## **Historical Fundamentals And The Study Of Religions:**

*Historical Fundamentals and the Study of Religions* Kurt Rudolph, 1985 The scholarly tradition which the author represents sees the history of religions as a discipline historically grounded philologically informed and independent of the claims of the theology and philosophy of religion These latter claims in his view have served often to misdirect and confuse attempts to construct a truly scientific study of the history of religions The chief argument of these lectures emerges clearly in the three final lectures Religion in the singular is an abstraction of metaphysics or theology inherited from the age of Rationalism from German Idealism and Romanticism I think here especially of Hegel and Schleiermacher Thus religion is a loaded term and any historian who adopts it without testing is thereby dependent upon a philosophical or theological theory

*What is Religion?* Idinopulos, Brian C. Wilson, 2018-09-24 What is Religion consists of fourteen essays written by a selection of scholars who represent a wide spectrum of approaches to the academic study of religion Each of the essays is an effort not only to take stock of the present controversy concerning appropriate methodologies for the study of religion but also to take one giant step beyond that to formulate a precise definition of religion Given the considerable confusion today about what it is exactly that religious studies scholars take to be their subject matter when they presume to professionally teach about religion this volume provides a much needed forum for leading scholars to debate and clarify what professors of religious studies understand as the central object or objects under their scrutiny *NVMEN, the Academic Study of Religion, and the IAHR* Tim Jensen, Armin Geertz, 2015-11-24 Nvmnen publishes papers representing the most recent scholarship in all areas of the history of religions ranging from antiquity to contemporary history It covers a diversity of geographical regions and religions of the past as well as of the present The approach of the journal to the study of religion is strictly non confessional While the emphasis lies on empirical source based research typical contributions also address issues that have a wider historical or comparative significance for the advancement of the discipline Numen also publishes papers that discuss important theoretical innovations in the study of religion and reflective studies on the history of the discipline Brill is proud to present this special volume of articles compiled to celebrate the occasion of the 60th anniversary of NVMEN International Review for the History of Religions in 2014 The articles in this volume have been selected under the auspices of the International Association for the History of Religions IAHR and reflect critically on the past present and future of NVMEN the IAHR and the study of the History of Religions **Hermeneutics, Politics, and the History of Religions** Christian K. Wedemeyer, Wendy Doniger, 2010 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach's death and the centennial of Mircea Eliade's birth Its purpose is to reconsider both the problematic separate legacies of these two major twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach's death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people's minds as the successive leaders of the so called

Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through the essays collected here the relationship between the two men s writings and their lives and in Eliade s case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men s contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars legacies

**The Discipline of Religion** Russell T. McCutcheon,2003-12-08 The Discipline of Religion is a lively critical journey through religious studies today looking at its recent growth as an academic discipline and its contemporary political and social meanings Focusing on the differences between religious belief and academic religious discourse Russell T McCutcheon argues that the invention of religion as a discipline blurs the distinction between criticism and doctrine in its assertion of the relevance of faith as a credible object of study In the leap from disciplinary criticism to avowal of actual cosmic and moral meaning schools of religious studies extend their powers far beyond universities and into the everyday lives of those outside managing and curtailing specific types of speech and dissent

**Melancholy Duty** S.P. Foster,2013-03-09 This book studies the complementary features of the thought of David Hume and Edward Gibbon in the complete range of its confrontation with eighteenth century Christianity The ten chapters explore the

iconoclasm of these two philosophical historians Hume as the premier philosopher Gibbon as the consummate historian as they labored to naturalize the study of Christianity particularly with attention to its social and political dimensions No other work deals as comprehensively or thoroughly with the attempt of philosophical history's challenge to Christianity Belief in miracles and the afterlife the dimensions of fanaticism and superstition and the nature of religious persecution were the themes that occupied Hume and Gibbon in the making of their critique of Christianity This book makes a valuable contribution to scholarship in a number of fields including the history of ideas religious studies and philosophy It will be of interest to philosophers of religion historians of ideas eighteenth century intellectual historians scholars of the Scottish Enlightenment and Hume and Gibbon scholars

*Interreligious Comparisons in Religious Studies and Theology* Perry Schmidt-Leukel, Andreas Nehring, 2016-07-14 Can religions be compared For decades the discipline of religious studies was based on the assumption that they can Postmodern and postcolonial reflections however raised significant doubts In social and cultural studies the investigation of the particular often took precedence over a comparative perspective *Interreligious Comparisons in Religious Studies and Theology* questions whether religious studies can survive if it ceases to be comparative religion Can it do justice to a globalized world if it is limited on the specific and turns a blind eye on the general While comparative approaches have come under strong pressure in religious studies they have started flourishing in Theology Comparative theology practices interfaith dialogue by means of comparative research This volume asks whether theology and religious studies are able to mutually benefit from their critical and constructive reflections Can postcolonial criticism of neutrality and objectivity in religious studies create new links with the decidedly perspectival approach of comparative theology In this collection scholars from theology and religious studies discuss the methodology of interreligious comparison in the light of recent doubts and current objections Together with the contributors Perry Schmidt Leukel and Andreas Nehring argue that after decades of critique interreligious comparison deserves to be reconsidered reconstructed and reintroduced

[The Science of Religion: A Defence](#) Donald Wiebe, 2018-10-16 Donald Wiebe Professor

of Philosophy of Religion at Trinity College University of Toronto has spent much of his academic career arguing for a clear demarcation between Theology and Religious Studies. The Science of Religion: A Defence offers a brilliant overview of Professor Wiebe's contributions on methodology in the academic study of religion, of the development of his thinking over time, and of his intellectual commitment to a science of religion. The work is divided into three parts. The first part identifies pertinent connections between religion, religious studies, and science, and why reductionism in the academic study of religion, when properly applied, can bridge the explanatory gap between the sceptic and the devotee. The second part treats conceptual debates in the academic study of religion with particular reference to the place of belief, understanding, and meaning in the modern study of religion. The third part addresses the theological resistance to the scientific study of religion and how that resistance can be overcome. Finally, two new essays are included: a critique on The Preconceptions of a Science of Religion by Anthony J. Palma and an accompanying reply by Donald Wiebe. The Science of Religion: A Defence is an essential resource for both scholarly and non-scholarly audiences alike and will be of particular interest to both defenders and critics of a scientific study of religion.

Critics Not Caretakers Russell T. McCutcheon, 2023-11-30. The essays collected together in *Critics Not Caretakers* argue that the study of religion must be rethought as an ordinary aspect of social-historical existence, a stance that makes the scholar of religion a critic of cultural and historical practices rather than a caretaker of religious tradition or a font of timeless wisdom and deep meaning. The book begins with several essays that outline the basis of an alternative socio-rhetorical approach to studying religion, before moving on to a series of discrete dispatches from the ongoing theory wars, each of which uses the work of such writers as Karen Armstrong, Walter Burkert, Benson Saler, and Jacob Neusner as a point of entry into wider theoretical issues of importance to the field's future. The author then examines the socio-political role of this brand of critical scholarship, a role that differs dramatically from the type of sympathetic caretaking generally associated with scholars of religion who feel compelled to go public. Concluding the work is a consideration of how scholars as teachers can address issues of theory, method, and critical thinking in a variety of undergraduate classrooms, the location where they have always been publicly accountable intellectuals. The new edition of this still-read-and-for-some-controversial book preserves the original essays but includes a new opening chapter and new introductory commentaries across all of the chapters to demonstrate how little the field has changed since the volume was first published in 2001. Accordingly, the book continues to provide a viable alternative for those wanting to take a more critical approach to the study of religion.

**Die Religionswissenschaft und das Christentum** Hjelde, 2018-09-24. What are religious studies? What is theology? And what is their relationship to each other? In the light of such theoretical and methodological questions, this historical inquiry asks what characterizes the study of Christianity within comparative religion, as distinguished from that of Christian theology. In the three main sections of the book, representative texts from the history of comparative religion, including Schleiermacher and some other theological forerunners in the 19th century, are analyzed.

from a methodological and a material point of view On this basis an answer is sought to the following questions What has been the place of the study of Christianity within this discipline On which methodological principles has it been based And what kind of picture of Christianity has it presented
