## **Franz Von Osterreich:**

**Austria 1867-1955** John W. Boyer, 2022-09-15 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legates of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance

**Embers of Empire** Paul Miller, Claire Morelon, 2018-11-29 The collapse of the Habsburg Monarchy at the end of World War I ushered in a period of radical change for East Central European political structures and national identities Yet this transformed landscape inevitably still bore the traces of its imperial past Breaking with traditional histories that take 1918 as a strict line of demarcation this collection focuses on the complexities that attended the transition from the Habsburg Empire to its successor states In so doing it produces new and more nuanced insights into the persistence and effectiveness of imperial institutions as well as the sources of instability in the newly formed nation states

**The Burgtheater and Austrian Identity** Robert Pyrah, 2017-12-02 The collapse of the Habsburg monarchy in 1918 galvanized discussion about national identity in the new Republic of Austria As Robert Pyrah shows in this thoroughly documented study the complex identity politics of interwar Austria were played out in the theatres of Vienna which enjoyed a cultural prominence rarely matched in other countries By 1934 productions across the city were being co opted to serve the newly patriotic cause of the Dollfuss and Schuschnigg regimes and the Burgtheater

once known as the first German stage had been transformed into a national theatre for Austria Using case studies of key productions and a wealth of previously unseen archival material Pyrah sheds new light on artistic and ideological developments throughout the period including the neglected earlier years He documents previously unexplored overlaps in the cultural programmes of Left and Right and unearths evidence that key institutions were subverted by the Right well before the suspension of parliamentary rule in 1933

**The Habsburgs** Benjamin Curtis, 2013-07-18 The Habsburgs rank among the most celebrated ruling dynasties in history At one point their territories stretched not only across Europe but across the globe into Asia Africa and the Americas By virtue of their long pre eminence the family made an indelible mark on European affairs shaping the course of international politics and diplomacy and knitting together the diverse peoples of Central Europe The story of the Habsburgs is theatrical and compelling but it is also vital for understanding how kings ruled nations rose and societies changed as modern Europe came into being In this book Benjamin Curtis explores both the Spanish and Austrian branches of the dynasty providing a concise comprehensive picture of the dynasty s development This study clearly demonstrates why the Habsburgs are considered the most consistently accomplished practitioners of European dynasticism

*The Afterlife of Austria-Hungary* Adam Kozuchowski, 2014-07-19 The assassination of Archduke Franz Ferdinand in 1914 was just one link in a chain of events leading to World War I and the downfall of the Austro Hungarian empire By 1918 after nearly four hundred years of rule the Habsburg monarchy was expunged in an instant of history Remarkably despite tales of decadence ethnic indifference and a failure to modernize the empire enjoyed a renewed popularity in interwar narratives Today it remains a crucial point of reference for Central European identity evoking nostalgia among the nations that once dismembered it The Afterlife of Austria Hungary examines histories journalism and literature in the period between world wars to expose both the positive and the negative treatment of the Habsburg monarchy following its dissolution and the powerful influence of fiction and memory over history Originally published in Polish Adam Kozuchowski s study analyzes the myriad factors that contributed to this phenomenon Chief among these were economic depression widespread authoritarianism on the continent and the painful rise of aggressive nationalism Many authors of these narratives were well known intellectuals who yearned for the high culture and peaceable kingdom of their personal memory Kozuchowski contrasts these imaginaries with the causal realities of the empire s failure He considers the aspirations of Czechs Poles Romanians Hungarians and Austrians and their quest for autonomy or domination over their neighbors coupled with the wave of nationalism spreading across Europe Kozuchowski then dissects the reign of the legendary Habsburg monarch Franz Joseph and the lasting perceptions that he inspired To Kozuchowski the interwar discourse was a reaction to the monumental change wrought by the dissolution of Austria Hungary and the fear of a history lost Those displaced at the empire s end attempted through collective and selective memory to reconstruct the vision of a once great multinational power It was an imaginary that would influence future histories of the empire and even became a

model for the European Union      **The Titled Nobility of Europe** ,1914      The Resistance in Austria Radomír Luža, Sites of Knowledge Julia Rüdiger,Dieter Schweizer,2015-03-13 Sites of Knowledge combines the history of the University of Vienna with the history of its buildings The evolution of one of Central Europes oldest universities is laid out in essays on the Alma Mater Rudolphina from the points of view of history of architecture and of art history of science and of the university This history sets off from the former Dukes College in Viennas inner city district of Stubenviertel and continues via the Palace of Knowledge on the Ringstrasse and the glass building Juridicum at Schottenbastei to more recent buildings erected in the Alsergrund district Each of these buildings represents its own era and at the same time constitutes a lasting expression of the way the university which is now the largest in the German speaking realm has actively shaped its own role

**Subject Index of the Modern Works Added to the Library of the British Museum in the Years ...** British Museum,1922      **Diplomacy and the Aristocracy as Patrons of Music and Theatre in the Europe of the Ancien Régime** Iskrena Yordanova,Francesco Cotticelli,2019-11-15 This volume explores the dense networks created by diplomatic relationships between European courts and aristocratic households in the early modern age with the emphasis on celebratory events and the circulation of theatrical plots and practitioners promoted by political and diplomatic connections The offices of plenipotentiary ministers were often outposts providing useful information about cultural life in foreign countries Sometimes the artistic strategies defined through the exchanges of couriers were destined to leave a legacy in the history of arts especially of music and theatre Ministers favored or promoted careers described or made pieces of repertoire available to new audiences and even supported practitioners in their difficult travels by planning profitable tours They stood behind extraordinary artists and protected many stage performers with their authority while carefully observing and transmitting precious information about the cultural and musical life of the countries where they resided      Forging a Multinational State John Deak,2015-09-23 The Habsburg Monarchy ruled over approximately one third of Europe for almost 150 years Previous books on the Habsburg Empire emphasize its slow decline in the face of the growth of neighboring nation states John Deak instead argues that the state was not in eternal decline but actively sought not only to adapt but also to modernize and build Deak has spent years mastering the structure and practices of the Austrian public administration and has immersed himself in the minutiae of its codes reforms political maneuverings and culture He demonstrates how an early modern empire made up of disparate lands connected solely by the feudal ties of a ruling family was transformed into a relatively unitary modern semi centralized bureaucratic continental empire This process was only derailed by the state of emergency that accompanied the First World War Consequently Deak provides the reader with a new appreciation for the evolving architecture of one of Europe s Great Powers in the long nineteenth century      *Ulrich Von Hutten* David Friedrich Strauss,1914      **The Western Codification of Criminal Law** Aniceto Masferrer,2018-03-09 This volume addresses an important historiographical gap by assessing the respective contributions of tradition and foreign influences to the 19th

century codification of criminal law More specifically it focuses on the extent of French influence among others in European and American civil law jurisdictions In this regard the book seeks to dispel a number of myths concerning the French model s actual influence on European and Latin American criminal codes The impact of the Napoleonic criminal code on other jurisdictions was real but the scope and extent of its influence were significantly less than has sometimes been claimed The overemphasis on French influence on other civil law jurisdictions is partly due to a fundamental assumption that modern criminal codes constituted a break with the past The question as to whether they truly broke with the past or were merely a degree of reform touches on a difficult issue namely the dichotomy between tradition and foreign influences in the codification of criminal law Scholarship has unfairly ignored this important subject an oversight that this book remedies
