History From Things New Territories Relics Collection Campaign:

The Great Difference James Hayes, 2012-07-01 James Stewart Lockhart called it the great difference Returned from an inspection tour of the newly leased extension to Hong Kong territory in August 1898 Lockhart a senior Hong Kong colonial official had used this phrase to describe the gulf between the New Territories and its people and the existing British colony of Hong Kong and its inhabitants In this volume James Hayes argues that this the great difference led the colonial government to administer the New Territories and its people differently from the old urban area from the outset resulting in repercussions that affect present day Hong Kong The study covers the whole period of the Lease with all its crowded events and dramatic changes as they affected the native inhabitants and their relationship with the government and over time the many times larger new urban population James Hayes PhD Lond HonDLitt HK is a scholar of the Hong Kong region and its people He worked in the New Territories for almost half his thirty two years of government service and was Regional Secretary in charge of district administration there in 1985 87 His publications include *Friends and Teachers Hong Kong and Its People* 1953 87 Hong Kong University Press 1996 and *South China Village Culture* 2001 香港鄉村文化 Hong Kong. Patterson, 1974 Critical Issues in the History of Spaceflight Stephen J. Dick, Steven J. Dick, Roger D. Launius, 2006 In March 2005 the NASA History Division and the Division of Space History at the National Air and Space Museum brought together a distinguished group of scholars to consider the state of the discipline of space history This volume is a collection of essays based on those deliberations The meeting took place at a time of extraordinary transformation for NASA stemming from the new Vision of Space Exploration announced by President George W Bush in January 2004 to go to the Moon Mars and beyond This Vision in turn stemmed from a deep reevaluation of NASA's goals in the wake of the Space Shuttle Columbia accident and the recommendations of the Columbia Accident Investigation Board The new goals were seen as initiating a New Age of Exploration and were placed in the context of the importance of exploration and discovery to the American experiences Amazon **Critical issues in the history of spaceflight** Steven J. organized around four concepts of what a national museum of history can be a treasure house a shrine to the famous a palace of progress and a mirror of the nation Thus the museum collects cherished or precious objects houses celebrity memorabilia documents technological advances and reflects visitors own lives Taking examples from science and technology politics decorative arts military history ethnic heritage popular culture and everyday life the authors provide historical context for the work of the Smithsonian and shed new light on what is important and who is included in American history Throughout its history Lubar and Kendrick conclude the museum has played a vital role in both shaping and reflecting America s sense of itself as a nation **The Directory of Museums & Living Displays** Kenneth Hudson,Ann Nicholls,1985-06-18
