Ashcraft, Eugene V. Gallagher, 2006-10-30 Most new or alternative religious are gravely

misunderstood by members of the religious mainstream Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large Despite their efforts at educating the general public the various anti and counter cult activists have in fact promoted much more mis understanding than accurate understanding of the religious lives of some of their fellow citizens Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream This set rectifies the situation by presenting accurate comprehensive authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context Determining what actually constitutes a new or alternative religion is a subject of constant debate Questions arise as to a new faith s legitimacy beliefs methods of conversion and other facets of a religious movement s viability and place in a given culture How a religion gains recognition by the mainstream which often labels such new movements as cults is fraught with difficulty tension and fear Here experts delineate the boundaries and examine the various groups beliefs movements and other issues related to new faiths and alternative beliefs Readers will come away with a fuller understanding of the religious landscape in America today Volume 1 History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved Volume 2 Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths Groups such as the Shakers the People s Temple the Branch Davidians Jehovah s Witnesses and others are examined Volume 3 Metaphysical New Age and Neopagan Movements looks at Shamanism Spiritualism Wicca and Paganism among other movements as they have developed and grown in the U S These faiths have found new and devoted followers yet are often misunderstood Volume 4 Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions From Baha i to Soka Gakkai from Adidam to the Vedanta Society contributors look at a full range of groups practicing and worshiping in the U S today Volume 5 African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism Santeria and the Nation of Islam alongside traditions that are truly American incarnations like Scientology UFO religions and Heaven s Gate Some of the new and alternative religions covered in these pages include Shamanism Wicca Black Israelites Santeria Scientology Elan Vital Hare Krishna Soka Gakkai and many more

this world and in the world beyond While maintaining a strong biblical orientation Schwarz draws on a wide range of resources including philosophy and the natural sciences in order to map out what it means to be human Schwarz's Human Being will interest anyone who is concerned with how in the face of fascinating scientific insights we can intelligently talk today about human sinfulness human freedom and human beings as children of the God who created us

Astrology is a major feature of contemporary popular culture Recent research indicates that 99% of adults in the modern west know their birth sign In the modern west astrology thrives as part of our culture despite being a pre Christian pre scientific world view Medieval and Renaissance Europe marked the high water mark for astrology It was a subject of high theological speculation was used to advise kings and popes and to arrange any activity from the beginning of battles to the most auspicious time to have one s hair cut Nicholas Campion examines the foundation of modern astrology in the medieval and Renaissance worlds Spanning the period between the collapse of classical astrology in the fifth century and the rise of popular astrology on the web in the twentieth Campion challenges the historical convention that astrology flourished only between the twelfth and seventeenth centuries Concluding with a discussion of astrology s popularity and appeal in the twenty first century Campion asks whether it should be seen as an integral part of modernity or as an element of the post modern world

interpreted in terms of nature worship this worldliness the valuing of the physical and multiple understandings of the sacred Like most religions pagan spirituality also entertains the experience of mystical ecstasy as an intense state of psycho spiritual consciousness that radically diverges from ordinary waking awareness This volume addresses two fundamental questions namely how do the world s religions understand the mystical and its pursuit and how and why does paganism offer something different Proverbially the mystical quest is an ultimate human endeavour The re emergence of pagan thought in contemporary times challenges the obsolete and unlocks both innovation and available forms of transpersonal emancipation

The A to Z of Shamanism Graham Harvey, Robert J. Wallis, 2010-04-01 Few religious traditions have generated such diversity and stirred imaginations as shamanism In their engagements with other worlds shamans have conversed with animals and ancestors and have been empowered with the knowledge to heal patients advise hunters and curse enemies Still other shamans aided by rhythmic music or powerful plant helpers undertake journeys into different realities where their actions negotiate harmony between human and other than human communities Once relegated to paintings on cave walls today Shamanism can be seen in performances at rave clubs and psychotherapeutic clinics The A to Z of Shamanism has the dual task of exploring the common ground of shamanic traditions and evaluating the diversity of both traditional indigenous communities and individual Western seekers This is done in an introduction a bibliography a chronology and hundreds of cross referenced dictionary entries which explore the consistent features of a variety of shamans the purposes shamanism serves the function and activities of the shaman and the cultural contexts in which they make sense Dark Aeon Joe Allen, 2023-08-29 Humanity Is Consumed by Relentless Transformation Like a thief in the night artificial intelligence has inserted itself into our lives It makes important decisions for us every day Often we barely notice As Joe Allen writes in this groundbreaking book Transhumanism is the great merger of humankind with the Machine At this stage in history it consists of billions using smartphones Going forward we ll be hardwiring our brains to artificial intelligence systems The world famous robot Sophia symbolizes a rising techno religion She takes her name from the goddess or Aeon whose fall from grace is described in the Gnostic Gospels With an academic background in both science and theology Allen confronts the paradox of what he calls good people constructing a digital abomination Dark Aeon is nothing less than a cri de coeur for humanity itself He takes us on a roller coaster ride through history and the emergence of Scientism and from government mandated mRNA vaccines to the weird visions of cyborg billionaires like Elon Musk From Silicon Valley to China these globalists visions of humanity s future exposed and described in Dark Aeon are dire and terrifying But Joe Allen argues that humanity s salvation is within our grasp Only if we refuse to avert our eyes from the impending twilight before us
