Franco British Defence Co Operation:

Franco-British Defence Co-operation Yves Boyer, John Roper, 2013-04-15 This book focuses on the prospects now opening up for Franco British co operation in the fields of defence and security Looking at the situation from the viewpoints of both Britain and France it builds on the indications of a developing awareness within the two governments of the benefits to be derived from a closer partnership The book argues forcefully that it is now time for both Britain and France to give up their long standing attitude of mutual indifference or even rivalry and to recognise openly the similarities and natural affinities that exist between them Although the ways in which defence problems are discussed in the two countries do not always coincide the solutions proposed are often alike in other words Paris and London have much more in common in their approaches to defence and security questions than is generally recognised The solutions put forward are intended not only to increase co operation between France and Britain but also to lead to greater political and military cohesion among all the West European allies

Franco-British Military Cooperation, 2011 The St Malo Agreement on European Defence Cooperation of 1998 set out a new approach to defence cooperation in pursuit of a new goal an autonomous European military capability By contrast the Franco British cooperation launched in November 2010 by Prime Minister Cameron and President Sarkozy is once again a new approach but it is one that seeks to sustain the status quo in support of sovereign foreign and defence policies The primary motivation is not to produce a greater or more effective European military capability It is to maintain French and British aspirations to power projection and to military credibility in the eyes of the United States The many similarities and shared vital interests of France and the UK underpin but do not drive the initiative The end goal is to retain access to military capability whether that is through mutual dependence on each other's industrial base and armed forces or through pooling and sharing capability The relationship between the new push for Franco British military cooperation and wider European defence policy is therefore quite enigmatic Franco British cooperation does not entail a strategic reappraisal of European defence It side steps the strategic question of the role of NATO and the United States in European defence and security It does not for example address concerns among some European states over the long term disengagement of the US from Europe It could potentially cause divisions among European states if the Franco British relationship is seen as too exclusive and not sufficiently concerned with wider European security Yet for all that Franco British defence cooperation could provide a road map to more effective European defence cooperation based on deeper capability planning and mutual dependency The Defence and Security Cooperation Treaty signed by Cameron and Sarkozy is undoubtedly a step change from the cooperation that has gone before The UK and France will set a new gold standard for defence cooperation And without discovering how and indeed whether the initiatives that France and the UK embark on can work in practice wider European defence cooperation has little hope of delivering anything This paper attempts to explore in some detail the motivation for the November 2010 treaty how it might work in practice and the impact

it might have on wider European defence cooperation **Franco-British Defence Co-operation** Yves Boyer, John Roper, 2013-04-15 This book focuses on the prospects now opening up for Franco British co operation in the fields of defence and security Looking at the situation from the viewpoints of both Britain and France it builds on the indications of a developing awareness within the two governments of the benefits to be derived from a closer partnership The book argues forcefully that it is now time for both Britain and France to give up their long standing attitude of mutual indifference or even rivalry and to recognise openly the similarities and natural affinities that exist between them Although the ways in which defence problems are discussed in the two countries do not always coincide the solutions proposed are often alike in other words Paris and London have much more in common in their approaches to defence and security questions than is generally recognised The solutions put forward are intended not only to increase co operation between France and Britain but also to lead to greater political and military cohesion among all the West European allies **How to Achieve Defence**

The Battle for Authority in European Defence Cooperation Felix Biermann, 2023-10-14 This book addresses one of the most profound transformations in international governance the proliferation of regime complexity Regime complexes can be found wherever state interests clash Thus even in one of the most constitutionalized of institutional environments the European Union EU regime complexity features prominently especially in European defence cooperation where states have created competing institutions overlapping in their mandates to organize armaments cooperation or defence planning The tense relationship between the institutions of the EU s Common Security and Defence Policy CSDP and those of NATO is well known Yet inter institutional conflict is not limited to this dichotomy It extends to institutions beyond these two frameworks such as those of the former Western European Union and regional defence cooperation frameworks such as the Nordic Defence Cooperation NORDEFCO or OCCAR a minilateral armaments agency All these institutions have partially overlapping membership structures and mandates and therefore rival authority claims in the field of European defence This book uncovers the hidden regularities of the ongoing battle for institutional authority among EU member states

Rivals in Arms Alice Pannier, 2020-10-22. As the UK leaves the European Union and as the multilateral order is increasingly under stress, bilateral security links are more important than ever. Among such relationships, the UK-France partnership has become particularly critical in the past decades. Alice Pannier's *Rivals in Arms* reveals the history of the growing special partnership between Europe's two leading military powers in the twenty-first century. Using an innovative analytical framework rooted in theories of cooperation and negotiation, this book exposes the challenges the two countries have faced to develop, equip, and employ their military capabilities together. Through a decade-long study, Pannier highlights how France and the UK have endeavoured to make their partnership more effective and resistant to domestic and international shifts, including Brexit. Building on more than one hundred interviews with key stakeholders and unmatched access to primary sources, *Rivals in Arms* takes the reader behind the scenes, investigating the complicated but crucial defence relationship between France and the UK, a relationship that is critical to the future of Euro-Atlantic security.

The United Kingdom's Defence After Brexit Rob Johnson, Janne Haaland Matlary, 2018-09-25. This new work examines how the European states, the United Kingdom, and the United States will approach the defence and security of Europe in the medium and long term. It is often assumed that Brexit, the United Kingdom's departure from the political and commercial European Union, would affect defence and security profoundly, but the basis of that assumption is rarely analysed. Bringing together a panel of specialists from Europe, the UK, the EU, and the United States, this volume evaluates the relative position they play in Europe's defence in the era of Brexit. It examines the arguments, challenges, and problems in European defence and tests them against the residual commitment, cohesion, and capabilities of the states concerned, including Anglo-French military co-operation, the silent Anglo-German partnership, the US-UK Special Relationship, and the emergent Northern Group.
