FLORA OF MIDDLESEX A TOPOGRAPH Henry 1843-1896 Trimen, 2016-08-26 *Flora of Middlesex* Henry Trimen, William Turner Thiselton-Dyer, 1869 *Flora of Middlesex* Henry Trimen, 2016-10-19 Excerpt from *Flora of Middlesex A Topographical and Historical Account of the Plants Found in the County With Sketches of Its Physical Geography and Climate and of the Progress of Middlesex Botany During the Last Three Centuries* The object of this book is to give a complete and accurate catalogue of the plants which have at any time been recorded to grow in Middlesex either as natives or in a more or less completely naturalised state to indicate the special localities where they have been found and to trace the history of their discovery The existence of many of these is attested only by records in scarce or little known books or by the original specimens preserved in old collections As the amount of material relating to the subject is very large much of our work has consisted in collecting and reducing into order the widely scattered records and in this though we cannot hope to have avoided all error we hope that no blunders of magnitude have been committed or important facts overlooked About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Historical Flora of Middlesex / a Supplement to the Historical Flora of Middlesex](#) D.
