Dippie, 1994 From reviews of the first edition Richly illustrated this handsome volume presents the rugged beauty and rowdy spirit of life on the frontier as captured by two master painters Art Gallery International large color plates beautifully reproduce dashing romantic scenes of frontier life created by two of the West's foremost portrayers American West The many devotees of Remington and Russell and of Western art in general will want to add this handsome volume to their collection Arizona Highways the University of Texas Press as one would expect has produced a beautiful book Montana Since its original publication in 1982 Remington and Russell has become an essential introduction to the work of these artists and this revision substantially enhances the book's strengths Every painting in the Sid Richardson Collection has been rephotographed for this edition including one Russell and five Remington paintings not included previously Numerous black and white illustrations

have also been added to give insight into the evolution of the paintings Brian Dippie has considerably amplified his commentaries on each painting with new information His revised introduction places Remington and Russell in the historical and cultural contexts of their time and draws intriguing comparisons between the two artists *Frederic Remington* Melissa J. Webster, 1986 **Frederic Remington** Rick Stewart, 1992 **Rest in Peace** Gary Laderman, 2003 Drawing upon interviews with funeral directors major historical events like the funerals of John F Kennedy and Rudolf Valentino films television newspaper reports and other primary sources *Rest in Peace* cuts through the rhetoric to show the reality of the American funeral *Nocturne* Hélène Valance, 2018-06-12 A beautifully illustrated look at the vogue for night landscapes amid the social political and technological changes of modern America The turn of the 20th century witnessed a surge in the creation and popularity of nocturnes and night landscapes in American art In this original and thought provoking book Hélène Valance investigates why artists and viewers of the era were so captivated by the night *Nocturne* examines works by artists such as James McNeill Whistler Childe Hassam Winslow Homer Frederic Remington Edward Steichen and Henry Ossawa Tanner through the lens of the scientific developments and social issues that dominated the period Valance argues that the success of the genre is connected to the resonance between the night and the many forces that affected the era including technological advances that expanded the realm of the visible such as electric lighting and photography Jim Crow era race relations America's closing frontier and imperialism abroad and growing anxiety about identity and social values amid rapid urbanization This absorbing study features 150 illustrations encompassing paintings photographs prints scientific illustration advertising and popular media to explore the predilection for night imagery as a sign of the times *Frederic Remington and the North Country* Atwood Manley, Margaret Manley Mangum, 1988 Two North Country scholars reveal how the world of River and Woods from the Northern Adirondacks to the Canadian border nurtured Frederic Remington during his 48 hard lived years The authors had access to his wife's diaries Photos *Inventing Modern* John H. Lienhard, 2003-09-18 Modern is a word much used but hard to pin down In *Inventing Modern* John H Lienhard uses that word to capture the furious rush of newness in the first half of 20th century America An unexpected world emerges from under the more familiar Modern Beyond the airplanes radios art deco skyscrapers Fritz Lang's *Metropolis* Buck Rogers the culture of the open road *Burma Shave* Kerouac and White Castles lie driving forces that set this account of Modern apart One force says Lienhard was a new concept of boyhood the risk taking hands on savage inventor Driven by an admiration of recklessness America developed its technological empire with stunning speed Bringing the airplane to fruition in so short a time for example were people such as Katherine Stinson Lincoln Beachey Amelia Earhart and Charles Lindbergh The rediscovery of mystery powerfully drove Modern as well X Rays quantum mechanics and relativity theory had followed electricity and radium Here we read how with reality seemingly altered hope seemed limitless Lienhard blends these forces with his childhood in the brave new world The result is perceptive engaging and filled with surprise Whether he talks about Alexander Calder an engineer whose sculptures

were exercises in materials science or that wacky paean to flight Flying Down to Rio unexpected detail emerges from every tile of this large mosaic Inventing Modern is a personal book that displays rather than defines an age that ended before most of us were born It is an engineer's homage to a time before the bomb and our terrible loss of confidence a time that might yet rise again out of its own postmodern ashes *Farewell to the Horse: A Cultural History* Ulrich Raulff, 2018-02-13 A surprising lively and erudite history of horse and man for readers of *The Invention of Nature* and *The Soul of an Octopus* Horses and humans share an ancient profoundly complex relationship Once our most indispensable companions horses were for millennia essential in helping build our cities farms and industries But during the twentieth century in an increasingly mechanized society they began to disappear from human history In this esoteric and rich tribute award winning historian Ulrich Raulff chronicles the dramatic story of this most spectacular creature thoroughly examining how they've been muses and brothers in arms neglected and sacrificed in war yet memorialized in paintings sculpture and novels and ultimately marginalized on racetracks and in pony clubs Elegiac and absorbing *Farewell to the Horse* paints a stunning panorama of a world shaped by hooves and the imprint left on humankind A beautiful and thoughtful exploration *Farewell to the Horse* is a grown up but also lyrical and creative history book and I very much enjoyed it James Rebanks author of the New York Times bestseller *The Shepherd's Life* *Frederic Remington, Artist of the Old West* Harold McCracken, 1947 *THE CALL OF THE WILD WEST - Ultimate Western Collection: 175+ Novels & Short Stories in One Volume* Mark Twain, James Fenimore Cooper, Max Brand, James Oliver Curwood, B.
