Great Men in the Second World War provides a new perspective on the role of the individual in history Paul Dukes selects

five Great Men each in his turn one of the leaders of the three victorious powers the UK the USA and the USSR The identity of the Big Three changed significantly during the last months of the conflict Roosevelt died in April 1945 and was succeeded by Truman Churchill lost the general election to Attlee in July Stalin alone provided continuity throughout the conferences of the Big Three and immediately beyond The book explores the power of these individuals asking such questions as To what extent did the leaders exert their own influence and to what extent could they be considered to be spokesmen for their countries How significant was it that Truman and Attlee had less colourful personalities than Roosevelt and Churchill Was Stalin uniquely bad while the others were good Drawing in particular on the record of their interaction at the Tehran Yalta and Potsdam Conferences but also making use of other sources including novels as well as works of history Paul Dukes sheds light on both the major statesmen involved and the nature of the Second World War This is a book that will be useful for students of the Second World War and anyone with an interest in the role of individuals in history **The Columbia**

Companion to American History on Film Peter C. Rollins, 2004-03-24 American history has always been an irresistible source of inspiration for filmmakers and today for good or ill most Americans sense of the past likely comes more from Hollywood than from the works of historians In important films such as The Birth of a Nation 1915 Roots 1977 Apocalypse Now 1979 and Saving Private Ryan 1998 how much is entertainment and how much is rooted in historical fact In The Columbia Companion to American History on Film more than seventy scholars consider the gap between history and Hollywood They examine how filmmakers have presented and interpreted the most important events topics eras and figures in the American past often comparing the film versions of events with the interpretations of the best historians who have explored the topic Divided into eight broad categories Eras Wars and Other Major Events Notable People Groups Institutions and Movements Places Themes and Topics and Myths and Heroes the volume features extensive cross references a filmography of discussed and relevant films notes and a bibliography of selected historical works on each subject The Columbia Companion to American History on Film is also an important resource for teachers with extensive information for research or for course development appropriate for both high school and college students Though each essay reflects the unique body of film and print works covering the subject at hand every essay addresses several fundamental questions What are the key films on this topic What sources did the filmmaker use and how did the film deviate or remain true to its sources How have film interpretations of a particular historical topic changed and what sorts of factors technological social political historiographical have affected their evolution Have filmmakers altered the historical record with a view to enhancing drama or to enhance the truth of their putative message *Library of Congress Catalogs* Library of Congress, 1976 [Books in Series](#) ,1985 Vols for 1980 issued in three parts Series Authors and Titles **Amerika Gasshūkoku to Dainiji Sekai Taisen, Bunken Mokuroku** ,1983 [Something to Fear](#) Ira Chernus, Randall Fowler, 2023-11-17 A presidency unlike any other Franklin D Roosevelt s legacy in foreign affairs has been contested since the day of his passing Few presidential

statements have echoed through history like FDR's charge to conquer fear itself. Yet immediately after the end of World War II the United States was gripped by a pervasive sense of national insecurity. In *Something to Fear*, Ira Chernus and Randall Fowler demonstrate that Roosevelt's rhetoric, vision, and policies promoted a broadly defined sense of American security over a period of thirty-three years, ultimately helping elevate security to its primacy in US political discourse by the end of his presidency. In doing so, however, he also heightened the prominence of insecurity in American public life, mediating the United States' transition to superpower status in a way that also elevated fear in debates over foreign affairs. FDR's presidency precipitated a complex shift in US foreign policy that defies any straightforward account organized along a linear isolationist to interventionist trajectory. Chernus and Fowler investigate the uncertainties and contradictions embedded in FDR's presidential rhetoric, which drew from realist, racial, progressive, nostalgic, apocalyptic, liberal internationalist, and American exceptionalist discourses. In this way, Roosevelt's rhetoric anticipated the ambivalences contained in American adventures abroad ever since. *Something to Fear* shows how FDR's response to the Great Depression, the debates over intervention, and World War II left an immense rhetorical legacy that often stressed insecurity. This study of FDR's entire political career also carefully links him to the Progressive Era before his presidency and to the Cold War era after it.
