*Luke's Christology of Divine Identity* Nina Henrichs-Tarasenkova, 2015-11-19 Henrichs Tarasenkova argues against a long tradition of scholars about how best to represent Luke's Christology. When read against the backdrop of ancient ways of constructing personal identity, key texts in the Lukan narrative demonstrate that Luke indirectly characterizes Jesus as the one God of Israel together with YHWH. Henrichs Tarasenkova employs a narrative approach that takes into consideration recent studies of narrative and history and enables her to construct characters of YHWH and Jesus within the Lukan narrative. She employs Richard Bauckham's concept of divine identity that she evaluates against her study of how one might speak of personal identity in the Greco-Roman world. She engages in close reading of key texts to demonstrate how Luke speaks of YHWH as God in order to demonstrate that Luke Acts upholds a traditional Jewish view that only the God of Israel is the one living God and to eliminate false expectations for how Luke should speak of Jesus as God. This analysis establishes how Luke binds Jesus' identity to the divine identity of YHWH and concludes that the Lukan narrative in fact does portray Jesus as God when it shows that Jesus shares YHWH's divine identity.

*A Companion to Global Historical Thought* Prasenjit Duara, Viren Murthy, Andrew Sartori, 2014-01-21 *A COMPANION TO GLOBAL HISTORICAL THOUGHT* A Companion to Global Historical Thought provides an overview of the development of historical thinking from the earliest times to the present, directly addressing issues of historiography in a globalized context. Questions concerning the global dissemination of historical writing and the relationship between historiography and other ways of representing the past have become important not only in the academic study of history but also in public arenas in many countries. With contributions from leading international scholars, the book considers the problem of the global in the multiplicity of traditions of narrating the past in the global dissemination of modern historical writing and of the global as a concept animating historical imaginations. It explores the different intellectual approaches that have shaped the discipline of history and the challenges posed by modernity and globalization while illustrating the shifts in thinking about time and the emergence of historical thought. Complementing *A Companion to Western Historical Thought*, this book places non-Western perspectives on historiography at the center of discussion, helping scholars and students alike make sense of the discipline at the start of the twenty-first century.

*Machiavelli and Empire* Mikael Hörnqvist, 2004-11-25 Mikael Hörnqvist challenges us to rethink the overall meaning and importance of Machiavelli's political thinking. *Machiavelli and Empire* combines close textual analysis of *The Prince* and *The Discourses* with a broad historical approach to establish the importance of empire building and imperial strategy in Machiavelli's thought. The primary context of Machiavelli's work, Hörnqvist argues, is not the mirror for princes genre or medieval and Renaissance republicanism in general but a tradition of Florentine imperialist republicanism dating back to the late thirteenth century, based on the twin notions of liberty at home and empire abroad. Weaving together themes and topics drawn from contemporary Florentine political debate, Medicean ritual, and Renaissance triumphalism, this study explores how Machiavelli in his chancery writings and theoretical works promoted the long-standing aspirations of Florence.

to become a great and expanding empire modelled on the example of the ancient Roman republic This is a distinctive and important work *The Stone-Campbell Movement* D. Newell Williams, Douglas Allen Foster, Paul M. Blowers, 2013-03-30 The Stone Campbell Movement A Global History tells the story of Christians from around the globe and across time who have sought to witness faithfully to the gospel of reconciliation Transcending theological differences by drawing from all the major streams of the movement this foundational book documents the movement's humble beginnings on the American frontier and growth into international churches of the twenty first century History Jörn Rüsen, 2005-01-01 Without denying the importance of the postmodernist approach to the narrative form and rhetorical strategies of historiography the author one of Germany's most prominent cultural historians argues here in favor of reason and methodical rationality in history He presents a broad variety of aspects factors and developments of historical thinking from the 18th century to the present thus continuing in exemplary fashion the tradition of critical self reflection in the humanities and looking at historical studies as an important factor of cultural orientation in practical life We Are Who We Think We Were Aaron D. Conley, 2013-08-01 Conley calls into question the outdated historical methodologies in use in Christian social ethics and outlines the consequences stemming from them By adopting the postmodern post structuralist position of historian Elizabeth Clark Conley calls ethicists to learn to read for the gaps silences and aporias existent in historical texts as well as in the histories represented by them The book calls ethicists to a critical self reflexive historiography This self criticism allows the ability to construct new histories and formulate new ethical norms for the world in which we now live **Reforming Memory** Robert Vosloo, 2017-10-12 Although we should acknowledge the fragility of memory we should nevertheless affirm the remarkable ability of memory to reform and transform our identity Our memories and ways of remembering are however often marked by trauma and violence Memory therefore not merely reforms it too is in need of reformation redemption and transformation With this emphasis in mind Reforming Memory grapples with the question what a responsible engagement with the past entails also for Christians and churches associated with the Reformed tradition The history of Reformed churches in South Africa is one can argue a deeply divided and ambivalent one The same figures are heroes to some and villains to others historic events are deeply ambiguous and conflicting views surround different discourses Yet the histories and perhaps futures of these churches and traditions are inextricably interwoven Reforming Memory fundamentally combines an interest in the notion of e memorye with an interest in South African Reformed theology and history Central is the question how should we remember and represent the past responsibly The essays collected in this book engage in different ways with this question attending in the process to some episodes in the history of the Dutch Reformed Church some influential Reformed theologians and some important Reformed practices and confessional documents A Manual for Writers of Research Papers, Theses, and Dissertations, Ninth Edition Kate L. Turabian, 2018-04-27 When Kate L Turabian first put her famous guidelines to paper she could hardly have imagined the world in which today's students would be conducting research Yet

**Paths to Modernity** Magnus Jerneck, 2005-01-01 Over the last 100 years most European countries have experienced great and in many cases similar changes A general term for the phenomenon is modernisation and in this anthology the authors present several different aspects of modernisation and the modernisation revolution Among other issues the articles are based on the importance of industrialisation education and economic development for the success of modernisation Spain Sweden and Denmark have been used as starting points to illustrate differences in the modernisation process between northern and southern Europe

**Sit At My Right Hand'** Benjamin D. Giffone, 2016-10-20 Benjamin is portrayed in Chronicles differently from how he is portrayed in the Deuteronomic History In the latter Benjamin's relation to Judah is shown as varied and complex incorporating both highs and lows The Chronicler by contrast smooths over these difficulties by emphasizing the historically close relationship between the two tribes Benjamin D Giffone sees in this evidence that the Judah Benjamin relationship reflects the socio political situation of late Persian Yehud in which the relatively poor Jerusalem cult struggled to maintain material support from landed nobility in the region Material evidence shows that the historically Benjaminite regions prospered during the Neo Babylonian and early Persian periods The Jerusalem cult competed with cultic locations known for their alliances with either Benjamin or Joseph for the support of wealthier landowners It is within the context of this struggle for support that the Chronicler rewrote Israel's narrative partly to garner Benjaminite support Giffone synthesizes observations that are literary and historical to reveal a literary phenomenon the differing portraits of Benjamin and situate this within the historical context of Persian Yehud In so doing Giffone offers a new understanding of Yehud during this period and elaborates an important motif in these two sections of the Hebrew Bible
