Facsimile reprint of the edition Shanghai Commercial Press 1934      Education and Democracy in China Zhou Ying,2023-12-11 In this book Ying Zhou argues that educational reform filled a critical role in bridging the precarious gap between democratic ideals and political realities in late Qing and Republican China where institutional change in education and the cultivation of a qualified citizenry were two sides of the same coin in the development of democratic education

Through a multi level analysis of the re arrangements of national education and teachings of citizenship Zhou unravels the complex political and educational nexus in China between 1901 1937 where the hope of education was to bring both political modernity and social progress      **China's Universities, 1895-1995** Ruth Hayhoe,2017-12-12 This reissue 1996 provides an in depth analysis of the development of the Chinese university during the twentieth century a period of momentous social economic cultural and political change It brings together reflections on the Chinese university and its role in the two great experiments of modern China Nationalist efforts to create a modern state as part of capitalist modernisation and the Communist project of socialist construction under Soviet tutelage In addition to these two frames of discourse other models and patterns are examined for instance the persistence of cultural patterns or Maoist revolutionary thought      *Radicalism and Education Reform in 20th-Century China* Suzanne Pepper,2000-07-10 The first comprehensive book to cover the whole sweep of twentieth century Chinese education      China's Education and the Industrialised World Ruth Hayhoe,Marianne Bastid,2017-12-12 This book first published in 1987 studies the practical and intellectual import of China s educational relations with the industrialised West the Soviet Union and Japan On the practical level it provides a broad historical and philosophical context within which the possibilities and dangers inherent in China s educational involvement with developed countries may be considered The book tests the theory that education transfers from the developed to the developing world have been used to consolidate political domination and economic exploitation by providing a detailed and provocative historical analysis of China s relations with the major developed nations      Contemporary Chinese Education Ruth Hayhoe,2019-08-01 Education is seen by the Chinese as a key element in the modernisation of their country and in maintaining socialism This book first published in 1984 examines the nature of modern education in China since 1976 and looks at different parts of the system the content of teaching and teaching styles It considers how far the Chinese educational system has been affected by foreign powers and changing political ideology and is unique in that using empirical data it places the Chinese system in a world perspective      **Globalization and the Rise of Mass Education** David Mitch,Gabriele

Cappelli,2019-10-24 This edited collection explores the historical determinants of the rise of mass schooling and human capital accumulation based on a global long run perspective focusing on a variety of countries in Europe the Middle East Asia Africa and the Americas The authors analyze the increasing importance attached to globalization as a factor in how social institutional and economic change shapes national and regional educational trends Although recent research in economic history has increasingly devoted more attention to global forces in shaping the institutions and fortunes of different world regions the link and contrast between national education policies and the forces of globalization remains largely under researched within the field The globalization of the world economy starting in the nineteenth century brought about important changes that affected school policy itself as well as the process of long term human capital accumulation Large migrations prompted brain drain and gain across countries alongside rapid transformations in the sectoral composition of the economy and demand for skills Ideas on education and schooling circulated more easily bringing about relevant changes in public policy while the changing political voice of winners and losers from globalization determined the path followed by public choice Similarly religion and the spread of missions came to play a crucial role for the rise of schooling globally

**Routledge Library Editions: Education in Asia** Various,2021-07-14 This set of reissued books examines education in Asia from a variety of different angles From the westernisation of early twentieth century Chinese education to the impact of the Communist revolution to education and society in Korea to Asian women s experiences of education this set collects some key texts by a range of original thinkers

The Rise and Fall of Fu Ren University, Beijing John S. Chen,2003-12-16 This new book tells the story of the rise and fall of Fu Ren University 1925 1952 and provides an analysis of a key Catholic higher education institution in China

**Education in the People's Republic of China, Past and Present** Franklin Parker,Betty June Parker,2017-12-12 The 3 053 entries in this work first published in 1986 comprise the compilers attempt at a comprehensive annotated bibliography of the most useful locatable books monographs pamphlets regularly and occasionally issued serials scholarly papers and selected newspaper accounts dealing in a significant way with formal and informal public and private education in the People s Republic of China before and since 1949

**The Jiangyin Mission Station** Lawrence D. Kessler,2018-06-15 Lawrence Kessler uses the Jiangyin mission station in the Shanghai region of China to explore Chinese American cultural interaction in the first half of the twentieth century He concludes that the Protestant missionary movement was welcomed by the Chinese not because of the religious message it spread but because of the secular benefits it provided Like other missions the Jiangyin Station which was sponsored by the First Presbyterian Church of Wilmington North Carolina combined evangelism with social welfare programs and enjoyed a respected position within the local community By 1930 the station supported a hospital and several schools and engaged in anti opium campaigns and local peacekeeping efforts In many ways however Christianity was a disruptive force in Chinese society and Kessler examines Chinese ambivalence toward the mission movement the relationship between missions and imperialism and Westerners response to Chinese nationalism

He also addresses the Jiangyin Station's close ties to and impact upon its supporting church in Wilmington     *China's Universities and the Open Door* Ruth Hayhoe, 2016-07-22 Recent events in Tianamen Square have made such books abruptly important though in some aspects outdated This one examines reforms in higher education from before the republic to March 1988 and focuses on educational and economic relations with groups outside China and the effect the reforms may     **P'eng P'ai and the Hai-Lu-feng Soviet** Fernando Galbiati, 1985 A Stanford University Press classic     **The Works of Hsüntze** Xunzi, 1928     The Secret History of Democracy Benjamin Isakhan, Stephen Stockwell, 2011-01-28 This book explores the intriguing idea that there is much more democracy in human history than is generally acknowledged It establishes that democracy was developing across greater Asia before classical Athens clung on during the Dark Ages often formed part of indigenous governance and is developing today in unexpected ways
