Franz Sternbalds Wanderungen:

Franz Sternbalds Wanderungen Ludwig Tieck, *The Literature of German Romanticism* Dennis F. Mahoney, 2004
Sharply focused essays on the most significant aspects of German Romanticism This volume of sharply focused essays by an international team of scholars deals not only with the most significant literary philosophical and cultural aspects of German Romanticism one of the most influential albeit highly controversial movements in the history of German literature but also with the history and status of scholarship on the literature of the period The introduction and first section establish an overall framework by placing German Romanticism within a European context that includes its English counterpart Goethe and Schiller are considered as are the Jena Romantics The second section is organized according to the traditional distinctions between epic dramatic and lyric modes of writing while realizing that particularly in the Romantic novel there was an attempt to blend these three A final group of essays focuses on German literary Romanticism's relation to other aspects of German culture folklore studies politics psychology natural science gender presentation and representation music and visual art Contributors Gerhard Schulz Arnd Bohm Richard Littlejohns Gerhart Hoffmeister Ulrich Scheck Claudia Stockinger Bernadette Malinowski Fabian Lampart Klaus Peter Gabriele Rommel Martha B Helfer Kristina Muxfeldt Beate Allert Paul Bishop and R H Stephenson Nicholas Saul Dennis F Mahoney is Professor of German and Director of the European Studies Program at the University of Vermont *A Comparison Between Goethe's "Wilhelm Meisters Lehrjahre" and Tieck's "Franz Sternbalds Wanderungen"*. Samuel L. Hobday, 1954 **German Romantic Painting** William Vaughan, 1994-01-01 The early 19th century was a period in German art in which painting played a significant part in the cultural resurgence commonly known as the Romantic Movement This Movement and some of its chief exponents are examined against a background of German literature philosophy and music **The Functions of Landscape Description in Tieck's Franz Sternbalds Wanderungen** Edmund Joseph Stawiecki, 1940 *The Crises of "Language and Dead Signs" in Ludwig Tieck's Prose Fiction* William Crisman, 1996 Critical account of the works of Ludwig Tieck the German Romantic writer from a linguistic viewpoint Although twentieth century literary criticism has focused on language as a topic of discussion critical evaluations of Romanticism and Romantic writers rarely deal with it in terms derived from the philosophy of language This book evaluates the most prolific German Romanticist Ludwig Tieck 1773 1853 from such a linguistic viewpoint arguing that concerns in his work can be seen as forerunners of later language analysis from speech act theory to theories of reference It covers Tieck's whole career from his youth to his final novel *Vittoria Accorombona* providing a comprehensive analysis of this major author's work it will also be of interest to those interested in the linguistic aspects of Romanticism **Selected Writings: 1938-1940** Walter Benjamin, 1996 Comprising more than 65 pieces journal articles reviews extended essays sketches aphorisms and fragments this volume shows the range of Walter Benjamin's writing His topics here include poetry fiction drama history religion love violence morality and mythology *Ludwig Tieck* Dwight Klett, 2020-02-04 When originally

published in 1993 this was the first bibliography of the secondary literature on Tieck Given as much secondary literature surrounding Tieck's life and works has been generated outside of his native Germany as within this bibliography focuses particularly on his life and work from an international perspective In order to make the information surrounding Tieck accessible the book provides a detailed table of contents with corresponding text divisions rather than a subject index It therefore highlights Tieck's achievements in their various national contexts so that not only students of German can get an accurate feel for Tieck's versatility and range

Wanderer in 19th-century German Literature Andrew Cusack, 2008 Using a method based on New Historicism but with added emphasis on literature as cultural commentary Andrew Cusack's study traces the motif's intertextual connections how it receives meaning from non literary discourses and how it transmits meaning into the social sphere by molding individual and collective self conceptions The study draws on a corpus of ten prose narratives that reflect the vast scope of the motif and show how its function changes The study pays scrupulous attention to the historical specificity of each work and to its relationship to contemporary aesthetic and philosophical currents revealing the wanderer motif to be a significant vehicle of cultural memory that sustained the ideas of the Enlightenment and of Romanticism into the latter part of the century

BOOK JACKET **Encyclopedia of the Romantic Era, 1760-1850** Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism

Nuremberg Stephen Brockmann, 2006 Nuremberg The Imaginary Capital is a broad study of German cultural and intellectual history since 1500 with a particular emphasis on the period from 1800 to the present The book explores the ways in which Germans over the past two centuries have imagined Nuremberg as a cultural and spiritual capital focusing feelings of national identity and belonging on the city or on their Images of it Nuremberg The Imaginary Capital analyzes the way in which a particular city came to be seen in Germany and elsewhere as representative of the national whole The book goes beyond the analysis of particular historical periods by showing how successive epochs images of Nuremberg built on those preceding them thus German cultural and intellectual history is shown as an intelligible unity centered around fascination with and veneration for a particular city

Stages of European Romanticism Theodore Ziolkowski, 2018 Employs an innovative approach by stages to offer a unified vision of European Romanticism over the half century of its growth and decline Romanticism was a truly European phenomenon extending roughly from the French Revolution to the 1848 revolutions and embracing not only literature and drama but also music and visual arts Because of Romanticism's vast scope most treatments have restricted themselves to single countries or to specific forms notably literature art or music This book takes a wider view by considering

in each of six chapters representative examples of works from across Europe and across a range of the arts that were created in a single year For instance in the first chapter focusing on the year 1798 Beethoven s Path tique sonata Wordsworth and Coleridge s Lyrical Ballads Tieck s novel Franz Sternbalds Wanderungen and Goya s painting El sue o de la raz n The following chapters treat works from the years 1808 1818 1828 1838 and 1848 This approach by stages makes it possible to determine characteristics of six stages of Romanticism in its historical and intellectual context and to note the conspicuous differences between these stages as European Romanticism developed for example the waxing and waning of religious themes the shifting visions of landscape the gradual ironic detachment from early Romanticism In sum the volume offers a unified vision of European Romanticism in all its aesthetic forms over the half century of its growth and decline Theodore Ziolkowski is Professor Emeritus of German and Comparative Literature Princeton University *Comparative Romanticisms* Larry H. Peer, Diane Long Hoeveler, 1998 Essays on key aspects of Romanticism viewed in a wider European context

The Romantic Movement Alan Menhennet, 2018-10-24 First published in 1981 This study concentrates on the exponents of the central period of German Romanticism regarding as characteristic the mode in which the poet s self becomes active only in response to external stimuli most notably those of landscape The author traces the main strands of thought and interests that preoccupy Romantic writers the revolutionary attitude that is yet differentiated from that of writers like Byron by the lack of emphasis on individualism the dualism of the bourgeois world and the inner self the interest in language as an agency for the regeneration of the German spirit and the concentration on folk themes and the idea of Wanderung This title will be of interest to students of literature Private Lives in the Public Sphere Todd Kontje, 2010-11 Private Lives in the Public Sphere examines the Bildungsroman in the context of the rapid changes that affected the German literary revolution that made up for its belatedness in its rapidity and scope The nature and quantity of reading material produced the social status of the writer and the reading habits of the public changed dramatically within a few decades At the beginning of the century the new texts that appeared at the annual book fairs were primarily written in Latin and devoted to theology By the end of the century the number of new publications each year has increased almost exponentially with the novel leading the way This new institution of literature constituted an important part of what J instead it transforms reality and the Bildungsroman is the genre that examines this transformation Being Musically Attuned Erik Wallrup, 2016-04-15

Listening according to mood is likely to be what most people do when they listen to music We want to take part in or even be part of the emerging world of the musical work Using the sources of musical history and philosophy Erik Wallrup explores this extremely vague and elusive phenomenon which is held to be fundamental to musical hearing Wallrup unfolds the untold musical history of the German word for mood Stimmung which in the 19th century was abundant in the musical aesthetics of the German Austrian sphere Martin Heidegger s much discussed philosophy of Stimmung is introduced into the field of music

allowing Wallrup to realise fully the potential of the concept Mood in music or to be more precise musical attunement should not be seen as a peculiar kind of emotionality but that which constitutes fundamentally the relationship between listener and music Exploring mood or attunement is indispensable for a thorough understanding of the act of listening to music

Challenging Separate Spheres Marjanne Elaine Goozé, 2007 This collection of essays centers on women writers who negotiated interrogated and challenged the gender ideology of separate spheres through their advocacy and representations of female Bildung The term Bildung encompasses an individual's entire moral spiritual behavioral emotional political and intellectual development The contributors analyze works of fiction memoirs autobiographies letters the periodical press and conduct and cookbooks from the mid 1700s to circa 1900 that confront the separate spheres paradigm and promote women's educational and personal development They examine women's writing and reading practices moral and gender philosophies political activism and work from the home to the stage and factory Most writers did not repudiate outright existing gender models but both subtly and overtly subverted and reinterpreted them In all the texts the process of female education leads to an assertion of agency The writers came from different social classes and professional backgrounds ranging from noblewomen to working class autobiographers of the later nineteenth century This volume will be of interest to German cultural literary and historical scholars as well as to those concerned with the development of European feminism women's education and autobiography

Performing Knowledge, 1750-1850 Mary Helen Dupree, Sean B. Franzel, 2015-07-31 The period between 1750 and 1850 was a time when knowledge and its modes of transmission were reconsidered and reworked in fundamental ways Social and political transformations such as the French Revolution and the Industrial Revolution went hand in hand with in new ways of viewing sensing and experiencing what was perceived to be a rapidly changing world This volume brings together a range of essays that explore the performance of knowledge in the period from 1750 to 1850 in the broadest possible sense The essays explore a wide variety of literary theatrical and scientific events staged during this period including scientific demonstrations philosophical lectures theatrical performances stage design botany primers musical publications staged Schiller memorials acoustic performances and literary declamations These events served as vital conduits for the larger process of generating differentiating and circulating knowledge By unpacking the significance of performance and performativity for the creation and circulation of knowledge in Germany during this period the volume makes an important contribution to interdisciplinary German cultural studies performance studies and the history of knowledge

A Companion to European Romanticism Michael Ferber, 2008-04-15 This companion is the first book of its kind to focus on the whole of European Romanticism Describes the way in which the Romantic Movement swept across Europe in the early nineteenth century Covers the national literatures of France Germany Italy Poland Russia and Spain Addresses common themes that cross national borders such as orientalism Napoleon night nature and the prestige of the fragment Includes cross disciplinary essays on literature and music literature and painting and the general system of
