its past This ambivalence in French political and social life stems from the conscious attempt to rebuild the nation after the trauma of Occupation during World War II and the new beginning provided by the Liberation The government of the Fourth Republic embraced the pursuit of a modernisation that would enable it to regain its place among the world's leading democratic states However this modernising ambition coexists with the belief in a specific destiny and a unique sense of mission that are intrinsic to the emergence of a sense of nationhood after the revolution of 1789 Raymond defines a critical perspective that draws together historical economic social and political issues into a coherent understanding of what makes France the way it is today Written with both academic rigour and a highly accessible clarity of style this volume is a valuable resource for students educators and researchers in French and European Studies **France in an Era of Global War, 1914-1945** A. Carrol, L. Broch, 2014-09-30 In France in an Era of Global War scholars re-examine experiences of French politics occupation empire and entanglements with the Anglophone world between 1914 and 1945 In doing so they question the long standing myths and assumptions which continue to surround this period and offer new avenues of enquiry **Technical Bulletin**, 1928 [An Outline of Recent European History, 1815-1921](#) Clarence Perkins, 1921 *The Fall of France in the Second World War* Richard Carswell, 2019-02-01 This book examines how the fall of France in the Second World War has been recorded by historians and remembered within society It argues that explanations of the fall have usually revolved around the four main themes of decadence failure constraint and contingency It shows that the dominant explanation claimed for many years that the fall was the inevitable consequence of a society grown rotten in the inter war period This view has been largely replaced among academic historians by a consensus which distinguishes between the military defeat and the political demise of the Third

Republic It emphasizes the contingent factors that led to the military defeat At the same time it seeks to understand the constraints within which France s policy makers were required to act and the reasons for their policy making failures in economics defence and diplomacy **Army History** ,1989 American Shipping ,1920 The Chamber of Commerce Journal ,1920 **Pennsylvania; a Record of the University's Men in the Great War** University of Pennsylvania.
