Frederick Denison Maurice Rebellious Conformist 1805 1872:

F. D. Maurice and Unitarianism David Young, 1992 F D Maurice 1805 72 was one of Victorian Britain's most controversial thinkers. Although he came from a Unitarian family and counted leading Unitarians as his friends, their influence on his work has never been seriously examined. The purpose of this new book is to look at his life and teaching in the light of Unitarianism. Maurice's faith had a distinctly Christological emphasis but he continued to value his Unitarian heritage. His concern with the Fatherhood of God and the dignity of the human race owes much to his family background. Dr Young's study opens with a compact history of Unitarianism during the lives of F D Maurice and his father, a Unitarian minister. A series of biographical sketches draws on hitherto unpublished material to set Maurice's work in its historical context. The final chapters compare the central themes of his theology with the teaching of his Unitarian contemporaries.

Huxley's Church and Maxwell's Demon Matthew Stanley, 2014-11-24 During the Victorian period the practice of science shifted from a religious context to a naturalistic one. It is generally assumed that this shift occurred because naturalistic science was distinct from and superior to theistic science. Yet as Huxley's Church and Maxwell's Demon reveals, most of the methodological values underlying scientific practice were virtually identical for the theists and the naturalists. Each agreed on the importance of the uniformity of natural laws, the use of hypothesis and theory, the moral value of science and intellectual freedom. But if scientific naturalism did not rise to dominance because of its methodological superiority, then how did it triumph? Matthew Stanley explores the overlap and shift between theistic and naturalistic science through a parallel study of two major scientific figures: James Clerk Maxwell, a devout Christian physicist, and Thomas Henry Huxley, the iconoclast biologist who coined the word agnostic. Both were deeply engaged in the methodological, institutional, and political issues that were crucial to the theistic/naturalistic transformation. What Stanley's analysis of these figures reveals is that the scientific naturalists executed a number of strategies over a generation to gain control of the institutions of scientific education and to reimagine the history of their discipline. Rather than a sudden revolution, the similarity between theistic and naturalistic science allowed for a relatively smooth transition in practice from the old guard to the new.

Social Democracy in the Making Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world's leading intellectual historians and social ethicists. The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism: a democracy in which the people control the economy and government, no group dominates any other, and every citizen is free, equal, and included. With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany, this book traces the story of democratic socialism from its birth in the nineteenth century through the mid 1960s. Examining the tenets on which the movement was founded and how it adapted to different cultural, religious, and economic contexts from its beginnings through the social and political traumas of the twentieth century, Gary Dorrien reminds us that Christian socialism paved the way for all liberation.

This book is an enlarged version of the author s Hulsean Lectures in the University of Cambridge for 1983 4 It considers the main movements in the theology of baptism both that of infants and believers in Great Britain from the Evangelical Revival to the publication of the World Council of Churches Faith and Order Commission s consensus statement on Baptism Eucharist and Ministry of 1982 Thus as well as the shifts in the Church of England from evangelical to tractarian broad church to liberal catholic there is a survey of the views of Methodists Baptists and Congregationalists with reflections from the scene in Scotland and Ireland during the same period It offers a survey of popular belief and practice about baptism from the eighteenth century to the present because of the author s conviction that theological movements have to be seen in their historical context In the case of baptism in particular a consistent difference has persisted between popular perceptions and the Churches expectations which poses significant challenges to the understanding of the Churches mission in contemporary society *Laws of the Spiritual Order* Don
