science fiction alternate history means to illuminate the past to increase our understanding of past events however the postmodern approach to history typically suggests that such understanding is impossible To the postmodern philosopher history is like literature in that it does not offer the reader access to the past but only an interesting story Building on criticism that suggests personal psychological reasons for this obscuring the past and using a literary theory of readership this book challenges the postmodern approach to history It channels the speculative power of science fiction to read the works of postmodern philosophy of history as alternate histories themselves and to map the limits and pathology of their forgetful reading of the past

**Confessing History** John Fea, Jay Green, Eric Miller, 2010-11-15 At the end of his landmark 1994 book The Soul of the American University historian George Marsden asserted that religious faith does indeed have a place in today's academia Marsden's contention sparked a heated debate on the role of religious faith and intellectual scholarship in academic journals and in the mainstream media The contributors to Confessing History: Explorations in Christian Faith and the Historian's Vocation expand the discussion about religion's role in education and culture and examine what the relationship between faith and learning means for the academy today The contributors to Confessing History ask how the vocation of historian affects those who are also followers of Christ What implications do Christian faith and practice have for living out one's calling as an historian And to what extent does one's calling as a Christian disciple speak to the nature quality or goals of one's work as scholar teacher adviser writer community member or social commentator Written from several different theological and professional points of view the essays collected in this volume explore the vocation of the historian and its place in both the

personal and professional lives of Christian disciples      *'Behind' the Text: History and Biblical Interpretation*  
 Zondervan, 2011-04-19 Christianity believes in a God who acts in history The Bible tells us the story of God's actions in Israel culminating in the ministry of Jesus of Nazareth and the spreading of the gospel from Jerusalem to Rome The issue of history is thus unavoidable when it comes to reading the Bible Volume 4 of the Scripture and Hermeneutics Series looks at how history has dominated biblical studies under the guise of historical criticism This book explores ways in which different views of history influence interpretation It considers the implications of a theology of history for biblical exegesis and in several case studies it relates these insights to particular texts Few topics are more central to the task of biblical interpretation than history and few books open up the subject in so illuminating and thought provoking a manner as this splendid collection of essays and responses Hugh Williamson Regius Professor of Hebrew University of Oxford England breaks new ground in its interdisciplinary examination of the methodology presuppositions practices and purposes of biblical hermeneutics with a special emphasis on the relation of faith and history Eleonore Stump Robert J Henle Professor of Philosophy Saint Louis University United States This volume holds great promise for the full fledged academic recovery of the Bible as Scripture It embodies an unusual combination of world class scholarship historic Christian orthodoxy bold challenges to conventional wisdom and the launching of fresh new ideas Al Wolters Professor of Religion and Theology Redeemer University College Ontario Canada The essays presented here respect the need and fruitfulness of a critical historiography while beginning the much needed process of correcting the philosophical tenets underlying much modern and postmodern biblical research The result is a book that mediates a faith understanding both theoretical and practical of how to read the Bible authentically as a Christian today Francis Martin Chair Catholic Jewish Theological Studies John Paul II Cultural Center Washington D C Not only is history central to the biblical story but from a Christian perspective history revolves around Jesus Christ All roads of human activity before Christ lead up to him and all roads after Christ connect with him A concern with history and God's action in it is a central characteristic of the Bible The Bible furnishes us with an account of God's interactions with people and with the nation of Israel that stretches down the timeline from creation to the early church It tells us of real men women and children real circumstances and events real cultures places languages and worldviews And it shows us God at work in human affairs revealing his character and heart through his activities Behind the Text examines the correlation between history and the Bible For the scholar student and informed reader of the Bible this volume highlights the importance of history for biblical interpretation and looks at how history has and should influence interpretation      Narrating the Past A. Robinson, 2011-10-04 In recent years controversy has surrounded the narrative turn in history and the historical turn in fiction This book clarifies what is at stake tracing connections between historiography and life writing arguing that the challenges posed in representing the past illuminate issues which are central to all literary narrative      **The Nature of History Reader** Keith Jenkins, Alun Munslow, 2004 The question of what the nature of history is is a key issue for all students

of history It is recognized by many that the past and history are different phenomena and that the way the past is actively historicized can be highly problematic and contested *Alternate History* Kathleen Singles, 2013-10-14 While strictly speaking Alternate Histories are not Future Narratives their analysis can shed a clear light on why Future Narratives are so different from past narratives Trying to have it both ways most Alternate Histories subscribe to a conflicting set of beliefs concerning determinism and freedom of choice contingency and necessity For the very first time Alternate Histories are here discussed against the backdrop of their Other Future Narratives The volume contains in depth analyses of the classics of the genre such as Philip K Dick's *The Man in the High Castle* and Philip Roth's *The Plot against America* as well as less widely discussed manifestations of the genre such as Dieter K hn's *N* Christian Kracht's *Ich werde hier sein im Sonnenschein und im Schatten* and Quentin Tarantino's film *Inglourious Basterds* *At the Limits of History* Keith Jenkins, 2013-02-01 Why bother with history Keith Jenkins has an answer He helps us re think the end of history as signalled by postmodernity Readers may disagree with him but he never fails to provoke debate about the future of the past Joanna Bourke Professor of History Birkbeck College Keith Jenkins work on historical theory is renowned this collection presents the essential elements of his work over the last fifteen years Here we see Jenkins address the difficult and complex question of defining the limits of history The collection draws together the key pieces of his work in one handy volume encompassing the ever controversial issue of postmodernism and history questions on the end of history and radical history into the future Exchanges with Perez Zagorin and Michael Coleman further illuminate the level of debate that has surrounded postmodernism and which continues to do so An extended introduction and abstracts which contextualize each piece together with a foreword by Hayden White and an afterword by Alun Munslow make this collection essential reading for all those interested in the theory and practice of history and its development over the last few decades
