**Manuel González Prada**

## **Free Pages And Hard Times:**

**Free Pages and Hard Times** Manuel González Prada, 2003-03-13 Manuel González Prada was a powerful Peruvian writer and political reformer whose essays and speeches influenced generations of young radicals. He founded the Party of National Unity in 1891, was linked to the anarchist movement, and served as Director of the National Library from 1912 to 1914. His writings have had enormous impact on the literary and political life of Peru, taking up the defense of exploited indigenous people, broadsiding the landowning oligarchy, and denouncing the social and political errors of the country. In fact, the radical politics Prada advocated then are still alive and relevant today. Modernization, secularization of Peru, transformation of a nation through its people, promotion of internationalism, universalism versus overt patriotism, communitarianism, and condemnation of war. This translation is based on the *Obras* of González Prada, edited by Luis Alberto Sánchez. It includes essays, speeches, and polemical writings drawn from two of Prada's only books of prose published during his lifetime: *Páginas Libres* and *Horas de Lucha*, in addition to unpublished manuscripts and works previously printed in newspapers and magazines. His writings are gathered thematically under the subheadings: Peruvian Problems, Anarchy, and Philosophical, Literary, and Linguistic Problems.

**Decolonizing Indigeneity** Thomas Ward, 2016-12-20 While there are differences between cultures in different places and times, colonial representations of indigenous peoples generally suggest they are not capable of literature nor are they worthy of being represented as nations. Colonial representations of indigenous people continue on into the independence era and can still be detected in our time. The thesis of this book is that there are various ways to decolonize the representation of Amerindian peoples. Each chapter has its own decolonial thesis, which it then resolves. Chapter 1 proves that there is coloniality in contemporary scholarship and argues that word choices can be improved to decolonize the way we describe the first Americans. Chapter 2 argues that literature in Latin America begins before 1492 and shows the long arc of Mayan expression, taking the *Popol Wuj* as a case study. Chapter 3 demonstrates how colonialist discourse is reinforced by a dualist rhetorical ploy of ignorance and arrogance in a Renaissance historical chronicle, Agustín de Zárate's *Historia del descubrimiento y conquista del Perú*. Chapter 4 shows how, by inverting the Renaissance dualist configuration of civilization and barbarian, the Nahuas/Aztecs, who were formerly considered barbarian, can be civilized within Spanish norms. This is done by modeling the categories of civilization discussed at length by the friar Bartolomé de las Casas as a template that can serve to evaluate Nahuatl civil society as encapsulated by the historiography of Fernando de Alva Ixtlilxochitl, a possibility that would have been available to Spaniards during that time. Chapter 5 maintains that the colonialities of the pre-independence era survive, but that Criollo indigenous dialogue is capable of excavating their roots to extirpate them. By comparing the discussions of the hacienda system by the Peruvian essayist Manuel González Prada and by the Mayan Quiché eyewitness to history Rigoberta Menchú, this book shows that there is common ground between their viewpoints despite the different genres in which their work appears and despite the different countries and the eight

decades that separated them suggesting a universality to the problem of the hacienda which can be dissected This book models five different decolonizing methods to extricate from the continuities of coloniality both indigenous writing and the representation of indigenous peoples by learned elites      *Latin American and Latinx Philosophy* Robert Eli Sanchez, Jr., 2019-08-13 *Latin American and Latinx Philosophy A Collaborative Introduction* is a beginner's guide to canonical texts in Latin American and Latinx philosophy providing the non specialist with necessary historical and philosophical context and demonstrating their contemporary relevance It is written in jargon free prose for students and professors who are interested in the subject but who don't know where to begin Each of the twelve chapters written by a leading scholar in the field examines influential texts that are readily available in English and introduces the reader to a period topic movement or school that taken together provide a broad overview of the history nature scope and value of Latin American and Latinx philosophy Although this volume is primarily intended for the reader without a background in the Latin American and Latinx tradition specialists will also benefit from its many novelties including an introduction to Aztec ethics a critique of the Latino threat narrative the legacy of Latin American philosophy in the Chicano movement an overview of Mexican existentialism Liberation philosophy and Latin American and Latinx feminisms a philosophical critique of indigenism a study of Latinx contributions to the philosophy of immigration and an examination of the intersection of race and gender in Latinx identity

**the State in Modern Peru** G. Espinoza, 2013-12-10 Espinoza's work illuminates how education was the site of ideological and political struggle in Peru during its early years as an independent state. Spanning 100 years and discussing both urban and rural education, it shows how school funding, curricula, and governance became part of the cultural process of state building in Peru.

**The 2011 Guide to Free Or Nearly-Free E-Books**, 2011 One of the problems which face all librarians adding e books to their collections is that of bibliographic control: there is no legal deposit for e books and consequently there is no single place from which new titles can be found. If this is true of commercially published e books, it is most certainly also true of free e books, and there are many thousands of free e books available over the Internet, many of which are of a quality such that librarians might wish to have them in their collections. The 2011 Guide to Free or Nearly Free e Books is offered as a tool for librarians and others involved in book selection: e.g. teachers in schools in all sectors, school, further and higher education, public and special libraries, to facilitate easy access to free e books and e book collections which can enhance their digital library.

Harsh Country, Hard Times Janet Williams Pollard, Louis Gwin, 2011-09-01 Clayton Wheat Williams, West Texas oilman, rancher, civic leader, veteran of the Great War, and avocational historian, was a risk taker who both reflected and molded the history of his region. His life spanned a dynamic period in Texas history when automobiles replaced horse-drawn wagons, electricity replaced steam power in the oilfields, and barren and virtually worthless ranch land became valuable for the oil and gas under its surface. The setting for Williams's story, like that of his father before him, is Fort Stockton in the rugged Trans Pecos region of Texas. As a youngster accompanying his father on surveying trips through the land and subsequently as a cadet at Texas A M, he developed a toughness that served him well in France and Flanders. His letters home provide an unusually nuanced picture of what life was like for an American officer in Europe during the Great War. After the war, he returned home where he taught himself petroleum geology so effectively that he picked the site of what would become in 1928 the deepest producing oil well in the world. With his brother, he mapped the structure of what later became the Fort Stockton oil and gas field, and he went on to hammer out a successful career in the boom and bust cycles of the West Texas oil industry. On the civic front, Williams served for fourteen years as a Pecos County commissioner, and he held offices in a number of social and civic organizations. Imbued with a deep love for the history of his region, he wrote, with the editorial help of historian Ernest Wallace at Texas Tech University, Texas Last Frontier: Fort Stockton and the Trans Pecos, 1861-1895, published by Texas A M University Press in 1982. Nonetheless, by some of his neighbors, he may be best remembered for his role in drying up the town's famous Comanche Springs by pumping water, feeding the spring's aquifer to irrigate his and others' farms west of town. Williams left behind a treasure trove of letters, personal papers, and writings, and interviews with his family, helping document in rich detail the history of an unforgiving land, as well as what life was like during a pivotal period of American history. These materials, which form the core of the present manuscript, reveal a life that made a difference in the economy and history of the region and the nation at large.
