In Their Own Right:

In Her Own Right Elisabeth Griffith, 1985-11-21 The first comprehensive fully documented biography of the most important woman suffragist and feminist reformer in nineteenth century America In Her Own Right restores Elizabeth Cady Stanton to her true place in history Griffith emphasizes the significance of role models and female friendships in Stanton's progress toward personal and political independence In Her Own Right is in the author's words an unabashedly great woman biography Geography, Education and the Future Graham Butt, 2011-03-17 The Justice of the Peace, and Parish Officer .. status of human reasoning and one that grounds the translational character of human exchange throughout the early centuries and yet that simultaneously founds ubiquitous cultural differentiation The book constitutes therefore a refutation of the predominant tendency in the humanities to represent cultural difference as inhibiting the very possibility of effective intercultural translation It treats the factors of economic history as forms of cultural expression but determined in their turn by a continuum of complex societal formation from the very beginnings of intensive agricultural and social settlement It seeks to derive evidence for the universal foundations of human reasoning through analysis of the culture of commoditisation in marrying a thoroughgoing Kantian analysis with the historical evidence an approach aspiring to ground the very concept and possibility of a universal human cultural nature underlying all human differentiation **Married to the Job (RLE**

Feminist Theory) Janet Finch, 2012-11-12 *Married to the Job* examines an important but under researched area the relationships of wives to their husbands work Janet Finch looks both at the way women's lives are directly affected by the work their husbands do and how they can get drawn into it These she sees as the two sides of wives incorporation Dr Finch discusses a wide range of occupations from obvious stereotypes services diplomatic clergy and political wives to more subtle but equally valid shades of involvement the wives of policemen merchant seamen prison officers the owners of small businesses and academics She stresses that this process is by no means confined to the wives of professional men she argues that the nature of the work done and the way it is organised are more important pointers to the ways in which wives will be incorporated For specific illustrations Dr Finch draws substantially on her own original research on wives of the clergy *Married to the Job* clearly shows that marriage itself not just child bearing is an important feature of women's subordination Dr Finch points to the links between husband's work the family and its relationship to economic structures and suggests that wives are tied into those structures as much as anything through their vicarious involvement in their husband's work She views any prospects for change with caution The organisation of social and economic life makes it difficult for wives to break free from this incorporation even should they wish to it makes economic good sense for them to continue in most cases social life is organised so as to make compliance easy and it provides a comprehensible way of being a wife As an empirically based survey of women's subordination within marriage *Married to the Job* will prove essential reading to all those concerned about the position of women whether feminists academics or general readers It will also provide important background material for undergraduate courses on women's studies the sociology of the family the sociology of work and family policy Producing Feminism Jennifer S. Clark, 2024-02-27 The story of the U S women's movement and television in the 1970s has been told primarily in two often coordinating ways through feminist reform efforts that originated outside of the television industry and through feminist impact on on air representations of women *Producing Feminism* augments these accounts by exploring the effects of the women's movement on television production Centering women who worked in television across a variety of occupations including writers producers clerical staff researchers consultants hosts actors and commentators illustrates the

changes they brought to workplace dynamics and protocols and norms of making television. These workers' interventions demonstrate the need to look at work processes and experiential qualities of television workplaces along with onscreen representations that emerge from these sites of production to understand more fully how feminism affected television. Research conducted for *Producing Feminism* features archival research and interviews; these materials reveal feminist influences on television that were not always visible to the public nor manifested onscreen: the conditions of television workplaces and experiences of women working in television and the myriad strategies women workers used to reform the industry.

Commentaries on the Laws of England Sir William Blackstone, 1794 *Annual Report of the Secretary of the Treasury on the State of the Finances for the Year ...* United States.
