SECRET TIBET

In Secret Tibet

Richard Sauder

In Secret Tibet:

In Secret Tibet Theodore Illion, 1991-10 A reprint of a 1930s travel book Illion was a German traveller who not only spoke fluent Tibetan but travelled in disguise through forbidden Tibet when it was off limits to outsiders His incredible adventures make this one of the most exciting travel books Includes illustrations of Tibetan monks levitating stones by acoustics

Secret Tibet Fosco Maraini, 2000 Fosco Maraini visited Tibet in 1937 and again in 1948 In 1951 he published *Secret Tibet* an account that was a synthesis of the two journeys After an interval of close on 50 years he returned to the text to revise augment and update it in the light of the bruising historical realities of the Chinese occupation and the destruction of much of Tibet's cultural heritage particularly during the violence of the Cultural Revolution This book is not a guidebook the author's studies and journeys concentrated on the valleys and passes that bring travellers from India via Sikkim on their way to the forbidden city of Lhasa Maraini spent much time in villages and monasteries along the way at Gangtok Phari Iwang and Gyantse in particular Lhasa he never reached So how can he call his book *Secret Tibet* Because he arrived commanding a serviceable knowledge of the language and with no need for interpreters was able to make a warm and fulfilling human contact with men and women representing the very soul of the nation lamas scholars merchants herdsmen peasants children villains and even princesses Above all he penetrates the secrets that make Tibetan Buddhism not only the sheet anchor for the nation's sense of identity but indeed a religion and philosophy as intriguing as it is paradoxical In a closing chapter that briefly rehearses the history of Tibet Maraini considers the Chinese claims for annexing the country and dismantles them with lapidary authority The photographs taken by the author now stand in many instances as a unique record of religious artefacts irrecoverably destroyed

In Secret Tibet Theodore Illion, 1937

Technology of the Gods David Hatcher Childress, 2000 *Technology of the Gods* lays out the mind bending evidence that long lost civilizations had attained and even exceeded our modern level of advancement Westerners have been taught that humankind has progressed along a straight line path from the primitive past to the proficient present but the hard fast evidence literally written in stone proves that the ancients had technologies we cannot even replicate today

Photography and Tibet Clare Harris, 2016-11-15 Magnificent and mysterious Tibet has been a source of fascination for outsiders for centuries and its grand landscapes and vibrant culture have especially captivated photographers But the country is both geographically and politically challenging and access from the outside has never been easy With this book Clare Harris offers the first historical survey of photography in Tibet and the Himalayas telling the intriguing stories of both Tibetans and foreigners who have attempted to document the region's wonders on film Harris combines extensive research in museums and archives with her own fieldwork in Tibetan communities to present materials that have never been examined before including the earliest known photograph taken in Tibet dating to 1863 She looks at the

experimental camera work of Tibetan monks including the thirteenth Dalai Lama and the creations of contemporary Tibetan photographers and artists With every image she explores the complex religious political and cultural climate in which it was produced Stunningly illustrated this book will appeal to anyone interested in the dramatic history of Tibet since the mid nineteenth century and its unique entanglements with aesthetics and modernity **Lhasa** Robert Barnett,2010 There are many Lhasas One is a grid of uniform boulevards lined with plush hotels all night bars and blue glass fronted offices Another is a warren of alleyways that surround a seventh century temple built to pin down a supine demoness A web of Stalinist rectangular blocks houses the new nomenklatura Crumbling mansions once home to noble ministers famous lovers nationalist spies and covert revolutionaries now serve as shopping malls and faux antique hotels Each embodiment of the city partakes of the others memories whispered across time and along the city streets In this imaginative new work Robert Barnett offers a powerful and lyrical exploration of a city long idealized disregarded or misunderstood by outsiders Looking to its streets and stone Robert Barnett presents a searching and unforgettable portrait of Lhasa its history and its illegibility His book not only offers itself as a manual for thinking about contemporary Tibet but also questions our ways of thinking about foreign places Barnett juxtaposes contemporary accounts of Tibet architectural observations and descriptions by foreign observers to describe Lhasa and its current status as both an ancient city and a modern Chinese provincial capital His narrative reveals how historical layering popular memory symbolism and mythology constitute the story of a city Besides the ancient Buddhist temples and former picnic gardens of the Tibetan capital Lhasa describes the urban sprawl the harsh rectangular structures and the geometric blue glass tower blocks that speak of the anxieties of successive regimes intent upon improving on the past In Barnett s excavation of the city s past the buildings and the city streets interwoven with his own recollections of unrest and resistance recount the story of Tibet s complex transition from tradition to modernity and its painful history of foreign encounters and political experiment *Tayos Gold* Stan Hall,2007 In 1976 Scottish engineer Stan Hall organised a landmark expedition to the caves of the Tayos Indians in Ecuador involving a dozen institutions joint Special Forces and astronaut professor Neil Armstrong as Honorary President and participant Hall was driven by curiosity about Erich von Daniken s report of a Metal Library allegedly found in the caves by investigator Juan Moricz in the mid 1960s published in von Daniken s 1972 blockbuster *Gold of the Gods* This idea was considered unorthodox in the absence of any ancient written script in South America In Hall s odyssey into the heart of global enigmas he researches the origins of mankind Atlantis Ptolemy s lost city of Cattigara and the sudden rise and fall of wonder civilisations This journey ended with his identification of Atlantis and Cattigara and the entrance to the Metal Library along the Pastaza River in Ecuador Imagination action and danger combine explosively in the story of this spectacular British Ecuadorian expedition to the Tayos Caves of Ecuador The Round Towers of Atlantis Henry O'Brien,2002 This fascinating book first published in 1834 as *The Round Towers of Ireland or the Mysteries of Freemasonry of Sabaism and of Budhism* was an instant sensation at the time
