Pederson, Michael R Williams**

Free Government In The Making Readings In American Political Thought:

Free Government in the Making Alpheus Thomas Mason, 1971 **Free Government in the Making** Alpheus Thomas Mason, 1961 **Free Government in the Making. Readings in American Political Thought. Third Edition** Alpheus Thomas MASON, 1965 **John Rawls** Thomas Pogge, 2007-01-27 John Rawls was one of the most important political philosophers of our time and promises to be an enduring figure over the coming decades His Theory of Justice 1971 has had a profound impact across philosophy politics law and economics Nonetheless Rawlsian theory is not easy to understand particularly for beginners and his writing can be dense and forbidding Thomas Pogge's short introduction originally published in German gives a thorough and concise presentation of the main outlines of Rawls's theory introduces biographical information when necessary and draws links between the Rawlsian enterprise and other important positions in moral and political philosophy *The Bible in American Law and Politics* John R. Vile, 2020-09-19 While scholars increasingly recognize the importance of religion throughout American history The Bible in American Law and Politics is the first reference book to focus on the key role that the Bible has played in American public life In considering revolting from Great Britain Americans contemplated whether this was consistent with scripture Americans subsequently sought to apply Biblical passages to such issues as slavery women's rights national alcoholic prohibition issues of war and peace and the like American presidents continue to take their oath on the Bible Some of America's greatest speeches for example Lincoln's Second Inaugural and William Jennings Bryan's Cross of Gold speech have been grounded on Biblical texts or analogies Today Americans continue to cite the Bible for positions as diverse as LGBTQ rights abortion immigration welfare health care and other contemporary issues By providing essays on key speeches books documents legal decisions and other writings throughout American history that have sought to buttress arguments through citations to Scriptures or to Biblical figures John Vile provides an indispensable guide for scholars and students in religion American history law and political science to understand how Americans throughout its history have interpreted and applied the Bible to legal and political issues **A Companion to the United States Constitution and Its Amendments** John R. Vile, 2021-10-11 The U S Constitution and its 27 amendments including the Bill of Rights is a living document as evidenced by new laws and Supreme Court rulings that with each passing year change how the Constitution's guidelines are interpreted and implemented A Companion to the United States Constitution and Its Amendments is designed to show students just how revolutionary the Constitution was and how relevant it remains today This seventh revised edition of the Companion begins by revisiting the key events leading to the Constitution's ratification including the writing of the Declaration of Independence and the proceedings of the Constitutional Convention then explores the document article by article amendment by amendment to help readers better understand how each section of the document shapes the world we live in today In addition the Companion illuminates how new laws political debates and Supreme Court decisions are continually reshaping our understanding of the Constitution and

its role in American life and society including such essential and foundational elements of democracy as voting elections the peaceful transfer of power equality before the law civil rights and liberties and the duties responsibilities and obligations of the nation's three branches of government **Special Bibliography Series** ,1957 **Locke in America** Jerome Huyler,1995 An account of the link between Locke's thought and the American Founding The author argues that previous writers have misread Locke's influence on the Founders he portrays the philosopher as a moderate 17th century moralist advocating an individualism that fits well with classic republicanism *Encyclopedia of Constitutional Amendments, Proposed Amendments, and Amending Issues, 1789-2023* John R. Vile,2023-10-19 Written by a leading scholar of the constitutional amending process this two volume encyclopedia now in its fifth edition is an indispensable resource for students legal historians and high school and college librarians This authoritative reference resource provides a history and analysis of all 27 ratified amendments to the Constitution as well as insights and information on thousands of other amendments that have been proposed but never ratified from America's birth until the present day The set also includes a rich bibliography of informative books articles and other media related to constitutional amendments and the amending process *The Jacksonian and Antebellum Eras* John R. Vile,2016-11-14 Including documents from the legislative executive and judicial branches of government as well as sentiments expressed by opinion leaders of the day this book provides concisely edited primary sources that cover the Jackson period from March 1829 through the inauguration of Abraham Lincoln The presidency of Andrew Jackson is typically associated with the American expansionism that furthered our democracy but often at a high cost to Native American cultures Could similar outcomes have been achieved differently Historians debate whether the Civil War could have been avoided why attempts to avert war failed and which individuals had the greatest potential ability to divert the nation's path away from violent conflict This book examines these historical questions regarding the unfolding of American history through an introduction to carefully edited primary documents relevant to the period from the inauguration of President Andrew Jackson through that of Abraham Lincoln These documents include not only major state papers from the legislative executive and judicial branches but also primary sources that directly communicate the concerns of African Americans women and Native Americans of the period Important themes include the rising controversy over slavery American expansionism and attempts to avert crises through compromise High school and college students and patrons of public libraries seeking to better understand American history will profit from the introductions and annotations that accompany the primary documents in this book invaluable resources that put the information into context and explain terms and language that have become outdated [Franklin D. Roosevelt and the Transformation of the Supreme Court](#) Stephen K. Shaw,William D. Pederson,Michael R Williams,2015-04-08 Franklin D Roosevelt appointed 10 justices to the U S Supreme Court more than any president except Washington and during his presidency from 1933 to 1945 the Court gained more visibility underwent greater change and made more landmark decisions

than it had in its previous 150 years of existence This collection examines FDR s influence on the Supreme Court and the Court s growing influence on American life *Think Biblically (2nd edition)* John MacArthur, Abner Chou, 2025-03-24 23

Essays Demonstrate How God s Voice Guides Every Area of Life from Science and Economics to Marriage and the Arts What we think shapes who we are That s why the Bible tells us Do not be conformed to this world but be transformed by the renewal of your mind Romans 12 2a In a time of differing voices competing for our allegiance we must learn to think biblically so we can distinguish good from evil In this collection of essays John MacArthur and other teachers from the Master s College confront the false worldviews that dominate our postmodern world The authors provide models for cultivating a biblical mindset on worship psychology gender science education history government economics and literature This second edition includes new chapters on hermeneutics mental illness complementarianism and Christian liberal arts Written for students as well as teachers and pastors *Think Biblically* helps us navigate today s culture with our thoughts and lives centered on Christ Biblical and Practical Edited by John MacArthur and Abner Chou these theologically profound essays guide readers to discern God s will and obey his word Comprehensive Covers a wide range of issues including psychology gender science education and economics Accessible A great resource for high school and college students as well as laypeople pastors and counselors Replaces ISBN 978 1 4335 0398 6 *The Gendering of American Politics* Mark Kann, 1999-06-30 America s founding mothers and fathers built gender bias into American politics This book examines traditional prejudices against women s political participation as well as efforts to overcome these prejudices during a revolutionary era It inquires into the shifting male hierarchies that kept some men out of politics admitted others to a limited citizenship and privileged a few men with leadership authority It also assesses the impact of the founders gender bias on modern American politics The gendering of American politics began as a compromise between traditional patriarchal ideals that subordinated all women to male authority and revolutionary norms that recognized women s capacity for independence reason and patriotism That compromise was manifested in the doctrine of republican womanhood which perpetuated women s exclusion from citizenship but afforded women sufficient educational opportunity and family influence to raise citizens and educate statesmen for the new republic The gendering of American politics was concluded by a second compromise The founders often expressed a desire to exclude disorderly men from public life and empower a few heroic men to exercise great leadership powers but they generally settled for granting weak citizenship to most white family men and supporting elite government by accomplished gentleman legislators *The Encyclopedia of Civil Liberties in America* David Schultz, John R. Vile, 2015-04-10 Driven by the growing reality of international terrorism the threats to civil liberties and individual rights in America are greater today than at any time since the McCarthy era in the 1950s At this critical time when individual freedoms are being weighed against the need for increased security this exhaustive three volume set provides the most detailed coverage of contemporary and historical issues relating to basic rights covered in the United States Constitution The

Encyclopedia of Civil Liberties in America examines the history and hotly contested debates surrounding the concept and practice of civil liberties. It provides detailed history of court cases, events, Constitutional amendments and rights personalities and themes that have had an impact on our freedoms in America. The Encyclopedia appraises the state of civil liberties in America today and examines growing concerns over the limiting of personal freedoms for the common good. Complete with selected relevant documents and a chronology of civil liberties developments and arranged in A-Z format with multiple indexes for quick reference. The Encyclopedia of Civil Liberties in America includes in-depth coverage of freedom of speech, religion, press and assembly as outlined in the first amendment; protection against unreasonable search and seizure as outlined in the fourth amendment; criminal due process rights as outlined in the fifth, sixth, seventh and eighth amendments; property rights, economic liberties and other rights found within the text of the United States Constitution. Supreme Court justices, presidents and other personalities focusing specifically on their contributions to or effect on civil liberties concepts, themes and events related to civil liberties, both practical and theoretical court cases and their impact on civil liberties.

Great American Judges John R. Vile, 2003-06-23 Inspiring and instructive biographies of the 100 most influential judges from state and federal courts in one easy-to-access volume. Great American Judges profiles 100 outstanding judges and justices in a full sweep of U.S. history. Chosen by lawyers, historians and political scientists, these men and women laid the foundation of U.S. law. A complement to Great American Lawyers, together these two volumes create a complete picture of our nation's top legal minds from colonial times to today. Following an introduction on the role of judges in American history are A-Z biographical entries portraying this diverse group from extraordinarily different backgrounds. Students and history enthusiasts will appreciate the accomplishments of these role models and the connections between their inspiring lives and their far-reaching legal decisions. William Rehnquist, Oliver Wendell Holmes Jr. and 12 other Supreme Court justices are found alongside federal judges like Skelly Wright who ordered school desegregation in 1960. Influential state judges such as Rose Elizabeth Bird, California's first woman Supreme Court Chief Justice are also featured. The Chemistry Between Us Larry Young PhD, Brian Alexander, 2014-01-28 How much control do we have over love? Much less than we like to think. All that mystery, all that poetry, all those complex behaviors surrounding human bonding leading to the most life-changing decisions we'll ever make are unconsciously driven by a few molecules in our brains. How does love begin? How can two strangers come to the conclusion that it would not only be pleasant to share their lives but that they must share them? How can a man say he loves his wife yet still cheat on her? Why do others stay in relationships even after the romance fades? How is it possible to fall in love with the wrong person? How do people come to have a type? Physical attraction, jealousy, infidelity, mother-infant bonding, all the behaviors that so often leave us befuddled are now being teased out of the fog of mystery thanks to today's social neuroscience. Larry Young, one of the world's leading experts in the field, and journalist Brian Alexander explain how those findings apply to you. Drawing on real human stories and research from labs around the world, The Chemistry Between

Us is a bold attempt to create a grand unified theory of love Some of the mind blowing insights include Love can get such a grip on us because it is literally an addiction To a woman falling in love a man is like her baby Why it s false to say society makes gender and how it s possible to have the body of one gender and the brain of another Why some people are more likely to cheat than others Why we sometimes truly can t resist temptation Young and Alexander place their revelations into historical political and social contexts In the pro cess they touch on everything from gay marriage to why single mother households might not be good for society The Chemistry Between Us offers powerful in sights into love sex gender sexual orientation and family life that will prove to be enlightening contro versial and thought provoking *The Constitution of Good Societies* Karol Edward Soltan,Stephen L. Elkin,2010-11-01 **Good Citizenship in America** David M. Ricci,2004-07-19 Good Citizenship in America describes a civic ideal of who enjoys membership in the state and what obligations that entails and traces its history in America Until 1865 this ideal called for virtuous political behavior republicanism but extended the franchise beyond early republican expectations democracy The book follows the widening of the franchise to women and people of color and to those with little or no property following economic development post 1865 In the twentieth century the civic ideal was influenced by the increase of consumerism its peak after World War II and its subsequent decline More recent citizenship informed by environmental problems and growing global Darwinism places a bigger and bigger emphasis on the economic conscience This is an easily accessible analysis of civic trends in America and one that highlights much of what is decent in American life **Reconstructing the Commercial Republic** Stephen L. Elkin,2015-01-16 James Madison is the thinker most responsible for laying the groundwork of the American commercial republic But he did not anticipate that the propertied class on which he relied would become extraordinarily politically powerful at the same time as its interests narrowed This and other flaws argues Stephen L Elkin have undermined the delicately balanced system he constructed In Reconstructing the Commercial Republic Elkin critiques the Madisonian system revealing which of its aspects have withstood the test of time and which have not The deficiencies Elkin points out provide the starting point for his own constitutional theory of the republic a theory that unlike Madison s lays out a substantive conception of the public interest that emphasizes the power of institutions to shape our political economic and civic lives Elkin argues that his theory should guide us toward building a commercial republic that is rooted in a politics of the public interest and the self interest of the middle class He then recommends specific reforms to create this kind of republic asserting that Americans today can still have the lives a commercial republic is intended to promote lives with real opportunities for economic prosperity republican political self government and individual liberty **The Papers of Martin Luther King, Jr., Volume VI** Martin Luther King,Clayborne Carson,1992 Initiated by The King Center in association with Stanford University
