McDermott, Peter Burke, 2015-10-01 This volume provides the first comparative survey of the relations between the two most active book worlds in Eurasia between 1450 and 1850 Prominent scholars in book history explore different approaches to publishing printing and book culture They discuss the extent of technology transfer and book distribution between the two regions and show how much book historians of East Asia and Europe can learn from one another by raising new questions exploring remarkable similarities and differences in these

regions production distribution and consumption of books The chapters in turn show different ways of writing transnational comparative history Whereas recent problems confronting research on European books can instruct researchers on East Asian book production so can the privileged role of noncommercial publications in the East Asian textual record highlight for historians of the European book the singular contribution of commercial printing and market demands to the making of the European printed record Likewise although production growth was accompanied in both regions by a wider distribution of books woodblock technology's simplicity and mobility allowed for a shift in China of its production and distribution sites farther down the hierarchy of urban sites than was common in Europe And the different demands and consumption practices within these two regions expanding markets led to different genre preferences and uses as well as to the growth of distinctive female readerships A substantial introduction pulls the work together and the volume ends with an essay that considers how these historical developments shape the present book worlds of Eurasia This splendid volume offers expert new insight into the ways of producing financing distributing and reading printed books in early modern Europe and East Asia This is comparative history at its best which leaves us with a better understanding of each context and of the challenges common to book cultures across space and time Ann Blair author of *Too Much to Know* Managing Scholarly Information before the Modern Age and professor of history Harvard University This engrossing account of the history of the book by leading specialists on the European and East Asian publishing worlds takes stock of what we know and how much we still need to know about the places that books had in the lives of our early modern forebears Each chapter is masterful state of the field coverage of its subject and together they set a new standard for future studies of the book East and West Timothy Brook author of *The Troubled Empire* China in the Yuan and Ming Dynasties

**The Perils of Print Culture: Book, Print and Publishing History in Theory and Practice** Jason McElligott, 2014-09-09 This collection of essays illustrates various pressures and concerns both practical and theoretical related to the study of print culture Procedural difficulties range from doubts about the reliability of digitized resources to concerns with the limiting parameters of national book history

*Annual Bibliography of the History of the Printed Book and Libraries* Department of Information & Collections, 2005-12-21 The *Annual Bibliography of the History of the Printed Book and Libraries* aims at recording articles of scholarly value which relate to the history of the printed book to the history of arts crafts techniques and equipment and of the economic social and cultural environment involved in its production distribution conservation and description

Print Culture, Agency, and Regionality in the Hand Press Period Rachel Stenner, Kaley Kramer, Adam James Smith, 2022-04-06 *Print Culture Agency and Regionality in the Hand Press Period* illuminates the diverse ways that people in the British regional print trades exerted their agency through interventions in regional and national politics as well as their civic commercial and cultural contributions Works printed in regional communities were a crucial part of developing narratives of local industrial technological and ideological progression By moving away from understanding of print cultures outside of London as

provincial however this book argues for a new understanding of region as part of a network of places emphasising opportunities for collaboration and creation that demonstrate the key role of regions within larger communities extending from the nation to the emerging sense of globality in this period Through investigations of the men and women of the print trades outside of London this collection casts new light on the strategies of self representation evident in the work of regional print cultures as well as their contributions to individual regional identities and national narratives *Gandhi's Printing Press* Isabel Hofmeyr,2013-03-05 When Gandhi as a young lawyer in South Africa began fashioning the tenets of his political philosophy he was absorbed by a seemingly unrelated enterprise creating a newspaper Indian Opinion In Gandhi s Printing Press Isabel Hofmeyr provides an account of how this footnote to a career shaped the man who would become the world changing Mahatma Print, Politics and Trade in the French Atlantic Jane McLeod,2024-07-09 The Labotti res were the largest printing and bookselling dynasty in eighteenth century Bordeaux From the 1680s to the sale of their business in 1794 three generations of this family acted as major cultural brokers in this booming Atlantic port serving the rapidly expanding commercial and legal sectors with books pamphlets and newspapers The lives and businesses of this family are heavily entwined with the histories of the Enlightenment French colonialism in the West Indies and the French Revolution We find the final generation welcoming the Revolution printing a pro revolutionary newspaper that framed the revolts in Haiti and Martinique in pro revolutionary terms They would come to establish their shop as a Jacobin centre and along with their workers and journalists navigated the forces of popular censorship and state control However despite these activities the Labotti re printing and bookselling enterprise would eventually be destroyed by the very Revolution it had supported Through this lively microhistory of the Labotti res Jane McLeod presents the important role played by the flourishing Atlantic port economy in supporting the expansion of printing and bookselling Furthermore from McLeod s extensive archival research into over thirty members of the Labotti re family emerges a new understanding of the role played by printers and booksellers in the spreading of the ideas and concerns that underpinned some of the landmark social cultural and political changes of the eighteenth century **Books Without Borders, Volume 2** R. Fraser,M. Hammond,2008-07-10 This volume focuses on the publisher s series as a cultural formation a material artifact and component of cultural hierarchies Contributors engage with archival research cultural theory literary and bibliometric analysis amongst a range of other approaches to contextualize the publisher s series in terms of its cultural and economic work The New Cambridge History of the Bible: Volume 4, From 1750 to the Present John Riches,2015-04-13 This volume examines the Bible s role in the modern world beginning with a treatment of its production and distribution that discusses publishers printers text critics and translators and continuing with a presentation of new methods of studying the text that have emerged including historical literary social scientific feminist postcolonial liberal and fundamentalist readings There is a full discussion of the changes in understandings of and approaches to the Bible in various faith communities The dissemination of the Bible

throughout the globe has also produced a host of new interpretations and this volume provides a comprehensive geographical survey of its reception In the final chapters the authors offer a thematic overview of the Bible in relation to literature art film science and other disciplines They demonstrate that in spite of challenges to the Bible's authority in western Europe it remains highly relevant and influential not least in the Americas Africa and Asia *Moral Capital* Christopher Leslie Brown,2012-12-01 Revisiting the origins of the British antislavery movement of the late eighteenth century Christopher Leslie Brown challenges prevailing scholarly arguments that locate the roots of abolitionism in economic determinism or bourgeois humanitarianism Brown instead connects the shift from sentiment to action to changing views of empire and nation in Britain at the time particularly the anxieties and dislocations spurred by the American Revolution The debate over the political rights of the North American colonies pushed slavery to the fore Brown argues giving antislavery organizing the moral legitimacy in Britain it had never had before The first emancipation schemes were dependent on efforts to strengthen the role of the imperial state in an era of weakening overseas authority By looking at the initial public contest over slavery Brown connects disparate strands of the British Atlantic world and brings into focus shifting developments in British identity attitudes toward Africa definitions of imperial mission the rise of Anglican evangelicalism and Quaker activism Demonstrating how challenges to the slave system could serve as a mark of virtue rather than evidence of eccentricity Brown shows that the abolitionist movement derived its power from a profound yearning for moral worth in the aftermath of defeat and American independence Thus abolitionism proved to be a cause for the abolitionists themselves as much as for enslaved Africans **Pulpit, Press, and Politics** Scott McLaren,2019-11-15 When American Methodist preachers first arrived to Upper Canada they brought more than a contagious religious faith They also brought saddlebags stuffed with books published by the New York Methodist Book Concern North America's first denominational publisher to sell along their preaching circuits Pulpit Press and Politics traces the expansion of this remarkable transnational market from its earliest days to the mid nineteenth century during a period of intense religious struggle in Upper Canada marked by fiery revivals political betrayals and bitter church schisms The Methodist Book Concern occupied a central place in all this conflict as it powerfully shaped and subverted the religious and political identities of Canadian Methodists bankrolled the bulk of Methodist preaching and missionary activities enabled and constrained evangelistic efforts among the colony's Native groups and clouded Methodist dealings with the British Wesleyans and other religious competitors north of the border Even more importantly as Methodists went on to assume a preeminent place in the province's religious cultural and educational life their ongoing reliance on the Methodist Book Concern played a crucial part in opening the way for what would later become the lasting acceptance and widespread use of American books and periodicals across the province as a whole **The Business of Books** James Raven,University Lecturer in Modern History University of Oxford and Fellow James Raven,2007-08-22 In 1450 very few English men or women were personally familiar with a book by 1850 the great majority

of people daily encountered books magazines or newspapers This book explores the history of this fundamental transformation from the arrival of the printing press to the coming of steam James Raven presents a lively and original account of the English book trade and the printers booksellers and entrepreneurs who promoted its development Viewing print and book culture through the lens of commerce Raven offers a new interpretation of the genesis of literature and literary commerce in England He draws on extensive archival sources to reconstruct the successes and failures of those involved in the book trade a cast of heroes and heroines villains and rogues And through groundbreaking investigations of neglected aspects of book trade history Raven thoroughly revises our understanding of the massive popularization of the book and the dramatic expansion of its markets over the centuries *The Medical Trade Catalogue in Britain, 1870-1914*

Claire L. Jones,2016-08-05 By the late nineteenth century advances in medical knowledge technology and pharmaceuticals led to the development of a thriving commercial industry The medical trade catalogue became one of the most important means of promoting the latest tools and techniques to practitioners Drawing on over 400 catalogues produced between 1870 and 1914 Jones presents a study of the changing nature of medical professionalism She examines the use of the catalogue in connecting the previously separate worlds of medicine and commerce and discusses its importance to the study of print history more widely *Books between Europe and the Americas* L.
