Faleer, 2009-04-07 Church Woodwork in the British Isles 1100 1535 An Annotated Bibliography is a thoroughly researched bibliographic guide to monographic serial archival and graphical resources that deal with all aspects of late Romanesque Gothic and early Renaissance ecclesiastical woodwork in churches throughout the United Kingdom and the Republic of Ireland Dealing with both the decorative and structural elements of wooden church furnishings fittings this authoritative reference tool includes more than 900 annotated citations for works published from the mid 19th century to the present The extensive and informative annotations provide a synopsis of each cited resource Resources are categorized in separate chapters by their specific location in the church their decorative features their structural function or other pertinent criteria This annotated bibliography represents the most comprehensive reference tool for material that deals with church woodwork that has yet been published      The Visual Object of Desire in Late Medieval England Sarah Stanbury, 2015-07-10 Little remains of the rich visual culture of late medieval English piety The century and a half leading up to the Reformation had seen an unparalleled growth of devotional arts as chapels parish churches and cathedrals came to be filled with images in stone wood alabaster glass embroidery and paint of newly personalized saints angels and the Holy Family But much of this fell victim to the Royal Injunctions of September 1538 when parish officials were ordered to remove images from their churches In this highly insightful book Sarah Stanbury explores the lost traffic in images in late medieval England and its impact on contemporary authors and artists For Chaucer Nicholas Love and Margery Kempe the image debate provides an urgent language for exploring the demands of a material devotional culture though these writers by no means agree on the ethics of those demands The chronicler Henry Knighton invoked a statue of St Katherine to illustrate a lurid story about image breaking Lollards Later John Capgrave wrote a long Katherine legend that comments through the drama of a saint in action on the powers and uses of religious images As Stanbury contends England in the late Middle Ages was keenly attuned to and troubled by its culture of the spectacle whether this spectacle took the form of a newly made queen in Chaucer's Clerk's Tale or of the animate Christ in Norwich Cathedral's Despensers Retable In picturing images and icons these texts were responding to reformist controversies as well as to the social and economic demands of things themselves the provocative objects that made up the fabric of ritual life      The History of Images and of Image-worship. Shewing the Original and Progress of Idolatry Among Pagans, Jews, and Christians: with a Refutation of the Second Council of Nice, and of Other Advocates for Idolatry James OWEN (Minister of the Gospel in Shrewsbury.), 1709      Interpreting the Landscape Michael Aston, 2002-09-11 Most places in Britain have had a local history written about them Up until this century these histories have addressed more parochial issues such as the life of the manor rather than explaining the features and changes in the

landscape in a factual manner Much of what is visible today in Britain's landscape is the result of a chain of social and natural processes and can be interpreted through fieldwork as well as from old maps and documents Michael Aston uses a wide range of source material to study the complex and dynamic history of the countryside illustrating his points with aerial photographs maps plans and charts He shows how to understand the surviving remains as well as offering his own explanations for how our landscape has evolved
