**Encompassing Gender** Mary M. Lay, Janice J. Monk, Deborah Rosenfelt, 2002 From Beijing to Seattle women's movements within academe and in local global communities are growing at an unprecedented rate raising pointed questions about paradigms of Western feminism development global trade and scholarship Despite this growing visibility the perspectives of far too many women especially from the Global South are still excluded from mainstream U S scholarship Presented with the task of preparing students for life in this new and rapidly shrinking world many scholars have found themselves overwhelmed by the need to cross disciplinary and geographic borders But some faculty are leading the way often in defiance of academic traditions and prejudices to a curriculum that reflects consequences of globalization Encompassing Gender is the long awaited anthology of more than 40 essays by 60 scholars many of them working in curriculum transformation groups that cut across the humanities the sciences and the social sciences all of them committed to an interdisciplinary approach to internationalizing the curriculum *Internal Revenue Bulletin* United States. Yacek, 2018-07-11 Nietzsche's Philosophy of Education makes the case that Nietzsche's philosophy has significant import for the theory and contemporary practice of education arguing that some of Nietzsche's most important ideas have been misunderstood by previous interpreters In providing novel reinterpretations of Nietzsche's ethical theory political philosophy and philosophical anthropology and outlining concrete ways in which these ideas can enrich teaching and learning in modern democratic schools the book sets itself apart from previous works on Nietzsche This is one of the first extended engagements with Nietzsche's philosophy which attempts to determine his true legacy for democratic education In its engagement with both the vast secondary literature on Nietzsche's philosophy and the educational implications of his philosophical vision this book makes a unique contribution to both the philosophy of education and Nietzsche scholarship In addition its development of four concrete pedagogical approaches from Nietzsche's educational ideas makes the book a potentially helpful guide to meeting the practical challenges of contemporary teaching This book will be of great interest to Nietzsche scholars researchers in the philosophy of education and students studying educational foundations **Religion and Architecture in Premodern Indonesia** G. Domenig, 2014-04-03 In his richly illustrated Religion and Architecture in Premodern Indonesia Gaudenz Domenig investigates the nature of Indonesian ethnic religions by focusing on land opening rituals sacred groves and architectural responses to the custom of presenting offerings Since deities and spirits were supposed to taste offerings

on the spot it was a task of architecture to attract them and to guide them into houses where offerings were presented Domenig quotes numerous sources to show that certain material elements of the house were viewed as spirit attractors spirit ladders or spirit pathways Various exotic features of Indonesian vernacular architecture thus become understandable as relics from times when architecture was still responding to indigenous religions practised in the archipelago

**Beneath the Volcano** Gregory L. Forth, 2021-08-16 Beneath the Volcano is the first major account of the Nage who inhabit the central part of Flores in eastern Indonesia The book focuses on Nage ideas concerning a variety of spiritual beings and how these influence both ritual practices and ideas about human beings In exploring these subjects the author sets out to uncover a classification of spirits While quite different from taxonomies of natural beings Nage ways of linking named categories of spirits nevertheless reveal a regular conceptual order In describing this order use is made of a version of Dumont's notion of encompassment Common ideas informing relations between Nage humans and several categories of spirits are further interpreted as instances of a pervasive principle of symmetric inversion according to which human beings are spirits for the spirits
