*Stationery Trades' Journal*, 1874      **British Books**, 1898      **Atonement Theories** Ben Pugh, 2015-02-26 With the subject  
of the atonement of Christ attracting such a lot of polemical work at this time it is easy to conclude that the current debate is  
generating more heat than light Atonement Theories presents the beginning student pastor or researcher with an accessible  
and fair treatment of every school of thought on this subject Atonement Theories significantly updates previous histories of  
the doctrine providing analysis of some fascinating and highly significant recent developments It also intriguingly highlights  
at various points where aspects of this central message of Christianity might find a connection within contemporary culture It  
aims to empower the reader to quickly gain a working knowledge of current debates and the history behind them

second century theology Ancient Apologetic Exegesis examines the work of Saint Theophilus of Antioch with a full  
understanding of the man and his times The second century is often dismissed by theologians despite a near living memory of  
Jesus and his apostles from only a generation or two prior but Stuart E Parsons shows that a distinctive biblical exegesis was  
used by those second century apologists who challenged Greco Roman pagan religionists Current literature misunderstands  
second century exegetical approaches but by looking behind anachronistic views of ancient genre literacy and rhetoric we  
can rediscover a forgotten form of early Christian exegesis      **Authorial Personality and the Making of Renaissance**
