Woertendyke, 2016-06-02 In this broad ranging study Gretchen Woertendyke reconfigures US literary history as a product of hemispheric relations Hemispheric Regionalism Romance and the Geography of Genre brings together a rich archive of popular culture fugitive slave narratives advertisements political treatises and literature to construct a new literary history from a hemispheric and regional perspective At the center of this history is romance a popular and versatile literary genre uniquely capable of translating the threat posed by the Haitian Revolution or the expansionist possibilities of Cuban annexation for a rapidly increasing readership Through romance she traces imaginary and real circuits of exchange and remaps romance's position in nineteenth century life and letters as irreducible to nor fully mediated by a concept of nation The energies associated with Cuba and Haiti manifest destiny and apocalypse bring historical depth to an otherwise short national history As a result romance becomes remarkably influential in inculcating a sense of new world citizenry The study shifts our critical focus from novel and nation to romance and region inevitable she argues when we attend to the tangled messy relations across geographic and historical boundaries Woertendyke reads the archives of Gabriel Prosser Nat Turner and Denmark Vesey along with less frequently treated writers such as John Howison William Gilmore Simms and J H Ingraham The study provides a new context for understanding works by Washington Irving Edgar Allan Poe Herman Melville and James Fenimore Cooper and brings together the theories of Charles Brockden Brown the editorial work of Maturin M Ballou and the historical romances of Walter Scott In Hemispheric Regionalism Woertendyke demonstrates that US literature has always been the product of hemispheric and regional relations and that all forms of romance are central to this history *American Enchantment* Michelle Sizemore, 2018 American Enchantment presents a new understanding of the social order after the American Revolution one that enacts the concept of enchantment as a unique way of describing and coalescing popular power and social affiliation **Cultural Secrets as Narrative Form** Margaret K. Reid, 2004 Cultural Secrets as Narrative Form Storytelling in Nineteenth Century America examines the interplay between the familiar and the forgotten in tales of America's first century as a nation By studying both the common concerns and the rising tensions between the known and the unknown the told and the untold this book offers

readers new insight into the making of a nation through stories Here identity is built not so much through the winnowing competition of perspectives as through the cumulative layering of stories derived from sources as diverse as rumors circulating in early patriot newspapers and the highest achievements of aesthetic culture And yet this is not a source study the interaction of texts is reciprocal and the texts studied are not simply complementary but often jarring in their interrelations The result is a new model of just how some of America s central episodes of self definition the Puritan legacy the Revolutionary War and the Western frontier have achieved near mythic force in the national imagination The most powerful myths of national identity this author argues are not those that erase historical facts but those able to transform such facts into their own deep resources Book jacket
