Paul Cobben, 2015-05-26 Marx's analysis of the commodity results in his conception of Capital as substance in the form of alienation While Hegel claims that substance can be understood as the realization of freedom Marx shows this freedom to be alienated labor abstract labor which Marx identifies as the capitalist conception of value The book clarifies why Marx's so called materialist criticism of Hegel can be conceived of as an immanent criticism of Hegel Marx's criticism explicates that the realization of freedom in the Philosophy of Right contradicts Hegel's basic point of departure The adequate realization of

freedom not only leads to an alternative non alienated conception of value but also explains why this conception of value is fully compatible with the free market      **The Public** ,1914      **Rethinking Positive and Negative Liberty** Maria

Dimova-Cookson,2019-09-04 This book argues that the distinction between positive and negative freedom remains highly pertinent today despite having fallen out of fashion in the late twentieth century It proposes a new reading of this distinction for the twenty first century building on the work of Constant Green and Berlin who led the historical development of these ideas The author defends the idea that freedom is a dynamic interaction between two inseparable yet sometimes fundamentally opposed positive and negative concepts the yin and yang of freedom Positive freedom is achieved when one succeeds in doing what is right while negative freedom is achieved when one is able to advance one s wellbeing In an environment of culture wars resurging populism and challenge to progressive liberal values recognising the duality of freedom can help us better understand the political dilemmas we face and point the way forward The book analyses the duality of freedom in more philosophical depth than previous studies and places it within the context of both historical and contemporary political thinking It will be of interest to students and scholars of liberalism and political theory      **The**

**Universalist Leader** ,1924 Sovereignty of God Arthur W. Pink,2008-08 Pink d 1953 is noted for his independent thinking He was so well read and had such a photographic memory that he could give you the page and column in a host of reference works and commentaries This book shocked the Christian world in 1919 when he published it He fiercely defends the sovereignty of God and all the cognate doctrines such as the Doctrines of Grace It is THE book to give to those just after conversion and a prime book to give to anyone who defends the free will of man Pink was a Baptist preacher who held pulpits in England America and Australia His early training was in scientology His conversion was instant and complete dedication to the cause of God and truth quickly became evident This early book by Pink lays Scripture end to end to prove God s control over all persons and events It is uncompromising and as such it raises the hackles on the necks of many new students of this doctrine Persons who knew Pink seldom objected to anything he taught because he could literally quote hundreds of verses of Scripture verbatim on the subject under discussion This book may be overwhelming but it is certain that its many printings have been used of God to convince people of His sovereignty The Banner of Truth has an edition of this book but they have abridged their edition by deleting the chapter on Reprobation If Pink were still alive he certainly would not have allowed this misrepresentation of his doctrinal belief that God both elects and reprobates as Romans 9 21 23 clearly teaches It is an important stone to guide the steps of those who are not yet convinced of God s absolute sovereignty over all persons and events
