Redeemer Nation Orrin Schwab,2004 In this book Dr Orrin Schwab develops the concept of the modern technocratic state as part of a global technocratic culture and civilization The author argues that technocratic cultural and institutional forms were and are part of a collective script for Western culture The American script combined the scientific commercial and technological aspects of the Enlightenment with the radical 17th century Protestant belief in America as a new Zion In the twentieth century the synthesis of mission along with global technocratic knowledge and institutions created the Wilsonian liberal technocratic order As the principal agent and protector of the modern capitalist international system America the self defined Redeemer Nation has moved through the controlled anarchy of international relations from one war and crisis to the next confirmed in its self defined role and mission
